Terms and Abbreviations.....	15
1 Introduction .....	17
<b>1.1 Overview of the User Handbook</b> .....	17
1.1.1 UHB Methodology .....	17
1.1.2 UHB Structure .....	20
<b>1.2 Overview of the Graphical User Interface</b> .....	21
1.2.1 Setup and Login Procedures.....	21
1.2.2 GUI Structure.....	23
1.2.2.1 Menu Structure .....	23
1.2.2.2 Screen Structure .....	24
1.2.2.3 Screen Types.....	26
1.2.2.4 Field Types and Properties .....	27
1.2.2.5 Common Buttons and Icons .....	34
1.2.3 Validation.....	40
1.2.4 Communication Network and Services .....	44
1.2.5 User Administration .....	44
1.2.6 Security and Certification Services .....	44
1.2.7 Online Help.....	45
2 Screen Reference Part .....	46
<b>2.1 General</b> .....	46
<b>2.2 Services</b> .....	51
2.2.1 Additional Services.....	51
2.2.1.1 Data Changes – Search/List Screen .....	51
2.2.1.2 Data Changes – Details Screen .....	54
2.2.1.3 Queued Data Changes - Search/List.....	57
2.2.1.4 Queued Data Changes – Details.....	60
2.2.1.5 Inbound Files – Search/List .....	62
2.2.1.6 Inbound File – Details .....	65
2.2.1.7 Inbound Message – Search/List .....	67
2.2.1.8 Inbound Message – Details .....	72
2.2.1.9 Outbound Files – Search/List .....	75
2.2.1.10 Outbound File – Details .....	77
2.2.1.11 Outbound Message – Search/List .....	80
2.2.1.12 Outbound Message – Details .....	85
2.2.1.13 Available Reports – Search/List .....	88
2.2.1.14 Available Reports – Details.....	91
2.2.1.15 Available Reports - Statement of Common Reference Data details .....	93
<b>2.3 Common</b> .....	97
2.3.1 Parties .....	97
2.3.1.1 Parties – Search/List Screen .....	97
2.3.1.2 Party – Details Screen .....	104

2.3.1.3 Party – New/Edit Screen.....	110
2.3.1.4 Technical Addresses Network Services Link – Details Screen .....	126
2.3.1.5 Technical Addresses Network Services Link – New/Edit Screen.....	127
2.3.1.6 Party Service Link – Search/List Screen .....	130
2.3.1.7 Party Service Link – Details Screen .....	135
2.3.1.8 Party Service Link – New/Edit Screen .....	138
2.3.1.9 TIPS Directory – Search/List Screen .....	147
2.3.1.10 Restricted Parties – Search/List Screen.....	149
2.3.2 Cash .....	151
2.3.2.1 Cash Accounts – Search/List Screen .....	151
2.3.2.2 Cash Account – Details Screen .....	158
2.3.2.3 Cash Account – New/Edit Screen .....	165
2.3.2.4 Limits – Search/List Screen .....	185
2.3.2.5 Limit – New/Edit Screen .....	191
2.3.2.6 Authorised Account User – Search/list Screen.....	197
2.3.2.7 Authorised Account User – New/Edit Screen .....	201
2.3.2.8 Standing/Predefined Liquidity Transfer Order – Search/List Screen.....	207
2.3.2.9 Standing/Predefined Liquidity Transfer Order – Details Screen.....	213
2.3.2.10 Standing/Predefined Liquidity Transfer Order – New/Edit Screen .....	218
2.3.3 Access Rights Management.....	226
2.3.3.1 Users – Search/List Screen .....	226
2.3.3.2 User – Details Screen.....	231
2.3.3.3 User – New/Edit Screen .....	234
2.3.3.4 Certificate Distinguished Names – Search/List Screen .....	236
2.3.3.5 Certificate Distinguished Names – New/Edit Screen .....	239
2.3.3.6 User Certificate Distinguished Name Links – Search/List Screen.....	240
2.3.3.7 User Certificate Distinguished Name Link – New/Edit Screen .....	244
2.3.3.8 Roles – Search/List Screen .....	247
2.3.3.9 Role – New/Edit Screen.....	250
2.3.3.10 Grant/Revoke System Privileges – Search Screen.....	251
2.3.3.11 Grant/Revoke System Privilege – Details Screen .....	253
2.3.3.12 Grant/Revoke System Privilege – New/Edit Screen.....	255
2.3.3.13 Grant/Revoke Cross-System Entity Object Privilege - Details Screen.....	260
2.3.3.14 Grant/Revoke Cross-System Entity Object Privilege – New/Edit Screen .....	261
2.3.3.15 Grant/Revoke Object Privilege - Details Screen.....	266
2.3.3.16 Grant/Revoke Object Privilege - New/Edit Screen .....	267
2.3.3.17 Grant/Revoke Roles – Search/List Screen.....	273
2.3.3.18 Grant/Revoke Role – Details Screen.....	275
2.3.3.19 Grant/Revoke Role – New/Edit Screen .....	278
2.3.3.20 Privileges – Search/List Screen.....	282
2.3.3.21 Secured Groups - Search/List Screen.....	285

2.3.3.22 Secured Group - Details Screen.....	288
2.3.3.23 Secured Group – New/Edit Screen .....	291
2.3.3.24 User Access Rights Check - Search Screen .....	295
2.3.3.25 User Access Rights - List Screen .....	296
2.3.4 Message and Reports .....	301
2.3.4.1 Message Subscription Rule Sets – Search/List Screen .....	301
2.3.4.2 Message Subscription Rule Set – Details Screen .....	306
2.3.4.3 Message Subscription Rule Set – New/Edit Screen .....	311
2.3.4.4 Message Subscription Rule – New/Edit Screen .....	315
2.3.4.5 Report Configurations – Search/List Screen .....	326
2.3.4.6 Report Configuration – Details Screen .....	333
2.3.4.7 Report Configuration – New/Edit Screen.....	337
2.3.5 Market Specific Configuration .....	347
2.3.5.1 Restriction Types – Search/List Screen .....	347
2.3.5.2 Restriction Type - Details Screen .....	352
2.3.5.3 Restriction Type - New/Edit Screen.....	356
2.3.5.4 Restriction Type Rule - New/Edit Screen .....	361
2.3.6 Network Configuration.....	375
2.3.6.1 Distinguished Name-BIC Routing – Search/List Screen .....	375
2.3.6.2 Distinguished Name-BIC Routing – New/Edit Screen .....	380
2.3.6.3 Routing – Search/List Screen .....	384
2.3.6.4 Routing – New/Edit Screen.....	388
2.3.6.5 BIC Directory – Search/List Screen .....	395
2.3.6.6 Network Services - Search/List Screen .....	399
2.3.7 Scheduling.....	401
2.3.7.1 Closing Days – Search/List Screen .....	401
2.3.7.2 Event Types – Search/List Screen .....	405
2.3.7.3 Event Type – Details Screen .....	407
2.3.8 General Configuration Parameters .....	409
2.3.8.1 System Entity – Search/List Screen .....	409
2.3.8.2 Minimum Reserve Configuration Search/List Screen.....	412
2.3.8.3 Currencies - Search/List Screen.....	414
2.3.8.4 Countries - Search/List Screen.....	416
2.3.9 Billing.....	418
2.3.9.1 Invoice Configurations – Search/List Screen.....	418
2.3.9.2 Invoice Configurations – Details Screen.....	422
2.3.9.3 Invoice Configuration – New/Edit Screen .....	426
2.3.9.4 VAT – Search/List Screen .....	435
2.3.9.5 VAT – New/Edit Screen .....	438
2.3.9.6 Service Items – Search/List Screen .....	441
2.3.9.7 Service Item – Details Screen .....	443

2.3.9.8 Tariffs – Search/List Screen .....	445
2.3.10 Revisions .....	447
2.3.10.1 Revision/Audit Trail – List Screen.....	447
2.3.10.2 Revision/Audit Trail – Details Screen .....	449
2.3.10.3 Common Reference Data Revisions - Search/List Screen .....	451
<b>2.4 T2 .....</b>	<b>453</b>
2.4.1 Cash .....	453
2.4.1.1 Account Monitoring Group – Search/List Screen .....	453
2.4.1.2 Account Monitoring Group – Details Screen .....	457
2.4.1.3 Account Monitoring Group – New/Edit Screen .....	459
2.4.1.4 Liquidity Transfer Group – Search/List Screen.....	463
2.4.1.5 Liquidity Transfer Group – Details Screen.....	465
2.4.1.6 Liquidity Transfer Group – New/Edit Screen .....	467
2.4.1.7 Settlement Bank Account Group – Search/List Screen.....	471
2.4.1.8 Settlement Bank Account Group – Details Screen.....	474
2.4.1.9 Settlement Bank Account Group – New/Edit Screen .....	477
2.4.1.10 Direct Debit Mandate – Search/List Screen .....	481
2.4.1.11 Direct Debit Mandate – New/Edit Screen .....	485
2.4.1.12 Standing Order for Reservation – Search/List Screen .....	489
2.4.1.13 Standing Order for Reservation – New/Edit Screen .....	493
2.4.2 Party .....	496
2.4.2.1 Banking Group – Search/List Screen .....	496
2.4.2.2 Banking Group – Details Screen .....	499
2.4.2.3 Banking Group – New/Edit Screen .....	501
2.4.2.4 Ancillary System Bilateral Agreement – Search/List Screen.....	506
2.4.2.5 Ancillary System Bilateral Agreement – New/Edit Screen .....	510
2.4.2.6 Ancillary System Procedures – Search/List Screen .....	514
2.4.2.7 Ancillary System Procedure – Details Screen.....	517
2.4.2.8 Ancillary System Procedures – New/Edit Screen.....	518
2.4.2.9 Billing Group – Search/List Screen.....	530
2.4.2.10 Billing Group – Details Screen.....	533
2.4.2.11 Billing Group – New/Edit Screen .....	536
2.4.3 Configuration .....	540
2.4.3.1 CLM Repository – Search/List Screen .....	540
2.4.3.2 RTGS Directory – Search/List Screen.....	543
<b>3 User Instructions Part .....</b>	<b>546</b>
<b>3.1 General .....</b>	<b>546</b>
<b>3.2 Digital Signature.....</b>	<b>547</b>
3.2.1 Digital Signature (NRO).....	547
<b>3.3 Access Rights .....</b>	<b>549</b>
3.3.1 Configuration of a Role.....	549

3.3.1.1 Create a new Role .....	550
3.3.1.2 Grant Privileges to a Role .....	551
3.3.1.3 Grant System and Object Privileges to a Role .....	552
3.3.1.4 Assign a Role to a Party .....	556
3.3.1.5 Assign a Role to a User .....	558
3.3.2 Configuration of a Privilege (Two-Step Approach) .....	560
3.3.2.1 Grant a Privilege to a Party .....	561
3.3.2.2 Grant Privilege to a User .....	565
3.3.2.3 View Privilege Details .....	569
3.3.3 Configuration of a Secured Group .....	570
3.3.3.1 Create a New Secured Group .....	570
3.3.3.2 Assign a Secured Object to a Secured Group .....	571
3.3.4 Configuration of a User .....	573
3.3.4.1 Create a New User .....	573
3.3.4.2 Create a New Certificate Distinguished Name .....	574
3.3.4.3 Create a New User Certificate Distinguished Name Link .....	575
3.3.4.4 Grant Privilege to a User .....	576
3.3.4.5 Assign a Role to a User .....	580
3.3.5 Usage of the 4-Eyes Mode .....	582
3.3.5.1 Initiate an Action in 4-Eyes Mode .....	582
3.3.5.2 Approve an Action in 4-Eyes Mode .....	583
<b>3.4 Rule Sets .....</b>	<b>584</b>
3.4.1 Configuration of a New Message Subscription Rule Set .....	584
3.4.2 Create a New Message Subscription Rule Set .....	584
<b>3.5 Liquidity Transfer .....</b>	<b>586</b>
3.5.1 Creation of a New Standing/Predefined Liquidity Transfer Order .....	586
3.5.1.1 Create a New Standing/Predefined Liquidity Transfer Order .....	587
<b>3.6 Party Management .....</b>	<b>588</b>
3.6.1 Administration of Participants .....	588
3.6.1.1 Create a New Participant .....	589
3.6.1.2 Edit an Existing Participant .....	591
3.6.1.3 Delete an Existing Participant .....	594
3.6.1.4 Create a Party Service Link .....	595
3.6.1.5 Create a Distinguished Name-BIC Routing configuration .....	597
<b>3.7 Reports .....</b>	<b>597</b>
3.7.1 Report Management .....	597
3.7.1.1 Create a New Report Configuration .....	598
3.7.1.2 View Available Reports .....	599
<b>3.8 Revisions .....</b>	<b>600</b>
3.8.1 Monitoring of Revisions .....	600
3.8.1.1 View Revisions .....	600

<b>3.9 Account Management</b>	602
3.9.1 Administration of Cash Accounts	602
3.9.1.1 Create a New Cash Account	602
3.9.1.2 Edit an Existing Cash Account	603
3.9.1.3 Delete an Existing Cash Account	605
3.9.1.4 Create a Cash Accounts Group	606
3.9.1.5 Create an Authorised Account User	607
3.9.1.6 Edit an Authorised Account User	608
3.9.1.7 Delete an Authorised Account User	609
3.9.1.8 Usage of RTGS Directory	609
3.9.1.9 Change the Limit of a Payment Bank	611
<b>3.10 Technical Addresses</b>	612
3.10.1 Configuration of a Technical Address	612
3.10.1.1 Add a new Technical Address to a Party	612
3.10.1.2 Create a New Technical Address Service Link	614
<b>4 Annex</b>	616

## Terms and Abbreviations

The terms and abbreviations are shown in the table below. You find terms with their description and the abbreviations, both in an alphabetical order.

Letter	Description
<b>C</b>	
Check box 	Square box that can be filled with a checkmark by clicking on it with the mouse. In contrast to the radio button, you can select more than one option with a check box.
<b>D</b>	
DD	Day (e.g. used within the timestamp, every letter stands for one digit)
d	Decimal number
<b>E</b>	
e.g.	For example (Latin: 'exempli gratia')
<b>H</b>	
hh	Hour (e.g. used within the timestamp, every letter stands for one digit)
<b>I</b>	
i.e.	That is (Latin: 'id est')
Incl.	Including
<b>M</b>	
Mouse-over 	Additional information for some elements of the GUI is only shown when you move the mouse-pointer to these elements.
MM	Month (e.g. used within the timestamp, every letter stands for one digit)
mm	Minute (e.g. used within the timestamp, every letter stands for one digit)
min.	Minimum
max.	Maximum

Letter	Description
10m	10 million
<b>N</b>	
NRO	Non-repudiation of origin (NRO) provides the recipient (CRDM) with the evidence NRO which ensures that the originator (CRDM actor) will not be able to deny having sent the U2A instruction. The evidence of origin is generated by the originator and held by the recipient.
<b>Q</b>	
QQ	Quarter, indicates a time span of three months, e.g. Q2 stands for the second quarter of the year.
<b>R</b>	
Radio button 	A type of GUI element that allows the user to choose only one of a predefined set of options.
<b>S</b>	
Select box 	A select field in the GUI with an arrow on the right side. By clicking on the arrow, all possible input values are shown and can be selected with a mouse-click.
SS	Semester, indicates a time span of six months, e.g. S1 stands for the first semester.
ss	Second (e.g. used within the timestamp, every letter stands for one digit)
<b>T</b>	
10t	10 thousand
Timestamp	A sequence of characters, denoting the date and the time in CRDM.
<b>Y</b>	
YYYY	Year (e.g. used within the timestamp, every letter stands for one digit)

# 1 Introduction

## 1.1 Overview of the User Handbook

The CRDM User Handbook, hereinafter called UHB, aims at facilitating the use of the Graphical User Interface of the Common Reference Data Management (CRDM GUI). It is intended for any CRDM user regardless of the focus of activities and describes the full range of functionalities available in user-to-application (U2A) mode. The UHB provides detailed reference information on all GUI screens and step-by-step instructions for typical workflows.

### Target Audience

The content of the handbook is addressed to all actors: central banks (CBs), central securities depositories (CSDs), CSD participants, external CSD users, payment banks and ancillary systems. By referring to the table of contents as well as to the usage indication list, each reader can easily identify the relevant parts.

### Related documentation

The UHB is part of the functional documentation and complements the UDFS. In particular, chapter one of the UDFS contains a detailed description of the business concepts used in CRDM, which are also relevant when using the GUI. The UHB is divided into two parts. UHB Book 1 describes all the common reference data objects that are common in almost all the TARGET services, while UHB Book 2 is focused on the reference data objects that are used in T2S only.

### Updates

Updated versions of the UHB will be provided on a regular basis.

### 1.1.1 UHB Methodology

Several symbols and methodological elements are used throughout the CRDM UHB to ease orientation and help you to find your desired information quickly.

### Page Layout

Every page of the main UHB parts has a similar page layout. You can find four different elements:

- the header, which shows the chapter and sub-chapter title
- the margin column on the left side of each page, which is used for subheadings and information signs
- the text column, which contains the main information, tables and screenshots
- the footer, which shows the name and the release of the document as well as the page number

## Information Signs

Name	Icon	Description
Notice sign		Notice signs are used to highlight useful information. Read its content to find out about hints, action alternatives or other details helping you to improve your usage of the CRDM GUI.
Example sign		Example signs are used to highlight examples, which illustrate the corresponding text, especially when a verbal description is difficult or too extensive.

## Links

Links are illustrated throughout the UHB with a little triangle followed by a page number within squared brackets. These links help you to jump to related sections by clicking on them or turning to the relevant page.

Illustration 1: Link illustration

## Tables

Tables are used to present information in a clearly arranged format. They consist of a table head and a table body. The body is divided into a left and a right column. The left column contains keywords, for example field names, which are explained in the right column. Subsections within a table are preceded by a heading. The order of the description follows the appearance on the screen from left to right and from top to bottom.

## Type Set

Regular text in the UHB is written in Arial Unicode MS font with a size of 11pt. Screen and button names are written in italic letters, GUI paths use the Courier New font. Field names and field values are put in quotation marks if they appear in a context other than their dedicated description.

Element	Format	Example
Screen name	Italic letters	<i>Data changes – search/list screen</i>
Button name	Italic letters	<i>New button</i>
GUI path	PC code	Common >> Parties >> Parties
Field name or '...' value quotation		'Opening Date' ; 'Active'

## Action Steps

Business scenarios are divided into single action steps. These action steps are numbered sequentially. Intermediate results are described where appropriate and marked with an indented arrow. Each business scenario ends with a final result, indicated by an arrow.

### Example

1. Action step 1
2. Action step 2
  - ⇒ Intermediate result
3. Action step 3
  - ➡ Result

## Screenshots

Screenshots are used to illustrate the corresponding text. Note that there might be minor deviations between the screenshot and your screen appearance, according to your access rights or a specific selection you have made. In addition, some functions are mutually exclusive and cannot be represented in a single screenshot. In these cases, the screenshot illustrates the more prevalent use of the screen.

Values shown on a screenshot might also deviate from the default values indicated in the description. In these cases, the description is valid rather than the screenshot.

Illustration 2: Screenshot of Party New/Edit screen

## 1.1.2 UHB Structure

The UHB is structured in three parts and is complemented by an annex.

### Part 1

The **introduction** explains the aim, the content and the approach of both the UHB and the GUI. While the first section explains how to use the UHB, the second section focuses on the design and common functionalities of the GUI.

The overview of the UHB includes information about:

- The UHB methodology [▶]
- The UHB structure [▶]

The overview of the GUI consists of information about:

- Setup and login procedures [▶]
- GUI structure, including information about the menu structure, screen structure, screen types, field types and properties, and common buttons and icons [▶]
- Validation [▶]
- Communication network and services [▶]
- User administration [▶]
- Security and certification services [▶]
- Online help [▶]

Refer to this part if you need information on how to use the UHB or on common functionalities of the GUI.

### Part 2

The **screen reference part** starts with a general section serving as a reader's guide for this part. It is followed by the screen descriptions of all screens

contained in the GUI. Each description follows an identical structure which comprises detailed information on all screen fields.

The screen reference part is structured along the first and second GUI menu level, followed by the screens in alphabetical order. Within this alphabetical order, all screen types belonging to the same business function are grouped together to follow the business logic (*search/list* screen, *details* screen, *new/edit* screen).

Refer to this part if you need detailed and precise information on a screen, field or button.

### Part 3

The **user instructions part** starts with a general section serving as a reader's guide for this part. It is followed by step-by-step instructions for typical GUI workflows, called business scenarios. Each description follows an identical structure.

Related business scenarios are grouped into comprehensive business packages, which are further grouped into categories.

Refer to this part if you need to know how to carry out an action using the GUI.

### Annex

The **annex** supplies detailed information complementing the UHB:

- Annex Section 4.1 - Sitemap [▶]: Hierarchical, structured illustration of all screens and their interrelations

- Annex Section 4.2 - List of privileges [▶]: For each screen, all privileges and their corresponding description are listed

- Annex Section 4.3 - List of references for error messages [▶]: For each screen, all references for error messages, the error text and the corresponding description are listed

## 1.2 Overview of the Graphical User Interface

The GUI is a browser-based application for communication with CRDM in U2A mode. It is based on the ISO norm 9241 'Ergonomics of human system interaction'.

### 1.2.1 Setup and Login Procedures

Before entering the GUI, make sure that your workstation complies with the hardware and software requirements and implement all necessary preparations (e.g. firewall settings) described below.

Such requirements/preparations may be subject to periodical review/update to comply with changing technical/regulatory scenario.

<b>Hardware requirements</b>	Please refer to the “ESMIG U2A Qualified Configurations” annex of ESMIG UDFS.
	Please refer to the “ESMIG U2A Qualified Configurations” annex of ESMIG UDFS.
<b>Software requirements</b>	Please refer to the “ESMIG U2A Qualified Configurations” annex of ESMIG UDFS.
<b>Supported Web-Browsers and Settings</b>	Please refer to the “ESMIG U2A Qualified Configurations” annex of ESMIG UDFS.
<b>GUI Access</b>	Users are directed to an initial page named ESMIG portal that ensures proper routing to the web applications the user has been granted to enter.

The screenshot displays the ESMIG Portal interface. At the top, there is a header with the 'target services' logo, a welcome message 'Welcome C', the date '2022-01-28 15:42', and system information 'Stage: IAC | Version 1.0.1 | Go Sign Client: 32 bit 64 bit'. Below the header is a large banner with the text 'Services List' and 'Choose an Application and your System User Reference'. The main content area is divided into three sections: 'Choose a Service', 'Choose Component or Application', and 'Choose a System User'. In the 'Choose a Service' section, 'T2S' is selected with a green checkmark. In the 'Choose Component or Application' section, 'CRDM' is selected with a green checkmark. In the 'Choose a System User' section, 'C' is selected with a green checkmark. A 'Submit' button is located at the bottom left of the form.

Illustration 3: ESMIG Portal

The ESMIG Portal screen expects the user to select the relevant service to enter based also on the type of Party. For CSD and CSD Participant only T2S service is present.

After the selection of the Service, the user is invited to select a specific component or application.

As a third step, once the component or application is selected, the user is requested to select the System User.

After submitting the screen, the user is redirected to the selected component or application.

In order to properly access the ESMIG PORTAL and to select service and components, the user must be granted with the relevant privileges:

- | T2S Access: the user granted with this privileges can see “T2S” under “Choose a Service” section and “T2S GUI” under “Choose Component or Application” section.
- | CRDM\_Access: the user granted with this privileges can see “CRDM” under “Choose Component or Application” section.
- | BILL\_Access: the user granted with this privileges can see “Billing” under “Choose Component or Application” section.
- | BDM\_Access: the user granted with this privileges can see “Business Day Management” under “Choose Component or Application” section.
- | DMT\_Access: the user granted with this privileges can see “Data Migration Tool” under “Choose Component or Application” section.
- | TMS\_Access: the user granted with this privileges can see “TMS” under “Choose Component or Application” section.
- | ORT\_Access: the user granted with this privileges can see “Operational Reporting Tools” under “Choose Component or Application” section.

**NRO specific requirements**

Please refer to the “ESMIG U2A Qualified Configurations” annex of ESMIG UDFS.

## 1.2.2 GUI Structure

This chapter explains the basic elements of the CRDM GUI structure (i.e. structure of the menu and the screens) helping you to navigate through the system and to use it quickly and efficiently.

The first subsection describes the menu structure where screens are grouped hierarchically. Afterwards, the second subsection explains the layout structure common to each screen. The following subsections provide details on the different screen types [▶] and on recurring elements, such as common field types [▶] or buttons and icons [▶].

### 1.2.2.1 Menu Structure

The GUI menu is structured into four hierarchical menu levels. The hamburger menu appears when the proper icon is selected. After the first level is presented, it is possible to choose the functionalities that are common to the shared services and those that are specific for T2 or TIPS. Then the menu can be further navigated - the second, third and fourth menu levels are accessible via mouse-over on the first-level menu item - in order to select the desired functionality.

## Hint

Depending on your access rights, it is possible that not all menu entries are visible for you. Contact your system administrator to verify that you have the necessary privileges to access all screens relevant to you. The privileges are listed in each screen and business scenario description.

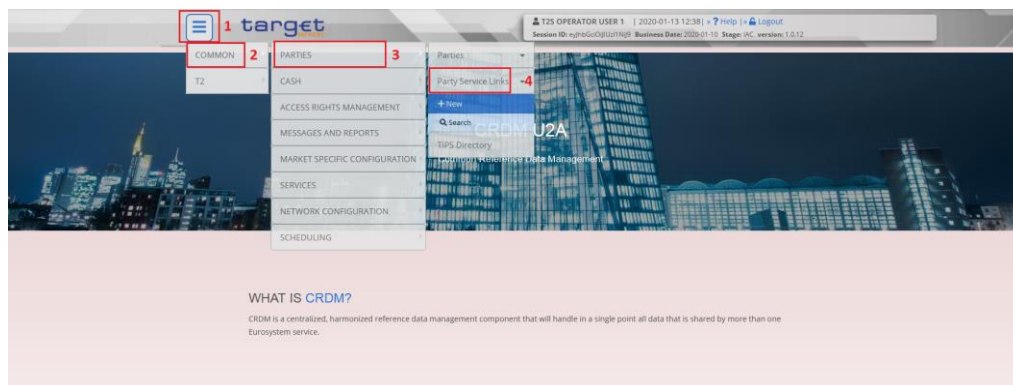

Illustration 4: CRDM menu levels

Position No.	Description
1	Menu level 1
2	Menu level 2
3	Menu level 3
4	Menu level 4

All entries on the third menu level are structural subcategories. To access a screen you have to click on the fourth menu level.

### 1.2.2.2 Screen Structure

In general, each screen of the CRDM GUI follows the same layout containing a header and a content area.

The header appears at the top of every screen. It contains three main elements providing useful information and helping you to navigate between the different screens as shown in the illustration below.

## Header

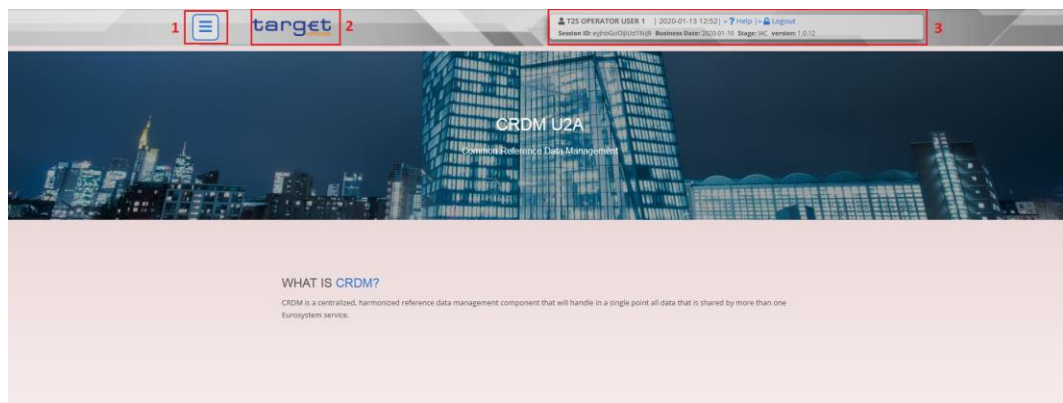

Illustration 5: Header elements

Position No.	Element	Description
1	Menu bar	... presents the main menu item and allows you to navigate to the screens.
2	CRDM logo button	... links to the welcome screen.
3	Information panel	... displays your login name, the <i>logout</i> and <i>help</i> buttons as well as date and time of last data access.

## Content Area

The content area is the part of the GUI where you can trigger all business actions. It is organised by five main elements which help you to interact properly with the GUI as shown in the illustration below.

To structure large amounts of data, the content area is further separated into frames and sub-frames.

Illustration 6: Content area elements

Position No.	Element	Description
1	Breadcrumb	... shows the main path to the current screen.
2	Basic icons	... exports or prints the screen content.
3	Frame and sub-frame title	... groups related information as a structural function.
4	Button bar	... shows all available buttons for the current screen.

Further information about the icons can be found in the common buttons and icons section.

### 1.2.2.3 Screen Types

The CRDM GUI consists of the following types of screens, each with a different function:

- | *Welcome* screen
- | *Search/List* screen
- | *Details* screen
- | *Enter* screen (usually *new* or *edit* screen)

#### **Welcome Screen**

The welcome screen is the entrance into the CRDM GUI.

#### **Search/List Screen**

You can access all search/list screens on menu level four.

The *search/list* screen allows you to query the CRDM database using a predefined set of search criteria. After executing a search, a list of data records matching your search criteria is displayed in a table. To select an entry from a list displayed on a *search/list* or *list* screen, click on the desired entry. The background colour of the table line changes to indicate the selected entry. If the search retrieves only one record, the *details* screen is displayed directly, if you are authorised to access the *details* screen, else the record is displayed in the table in the *list* screen. You can browse through the list using the table buttons. Furthermore, it is possible to arrange your search results in ascending or descending order by the columns shown. This does not trigger a refreshed query.

#### **Details Screen**

In contrast to the *search/list* screen, you can only access the *details* screens via other screens.

All *details* screens provide you with in-depth information of a previously selected data record.

Before showing the *details* screen, a new query is forwarded to the system to ensure most up-to-date data.

## Enter Screen

Similar to the *details* screens, you can only access the *enter* screens through other screens.

*Enter* screens allow you to enter data, which can be done in two enter modes:

- New mode, represented by the *new* screens
- Edit mode, represented by the *edit* screens

In general, both modes contain the same fields. In the case of the *new* mode, all fields are blank. In the case of the *edit* mode, existing data are prefilled in the fields. In addition, one past value is reported (if available) which cannot be edited. You can edit the existing currently valid value by changing the content of the field. You can only edit an existing currently valid value provided that there is no future value. Otherwise, you need to delete the existing future value beforehand. You can also enter a new future value by clicking on the *pencil* icon.

### 1.2.2.4 Field Types and Properties

#### Field Types

The description of the common field types with the proper descriptions follow.

#### Input Fields

In input fields you can enter text and/or numeric content. Make sure to comply with the format requirements, which are part of each field/screen description.

Input-sensitive fields are input fields with an auto-complete mode that helps you to input data. As soon as you start typing the first characters of the respective data into an input-sensitive field, CRDM automatically proposes possible matching entries from which you can select the desired one.

Illustration 7: Input-sensitive field

## Hint

You can use the tab key on your keyboard to navigate through the GUI fields.

BIC8 that are entered via GUI are automatically supplemented to BIC11 by adding 'XXX' in order to unambiguously identify a party.

Select fields are either select boxes, radio buttons or check boxes.

## Select Fields

**Select boxes:** Functionally a select box is a way to enter data from a limited list of possible values. In CRDM you can find different types of select boxes, standard select box, input-sensitive select box and auto-complete select box.

**The standard select box** enables the user to choose one entry from a predefined set of values. To select an entry, click on the little box with the arrow to open the menu. Then select the desired value by clicking on it.

Illustration 8: Standard select box

**The input-sensitive select box** enables the user to enter the desired value manually, which will be used to reduce the possible set of values in the input-sensitive select box list, which provides you with a drop-down menu that shows the 10 first entries of the set of values irrespective of what you might have entered in the text field.

Illustration 9: Input-sensitive select box using the *input-sensitive select box* icon and *input-sensitive select box* with manually entered values.

**The auto-complete select box** enables the user, differently from the input-sensitive select box, to make entries and choose values outside the standard set of values to be sent to the back-end for further validation (extended data scope). Due to that possibility of transporting unqualified data the validation of the values

is restricted to basic checks and will be carried out mainly in the backend. Apart from that, the auto-complete select box functions similar to the input-sensitive select box.

Illustration 10: Auto-complete select box

**Radio buttons:** Enable the user to make exact selections using one value from a set of options. You can select only one value at the same time. Click on the icon corresponding to the option you would like to select.

Illustration 11: Radio buttons

**Check boxes:** Enable you to select more than one value at the same time. Click on the boxes corresponding to the options you would like to select. Selected check boxes contain a check mark.

Illustration 12: Check boxes

## Wildcards

A wildcard is a placeholder for characters and it represents any acceptable character or a set of them in a string. In CRDM you can use a wildcard in input fields or google-style fields in all the search screens to search for data widening the result to all the strings matching the pattern. The required number of characters is indicated in the field description. CRDM accepts two possible values:

- '\*' that is a placeholder for one or more characters of the input value;
- '?' that is a placeholder for exactly one character of the input value.

## Examples

CRDM\*: The result list contains all data records beginning with 'CRDM'.

\*Account: The result list contains all data records ending with 'Account'.

CRD?: The result list contains all data records that have any acceptable character at the end of 'CRD', e.g. 'CRDM', 'CRDX', etc.

The combination of the wildcard '\*' is not possible, e.g. 'CRD?\*' or 'CR\*\*'

The wildcards are always usable in the fields reported before with the following restrictions:

- It is possible that to properly search with wildcards you have to insert at least two or four characters. In this case, the minimum number of characters to be entered is reported in the field remarks;
- It is possible that a field does not allow wildcards; in this case, this is explicitly mentioned in the Remarks field.

## Read-only Fields

In addition to enter and select fields, the CRDM GUI has also read-only fields, which are pre-filled and do not allow data changes.

## Field Properties

All field types have specific properties with respect to possible character sets, and mandatory content.

## Date

A Date type field has the following format: YYYY-MM-DD. There are four digits representing the year, two digits representing the month and two digits representing the day.

The default value of Date fields, unless differently specified, is BLANK.

Generally, if a closing date value is not specified, the system will automatically set the date "9999-12-31".

The field Date is always linked to a calendar icon that opens a calendar where you can select a day. It is possible to insert a date writing in the field or using the calendar.

## Time <sup>1</sup>

The Time type field has the following format: HH:MM. There are two digits representing the hour and two digits representing the minute.

## DateTime<sup>1</sup>

A DateTime type field has the following format: YYYY-MM-DD HH:MM. There are four digits representing the year, two digits representing the month, two digits representing the day, two digits representing the hour and two digits

<sup>1</sup> The Time in the system refers to the CET/CEST zone.

representing the minute. The field DateTime is always linked to a calendar icon that opens a calendar where you can select a day. It is possible to insert a date writing in the field or using the calendar.

## Amount

The GUI will show the amounts with all decimal points, English Format (the decimal separator will be a "." and the thousand separator is ",") and right alignment.

Amounts can be entered up to 18 figures, that is maximum 19 characters if the decimal separator is present.

When the amount field is in read-only mode or the amount field is not selected for typing, the amount shows the thousand separator.

When the user is typing the numbers, the amount is shown without the thousand separators.

The number of decimals is defined by the currency.

Negative amounts (shown by the system but not entered by the user) are written in red and marked with a "-" (This rule applies for all negative values).

According to the character set, only numerical characters (decimal – abbreviation "d") can be used for amounts plus the negative symbol.

Field	Description	Validation	Error Code
Amounts	Contains an Amount.	The Amount must be greater than or equal to 0.	The amount must be greater than or equal to 0.
Amounts	Number of Decimals of an amount	The Amount must have <number of decimals> stored for the currency.	Wrong format in field <field name>. The correct format has to be xxx.xxx,<number of decimals> stored for the currency>.
Amounts	Character set to be used	It is only possible to use a numerical character set.	Only numerical characters are allowed

## Quick Input Entries

To facilitate a quicker input, the user can enter the following characters in fields that require the input of amounts:

■ The character T (or t) represents thousands, thereby allowing the user to enter three zeros directly, e.g. to enter 5T instead of 5,000;

■ The character M (or m) represents millions, thereby allowing the user to enter six zeros directly, e.g. to enter 5.5M instead of 5,500,000;

The input of the respective character immediately converts the entry into a value with the corresponding number of zeros.

For quick input entries, the GUI is not case sensitive.

## Numeric

There are different type of numeric field. In general these fields, in edit mode, can contain only numbers and “-“ symbol.

Field	Description	Edit mode	New mode
Numeric	Can contain only natural numbers (positive integer).	Only numbers are allowed.	The thousand separator is shown.
Integer	Can contain positive and negative integer values.	Numbers and char “-“ are allowed.	The thousand separator is shown. When negative, the char “-“ is shown and the string is in red.
Positive Real	Can contain positive values with decimals. When using this type, the number of decimal must be specified.	Numbers and decimal separator are allowed.	The thousand and decimal separators are shown.
Real	Can contain positive and negative values with decimals. When using this type, the number of decimal must be specified.	Numbers, decimal separator and char “-“ are allowed.	The thousand and decimal separators are shown. When negative, the char “-“ is shown and the string is in red.
Percentage	Can contain positive values with decimals. When using this type, a maximum of 5 digit(s) including decimal point (thereof max. 2 decimal places and decimal point) are allowed.	Numbers and decimal separator are allowed.	The thousand and decimal separators are shown plus “%” symbol.
Percentage + negative	Can contain positive and negative values with decimals. When using this type, the number of decimal must be specified.	Numbers, decimal separator and char “-“ are allowed.	The thousand and decimal separators are shown plus “%” symbol. When negative, the char “-“ is shown and the string is in red.

Telephone Number	<p>Shall contain numbers from 0 to 9 and chars "+", "-", "(", ")" are allowed. When using this type, the following pattern shall be respected:</p> <ul style="list-style-type: none"> <li>- Starting with "+"</li> <li>- Then at least one to maximum three digits</li> <li>- Then symbol "-"</li> <li>- Then at least one to maximum thirty characters (digits and symbols "+", "-", "(", ")" are allowed).</li> </ul>	Numbers and The chars "+", "-", "(", ")" are shown (e.g. '+012-3456789').
------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------

## Characters

CRDM operates in British English and uses the SWIFT-x character set to enter data: if not described differently, the fields are intended to be based on the SWIFT-x character set. CRDM can accept the UTF-8 character set with the exception of '<', '>' and '&' in specific fields; when this happens, this is explicitly reported.

The GUI does not differentiate between upper and lower case in terms of data input for input fields.

The SWIFT-x character set corresponds with the following content:

Character	Description
a - z	26 small characters of the Latin alphabet
A - Z	26 capital characters of the Latin alphabet
0 - 9	10 numeric characters
/	Solidus (slash)
-	Hyphen
?	Question mark
:	Colon
(	Opening parenthesis
)	Closing parenthesis
.	Full stop
,	Comma

Character	Description
'	Apostrophe
+	Plus
	Space (blank)
CR	Carriage return
LF	Line feed

### Hint

CRDM does not process fields (mandatory or optional), that are only filled with blanks. Blanks appearing at the beginning or at the end of a field entry are deleted automatically without any notification.

Fields in a *list* or *details* screen, where the dataset was saved without an entry, are filled with '---'.

### Mandatory Content

In the GUI all mandatory fields are marked with a red line in the label. All marked fields have to be filled in before you are allowed to proceed. The red line is turned into green when the field contains a value or is selected.

Illustration 13: Mandatory fields

Position No.	Description
1	Mandatory select field
2	Mandatory input field

### 1.2.2.5 Common Buttons and Icons

While working with the CRDM GUI you will find that some buttons and icons appear regularly. There are three types of common elements:

- Basic icons, which you can find on every screen
- Utility elements, which represent functions within the content area
- Table elements, which you can find below data record lists on *search/list*

The buttons contained in the button bar are variable and therefore explained in the screen descriptions.

## Basic Icons

Illustration 14: Basic icons

Position No.	Element	Description
1	Export icon	<p>... exports the data of the executed query from the current screen into a csv-file.</p> <p>If exporting a list, the related search criteria are exported as well whereas detailed data are only exported, if the respective list and the details screen are covered by the same query. Otherwise just the list entry will be exported.</p> <p>The export icon is common to all CRDM screens except for the welcome and the new screens.</p> <p>In addition to the exported data from the screen the following information is exported at the start of the file: name of the exported screen (including menu path), current date, name of the user who triggered the exporting, classification label 'RESTRICTED', timestamp of the export, defined search criteria (query parameters, if applicable), 'CHANGED DATA' when exporting an edit screen which contains amended data that has not been submitted yet.</p>
2	Print icon	<p>... prints the data of the current screen.</p> <p>It is strongly recommended to use this button for generating a clearly arranged overview of data on the printout.</p> <p>The print icon is common to all CRDM screens except for the welcome screen.</p>

### Illustration 15: Utility Elements

Position No.	Element	Description
1	<i>Calendar</i> icon	... opens a calendar where you can select a day. If applicable, you can also select the time via the <i>calendar</i> icon.
2	<i>Pencil</i> icon	<p>... enables you to enter a new future value into an input field.</p> <p>In edit mode, you can either change an existing data record or enter a new future one. If you have changed the existing current value before entering a future one, the data are restored.</p> <p>The <i>pencil</i> icon is only available on <i>edit</i> screens.</p>
3	<i>Delete row</i> icon	<p>... removes the selected row in the corresponding list as well as fields or sub-frames.</p> <p>The <i>delete row</i> icon is only available on <i>new</i> and <i>edit</i> screens.</p>
4	<i>Submit changes</i> icon	<p>... updates the selected row in the corresponding list using the values inserted in the related fields.</p> <p>The <i>submit changes</i> icon is only available on <i>new</i> and <i>edit</i> screens.</p>
5	<i>Cancel changes</i> icon	<p>... enables you to leave the selected and edited row without causing any changes.</p> <p>The <i>cancel changes</i> icon is only available on <i>new</i> and <i>edit</i> screens.</p>
6	<i>Magnifier</i> icon	<p>... provides the possibility to search for data on other screens.</p> <p>If you are not aware of the exact/correct value, but you know other related data, click on the <i>magnifier</i> icon to enter the <i>search</i> screen. There you can enter all information known to you and execute a search. By clicking on the <i>select</i> button, you are redirected to the initial screen with the desired data entered in the respective fields.</p> <p>The attribute equipped with magnifier icon works otherwise like an auto-complete select box.</p>
7	<i>Heart</i> icon, Restore row icon	<p>... restores the selected row in the corresponding list or sub-frames.</p> <p>The Heart icon is only available on lists or sub-frames.</p>

Illustration 16b: Table Elements - Supplementary filters in list objects

Position No.	Element	Description
1	Sort icon	... sorts the list in ascending or descending order by clicking on the up or down arrow.

2	Supplementary filter	<p>... allows in-memory filtering, depending on the type of fields, of the displayed list of items according to additional criteria as shown below.</p> <p>Data fields supplementary filter criteria:</p> <ul style="list-style-type: none"> <li>Equals</li> <li>Greater than</li> <li>Less than</li> <li>Not equal</li> <li>In range</li> </ul> <p>Text fields supplementary filter criteria:</p> <ul style="list-style-type: none"> <li>Equals</li> <li>Not equal</li> <li>Starts with</li> <li>Ends with</li> <li>Contains</li> <li>Not contains</li> </ul> <p>Predefined supplementary filter criteria:</p> <p>It contains an adaptive list of values which is consistent with the related search criterion. E.g. for any Status field, the predefined supplementary filter contains the following values: 'All', 'Active', 'Deleted'.</p> <p>When a supplementary filter criterion is used, the list is automatically filtered in memory without submitting the query to the back-end. When applied, any supplementary filter can be removed by individually resetting the corresponding filter.</p> <p>If a supplementary filter is applied, a small icon near the column header is displayed, as shown in the following image.</p> 
---	----------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

### 1.2.3 Validation

In CRDM, all submission processes undergo various validations, which take place in the front-end and/or in the back-end. Only correct entries, fulfilling all predefined criteria, can be further processed. To indicate the status of the recently performed action, CRDM uses two different types of messages to indicate a successful or failed validation as described below.

In addition to the automatic validation carried out by CRDM, human validation can be imposed by using the 4-eyes mode.

Furthermore, non-repudiation of origin (NRO) is implemented for a specified number of screens.

#### Front-End Validation

As first part of the validation process, the front-end validation takes place without communication to the back-end. The front-end validation includes both the field validation and the cross-field validation. It is carried out after clicking on a button.

The field validation verifies that all entries comply with the required format.

The cross-field validation checks the data consistency between two or more fields/buttons in relation to each other.

#### Back-End Validation

The back-end validation is the second part of the validation process. After successful front-end validation, your request is submitted to the back-end and checked for compliance with the business validation rules. In case of failure an error message is displayed. You can find a detailed list of all error messages and their description in the annex of the UHB (list of references for error messages [►]).

#### Result

After each validation, the CRDM GUI informs you about the result. There are two different message types available, the **error message** and the **success message**.

#### Error Message

Each error message appears as a pop-up on the upper right corner of the screen. In the case of a failed front-end or back-end validation, it indicates the source of the failure, the type of error and a short hint.

Status	Opening Date	Closing Date	Type	Parent BIC	BIC	LEI	Short Name
Active	2019-07-25	9999-12-31	Payment Bank	NCBXTRR001	PMBKTRR300		PMBK300

Illustration 17: Error message

## Success Message

The success message appears as a pop-up on the upper right corner of the screen. It confirms that your data have been submitted successfully.

If you are working in 4-eyes mode, the success message also provides you with the 4-eyes principle ID.

Illustration 18: Success message

## 4-Eyes Mode

Depending on the access rights setup, you can use CRDM in 2-eyes or in 4-eyes mode. The 2-eyes mode and the 4-eyes mode apply for *enter* screens (new and edit mode) and for any kind of deletion processes. If you are a 4-eyes mode user, your actions have to be confirmed by a second user in order to be processed.

## First User

In 4-eyes mode the first user enters, changes or deletes the data on a screen and afterwards submits the action by clicking on the *submit* button in the button bar. The success message appearing after successful validation includes a 4-eyes principle ID. For the final execution a second user is needed to confirm the action.

## Second User

After the first user has entered, changed or deleted the data, a second user (with the required privilege) has to approve or revoke this action via the *data changes* screen [▶] either using the 4-eyes mode ID or the search functionality.

As soon as the data changes are positively approved, CRDM marks these data as approved and they are forwarded to further processing.

## Digital Signature NRO

In order to ensure non-repudiation of origin (NRO) for critical transactions, the system foresees the use of a digital signature for specified screens: the user must enter a PIN code for signature purposes whenever a specific action is initiated. The certificate used for digital signature must be linked to the logical “user” logged in CRDM. With the entry of the PIN, CRDM attaches a digital signature to the instruction entered by the actor.

Illustration 19: Digital Signature

The following (exhaustive) list provides an overview of screens for which the NRO feature is implemented:

- Attribute Domains - Search/List screen
- Attribute Domain - Details screen
- Attribute Domain - New/Edit screen
- Attribute Domain References - List screen
- Attribute Domain Reference - Details screen
- Attribute Domain Reference - New/Edit screen
- Cash Account - New/Edit screen
- CoSD Rules - Search/List screen
- CoSD Rule - New/Edit screen
- CoSD Rule Sets - Search/List screen
- CoSD Rule Set - New/Edit screen
- CSD Account Links – Search/List screen

- | User - New/Edit screen
- | User - Select/List screen
- | User-Certificate DN Link – New/Edit screen
- | User-Certificate DN Link – Select/List screen

## 1.2.4 Communication Network and Services

Refer to the ESMIG UDFS document for details on the communication network and services.

## 1.2.5 User Administration

**Registration** Only registered users have access to the CRDM GUI, therefore registration in CRDM reference data and to the network is necessary prior to the first GUI access. The Registration Guide provides information on how to fill in Registration Forms properly.

After registration the system administrator is given the possibility to grant and revoke privileges to its users within the CRDM GUI as described in both the screen reference part and the user instructions part.

## 1.2.6 Security and Certification Services

In order to guarantee a secure and safe handling of the information and to protect customer data provided via the GUI, various security elements have been put into place:

- | Each action requires System or human validation as described in the validation [►]
- | The scope of available data and functions is controlled via the management of access rights
- | The security features provided by the network providers and described in their respective user documentation prevent unauthorised access

---

## 1.2.7 Online Help

The content of the UHB can be accessed from the CRDM GUI by clicking on the *help* button.

## 2 Screen Reference Part

### 2.1 General

The screen reference part offers a complete overview of all CRDM GUI screens that are available in U2A mode. Each screen description focuses on a single screen and explains all fields contained therein. An exception is made for the *new* and *edit* screens, which are largely similar and therefore included in a single screen description. The description is always based on and contains only the screenshot of the *edit* screen, but describes deviations for the *new* screen in a separate row for each field or button description.

Illustration 20: Example of a *new* and *edit* screen description

Position No.	Element
1	Description relevant for <i>new</i> mode.
2	Description relevant for <i>edit</i> mode.

In detail, every screen description has the same structure and contains the following elements.

#### Context of Usage

The context of usage explains what a screen displays, what you can do with the screen and which special features are available for the screen, for example the need for confirmation in 4-eyes mode or usage restrictions. If the export functionality produces more data than shown on the screen (if a *list* screen is based on a detailed query), this is also indicated in the context of usage.

#### Screen Access

The screen access lists all possible ways to access the screen. This includes navigation via the menu and navigation via other screens.

## Examples

Navigation via the menu:

Common >> Cash >> Cash Account >> *cash accounts – search/list* screen

Navigation via other screens:

Common >> Parties >> Parties >> *Technical Address Network Service Link* >>

Click on the *new* or *edit* button

When navigating via a *search/list* or *list* screens, a data record has to be selected by clicking on a table row. Afterwards, you can click on specific buttons in the button bar, e.g. the *edit* or *details* button.

## Privileges

The privileges segment lists all necessary privileges to access the screens and to use its functions. First, the privileges to access a screen are mentioned, followed by the privileges that are necessary to use all functions on the screen. For further information, refer to the list of privileges [►].

## Reference

The reference lists all business scenarios containing the respective screen (reference to the user instructions part).

## Screenshot

You can use the screenshot as orientation for your work with the UHB. All screenshots are based on the maximum of access rights, so deviations are possible if you do not own all privileges which are necessary to use the screen in its full extent. In addition, deviations between the screenshot and the field/button description are possible in the case of mutually exclusive functions and based on a specific selection you have made. Values shown on the screenshot might also deviate from the default values indicated in the description.

In the case of the *new/edit* screen description, the screenshot of the *edit* screen is used. Differences appearing in the *new* screen are explained in the field description.

## Field Description

The field description provides all the relevant information related to the respective field name. It is structured in table format with a separate table for each frame. Sub-frames are indicated by subsection headings in the table. The following illustration explains the structure of a field description.

Party 2	
Opening Date 1	<p>Enter the opening date of the party or use the calendar icon. 3</p> <p>Reference for error message [ ]: 6</p> <ul style="list-style-type: none"> <li>DPC1205</li> <li>DPU1206</li> <li>DPU1208</li> </ul> <p>The inserting opening date must be equal or greater than the current business date. 5</p> <p>This field is mandatory in create mode.</p> <p>This field is read-only in edit mode if the current business date is greater than the "opening date". 7</p> <p>Required format is: YYYY-MM-DD. 4</p>

Illustration 21: Example of a screen description

Position No.	Element	Description
1	Field name	<p>... indicates the respective name of each screen field.</p> <p>Mandatory fields are explicitly indicated. Input and select fields with no specific remark are always optional.</p>
2	Frame name	<p>... indicates the respective name of each screen frame.</p>
3	Field description	<p>... indicates the field type and required content. Each field description starts with a keyword, which illustrates your required activity:</p> <ul style="list-style-type: none"> <li>■ 'Shows...' indicates a read-only field [ ]</li> <li>■ 'Select...' indicates a select field [ ]</li> <li>■ 'Enter...' indicates an input field [ ]</li> <li>■ 'Enter or select...' indicates an input sensitive select box or an input field with suggestions [ ]</li> </ul> <p>If there is an exhaustive list of possible values, these are listed.</p>
4	Required/Displayed format	<p>... indicates all field format requirements related to the fields. If there is more than 1 format requirement, they are separated with a comma.</p> <p>In read-only fields the displayed format is only mentioned, if the field content is ambiguous. This applies especially to date fields.</p> <p>The following keywords are used for the format requirements:</p> <ul style="list-style-type: none"> <li>■ 'Digit' indicates numbers</li> <li>■ 'Character' indicates a character from the SWIFT-x character set [ ]</li> <li>■ 'Letter' indicates upper and lower case letters of the Latin alphabet</li> </ul>
5	Cross-field validations	<p>... indicate interdependencies between fields relevant for the validation of your input.</p>

		For further details on the validation process, refer to validation [ ▶ ].
6	References for error messages	<p>... indicates the code of all possible errors applying to the field during the back-end validation. The corresponding error text and error description is listed in the annex (list of references for error messages [ · ])</p> <p>For further details on the validation process, refer to validation [ ▶ ].</p>
7	Additional information	... indicates the useful information that is for filling in the field.

## Buttons

All buttons specific to the screen are listed and described in a table at the end of the screen description. The following illustration explains the structure of a button description.

Buttons		
1	Edit	<p>2 This function enables the user to edit the details of the selected party.</p> <p>3 If the status of the selected party is set to 'Deleted', this function is not available.</p> <p>4 If you have accessed this screen via another screen, this function is not available</p>

Illustration 22: Example of a button description

Position No.	Element	Description
1	Button name	... indicates the respective name of each button.
2	Button description	... indicates the action that is triggered when clicking on the button. Each button description starts with 'This function enables you...'
3	Cross-field validations	<p>... indicate interdependencies between a field and the button relevant for the validation of your input.</p> <p>For further details on the validation process, refer to validation [ ▶ ].</p>
4	Additional information	... indicates useful information regarding the button and/or its function.

For further information on common buttons, refer to Common Buttons and Icons.

## 2.2 Services

### 2.2.1 Additional Services

#### 2.2.1.1 Data Changes – Search/List Screen

##### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search for all reference data changes which were initiated in 4-eyes mode. You can use this screen to search for items which are waiting for approval, select those and approve or revoke them.

The search results will be displayed in a list, which is sorted by the values of the column 'Update Date and Time' in descending order (default setting). After selecting an entry, you can proceed further by clicking on the buttons below.

##### Screen Access

■ *Common >> Services >> Data Changes*

##### Privileges

To use this screen, the following Privileges is needed [▶]:

- Data Changes of a business object list query
- Data Changes of a Business Object Details Query
- The relevant privilege of the item to be approved/revoked

##### Reference

##### User Instructions Part

This screen is part of the following business scenarios:

- Initiate an action in 4-eyes mode [▶]
- Approve an action in 4-eyes mode [▶]

## Screenshot

Illustration 23: Data changes – search/list screen

## Fields Description

Data Changes - Search Criteria	
Action type	<p>Select the type of action initiated by the first user for a dedicated reference data object from the possible values:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>Each of the actions that can be done in 4-eyes-mode</li> </ul>
Users reference	<p>Enter the identification the first user added to his request.</p> <p>Required format is: max. 35x characters.</p>
4-Eyes Identification	<p>Enter the identification of the data change, automatically assigned by CRDM to an operation that has to be authorised by a second user.</p> <p>Required format is: max. 35x characters.</p>
Object Identifier	<p>Enter the object identifier of the added / changed / deleted object. It is the technical identifier of an object unless a business identifier is available for this object.</p> <p>Required format is: max. 35x characters.</p>

Date of Update	
From	<p>Enter the lower bound of the date from which the data change was requested.</p> <p>The default value is the current calendar date.</p> <p>Required format is: Date.</p>
To	<p>Enter the upper bound of the date until which the data change was requested.</p> <p>The default value is the current calendar date.</p> <p>Required format is: Date.</p>
CRDM System User	
User	<p>Enter the name of the last user who entered, edited or deleted the reference data.</p> <p>Required format is: max. 35x characters.</p>
Parent BIC	<p>Enter or select the Parent BIC of the party which the last user belongs to.</p> <p>Required format is: max. 11x characters.</p>
Party BIC	<p>Enter or select the BIC of the party which the last user belongs to.</p> <p>Required format is: max. 11x characters.</p>
Status	<p>Select the processing status of the data change from the possible values:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> All (Default value)</li> <li><input type="checkbox"/> Awaiting approval</li> <li><input type="checkbox"/> Queued</li> <li><input type="checkbox"/> Approved</li> <li><input type="checkbox"/> Rejected</li> <li><input type="checkbox"/> Revoked</li> </ul>

Data Changes - List	
Action type	Shows the type of action initiated by the first user for a dedicated reference data object.
Users Reference	Shows the identification by the first user added to his request.
4-Eyes Identification	Shows the identification of the change automatically assigned by CRDM to an operation that has to be authorised by a second user.

Object Identifier	Shows the object identifier of the added / changed / deleted object. It is the technical identifier of an object unless a business identifier is available for this object.
CRDM System User	Shows the name of the last user who entered, edited or deleted the static or dynamic data.
CRDM System Users Party	Shows the BIC of the party which the last user belongs to.
Date of Update	Shows the timestamp when the first user entered, edited or deleted the static or dynamic data. Displayed format is: Timestamp.
Status	Shows the status of the data change.

## Buttons

Search	This function enables the user to start a search according to the entered criteria. The results are displayed in a list on the same screen.  If the search retrieves only one record, the <i>details</i> screen is displayed directly.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
Details	This function enables the user to display the details of the selected data change.

### 2.2.1.2 Data Changes – Details Screen

#### Context of Usage

This screen displays detailed information on the selected reference data changes, changes are highlighted in red. You can check the data and proceed further by clicking on the buttons below. You can use this screen for approving/revoking reference data changes and to see details of already approved/revoked items.

#### Screen Access

Common >> Services >> Data Changes >> *search/list* screen >> Click on the *search* and/or *details* button

#### Privileges

To use this screen, you need the following privilege [►]:

- Data Changes of a Business Object Details Query

## Reference User Instructions Part

This screen is part of the following business scenarios:

- Initiate an action in 4-eyes mode [▶]
- Approve an action in 4-eyes mode [▶]

Illustration 24: Data changes – details screen

## Fields Description

Selected Data Changes	
Action type	Shows the type of action initiated by the first user.
4-Eyes Identification	Shows the identification assigned by CRDM to an operation that has to be approved by a second user.
Object Identifier	Shows the object identification of the reference data object returned by the subsequent module after a successful business validation. The object identifier includes the technical identification of the added, changed or deleted object.
CRDM System User – First User	

User	Shows the name of the first user who entered, edited or deleted the reference data.
Party BIC	Shows the BIC of the party which the first user belongs to.
Parent BIC	Shows the parent BIC of the party which the first user belongs to.
<b>CRDM System User – Second User</b>	
User	Shows the name of the second user who entered, edited or deleted the static or dynamic data.
Party BIC	Shows the BIC of the party which the second user belongs to.
Parent BIC	Shows the parent BIC of the party which the second user belongs to.
Date and Time	Shows the date and time when the user changed the data.
Status	Shows the processing status of the data change.
<b>Details of selected Data Change</b>	
<p>The whole pane consists of the respective screen of the object that is subject to the 4-eyes-action.</p> <ul style="list-style-type: none"> <li>If the action type is “Delete Data”, then the currently active data should be presented in this screen.</li> <li>If the action type is “Edit Data”, then the new values of the fields (which are pending at that moment and which should be approved) should be presented.</li> <li>If the action type is “New Data”, then the new values of the fields should be presented.</li> </ul>	
<b>List of Modification</b>	
Field Name	<p>Shows the name of the field where the first user has changed data, entered new data or deleted data.</p> <p>The following field should only be presented to the user if the action type is “Edit Data”.</p>
Old Value	<p>Shows the old value which is the currently active before the second user approves the changes.</p> <p>The following field should only be presented to the user if the action type is “Edit Data”.</p>
New Value	<p>Shows the pending value of the field which will be active after the second user approved the changes.</p> <p>The following field should only be presented to the user if the action type is “Edit Data”.</p>

## Buttons

Approve	<p>This function enables the user to approve the action initiated by the first user.</p> <p>This function is only available if the processing status of the data change is set to 'Awaiting Approval' and the system user has the necessary privileges.</p>
Revoke	<p>This function enables the user to revoke the action initiated by the first user.</p> <p>This function is only available if the processing status of the data change is set to 'Awaiting Approval' and the system user has the necessary privileges.</p>
Copy	<p>This function enables the user to copy fields to create a new data change with the same attributes.</p> <p>This function is only available if the processing status of the data change is set to 'Revoked'.</p>
Cancel	<p>This function enables the user to cancel the process and return to the previous screen.</p>

### 2.2.1.3 Queued Data Changes - Search/List

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search for queued maintenance instructions of a subset of CRDM objects if those have an impact on the settlement process. The screen only shows items in status 'Queued'. In the listed cases, items inserted/amended in 2-eyes mode are immediately set to status 'Queued', while the ones inserted/amended in 4-eyes mode are only 'Queued' after their approval. After selecting an entry, you can proceed further by clicking on the buttons below

#### Screen Access

Common >> Services >> Queued Data Changes

#### Privileges

To use this screen, the following Privileges are needed [▶]:

## Fields Description

Queued Data Changes – Search Criteria	
Object Type	<p>Select the object type from the possible values:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>External RTGS account</li> <li>Limit</li> <li>Party</li> <li>Routing</li> <li>Securities account</li> <li>Security</li> <li>Technical address network service link</li> <li>T2S dedicated cash account</li> </ul>
User Login	<p>Enter the login of the user that acted on the CRDM object or the one that approved the change.</p> <p>Required format is: max. 35 characters</p>
User Name	<p>Enter the name of the user that acted on the CRDM object or the one that approved the change.</p> <p>Required format is: max. 127 characters</p>

Party Parent BIC	Enter the parent BIC of the party to which the T2S system user, that acted on the CRDM object or approved the changes, belongs to. Required format is: max. 11 characters
Party BIC	Enter the BIC of the party to which the T2S system user, that acted on the CRDM object or approved the changes, belongs to. Required format is: max. 11 characters
From	Enter or pick the lower bound of the timestamp of the queuing. Required format is: Date
To	Enter or pick the upper bound of the timestamp of the queuing. Required format is: Date

Queued Data Changes – List	
Object Type	Shows the object type.
Action Type	Shows the type of the action that a T2S System user initiated.
Object Reference	Shows the reference (technical identification) of the selected object.
First User Login	Shows the login of the user who performed the CRDM maintenance action of the selected object at first ('2-eyes mode' and '4-eyes mode 1st step').
First User Name	Shows the name of the user who performed the CRDM maintenance action of the selected object at first ('2-eyes mode' and '4-eyes mode 1st step').
Parent BIC	Shows the parent BIC of the party to which the first user belongs to
Party BIC	Shows the BIC of the party to which the first user belongs to.
Second User Login	Shows the login of the user who approved the data change as second user ('4-eyes mode 2nd step').
Second User Name	Shows the name of the user who approved the data change as second user ('4-eyes mode 2nd step').
Parent BIC	Shows the parent BIC of the party to which the second user belongs to

Party BIC	Shows the BIC of the party to which the second user belongs to.
Timestamp of queuing	Shows the timestamp of the queuing of the selected object. Displayed format is: YYYY-MM-DD hh:mm:ss

## Buttons

Search	This function enables the user to start a search according to the filled in criteria.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
Details	This function enables the user to display the details of the selected queued data change.

### 2.2.1.4 Queued Data Changes – Details

#### Context of Usage

The screen displays detailed information on the selected queued data change, changes are highlighted in a different red. You can check the data and proceed further by clicking on the buttons below.

You can use this screen to revoke queued data changes and to see details of already revoked items.

#### Screen Access

**|** *Common >> Services >> Queued Data Changes – search/list screen >> Click on the search and/or details button*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

**|** Data Changes of a Business Object Details Query

## Screenshot

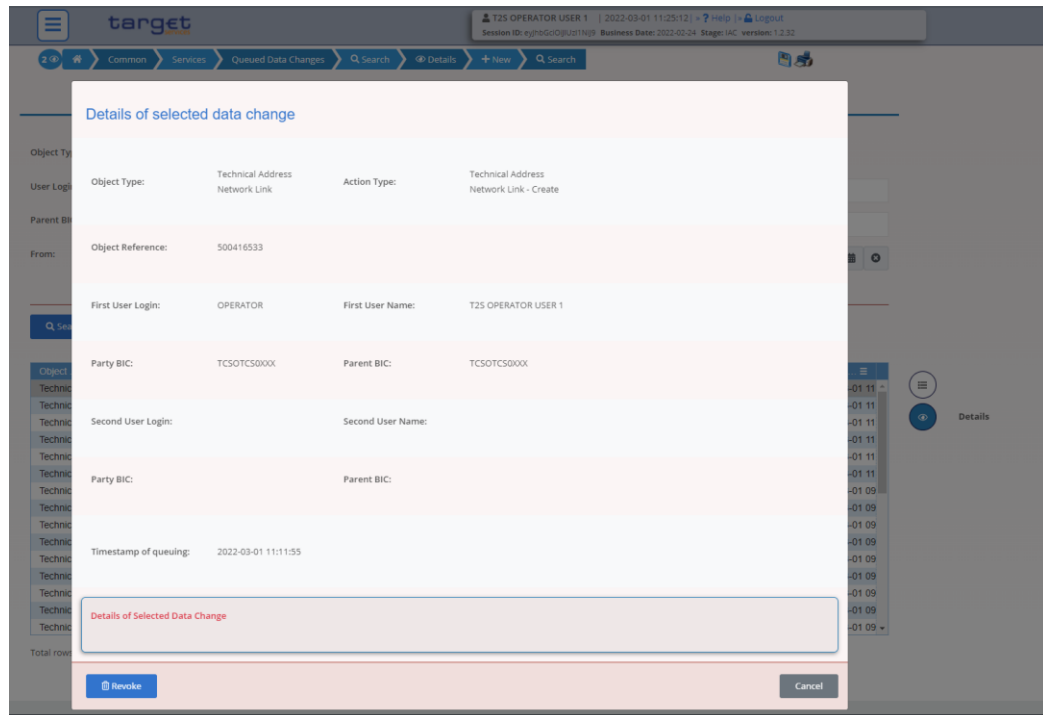

Illustration 26: Queued Data Change – details screen

## Fields Description

Queued Data Change	
Object Type	Shows the object type.
Action Type	Shows the type of the action that a T2S System user initiated.
Object Reference	Shows the reference (technical identification) of the selected object.
First User Login	Shows the login of the user who performed the CRDM maintenance action of the selected object at first ('2-eyes mode' and '4-eyes mode 1st step').
First User Name	Shows the name of the user who performed the CRDM maintenance action of the selected object at first ('2-eyes mode' and '4-eyes mode 1st step').
Parent BIC	Shows the parent BIC of the party to which the first user belongs to
Party BIC	Shows the BIC of the party to which the first user belongs to.
Second User Login	Shows the login of the user who approved the data change as second user ('4-eyes mode 2nd step').

Second User Name	Shows the name of the user who approved the data change as second user ('4-eyes mode 2nd step').
Parent BIC	Shows the parent BIC of the party to which the second user belongs to
Party BIC	Shows the BIC of the party to which the second user belongs to.
Timestamp of queuing	Shows the timestamp of the queuing of the selected object. Displayed format is: YYYY-MM-DD hh:mm:ss

Details of Selected Data Change	
Details of selected data change	<p>This frame consists of the respective details screen of the object that is subject to the action (e. g. if the action type refers to an action regarding a security, then the security – details screen is displayed).</p> <p>All the fields are read-only.</p>

List of Modification	
Field Name	Shows the name of the field, where the first user has entered new data or edited or deleted existing data
Old Value	Shows the currently active value of the field before the second user approves the changes.
New Value	Shows the pending value of the field, which will be active after the second user approved the changes

## Buttons

Revoke	This function enables the user to revoke the queued action. This function is only available if the user is allowed to revoke the data changes.
Cancel	This function enables the user to cancel the process and return to the previous screen

### 2.2.1.5 Inbound Files – Search/List

**Context of Usage** This screen contains a number of search fields. By inputting the relevant data, users can search for inbound files, specifying the selection criteria (e.g. the sender

file reference or the entry date, or range of dates). The search results will be displayed in a list, which is sorted by the values of the 'Entry Date and Time' column in descending order (default setting). After selecting an entry, users can proceed further by clicking on the buttons below. Users can see Inbound Files under their datascope.

## Screen Access

**|** *Common >> Services >> Inbound Files >> Search*

## Privileges

To use this screen, the following Privileges are needed [▶]:

**|** Inbound files list query

## Screenshot

Illustration 27: Inbound Files – search/list screen

## Fields Description

Inbound Files – Search Criteria	
Sender File Reference	<p>Enter the identification of the original file containing the message(s).</p> <p>Required format is: max. 35x characters.</p>
Received Communication Identification	<p>Enter the internal identification for the inbound communication assigned by the system.</p> <p>Required format is: max. 50x characters.</p>

User	Enter or select the user who initiated the communication under the data scope of the requestor. Required format is: max. 35 characters.
Network Service	Select the network service from the drop-down menu.
Party Short Name	Enter or select the short name of the business sending party under the data scope of the requestor. Required format is: max. 35 characters.
Party Technical Address - Sender	Enter the technical address (i.e. distinguished name) of the party. Required format is: max 256 characters (UTF-8 except '>', '<', '&').
Entry Date and Time - From	Enter or pick the lower bound of the search range for the calendar date and time from which the inbound file entered the system. Default value is the current calendar date and time. This field must be earlier than or equal to the current business date and earlier than the 'Entry Date and Time - To' field date. Required format is: DateTime.
Entry Date and Time - To	Enter or pick the upper bound of the search range for the calendar date and time until which the inbound file entered the system. Default value is the current calendar date and time. This field must be later than the 'Entry Date and Time - From' field date. Required format is: DateTime.

Inbound Files – List	
Entry Date and Time	Shows the calendar date and time when the inbound file entered the system.
Sender File Reference	Shows the identification of the original file.
Received Communication Identification	Shows the internal identification for the inbound communication assigned by the system.

User	Shows the user who initiated the communication.
Network Service	Shows the name of the network service.
Party Short Name	Shows the short name of the business sending party.
Party Technical Address - Sender	Shows the technical address (i.e. distinguished name) of the party.
Error Code	Shows the error code for the rejection.

## Buttons

Search	This function enables the user to start a search according to the filled in criteria.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
Details	This function enables the user to display the details of the selected inbound file.

### 2.2.1.6 Inbound File – Details

#### Context of Usage

This screen enables the user to display detailed information on the selected inbound file. User can check the data and proceed further by clicking on the button below.

#### Screen Access

■ *Common >> Services >> Inbound Files – search/list screen >> Click on the details button*

■ *Common >> Services >> Inbound Messages – search/list screen >> Click on the Inbound File button*

■ *Common >> Services >> Inbound Messages – search/list screen >> Click on the search and/or details button >> Inbound Messages – details screen >> Click on the Inbound File button*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

■ Inbound files details query

## Screenshot

Illustration 28: Inbound File – details screen

## Fields Description

Inbound File Details	
Sender File Reference	Shows the identification of the original file containing the messages.
Network Service	Shows the name of the network service.
Entry Date and Time	Shows the calendar date and time when the inbound file entered the system.
Party Short Name	Shows the short name of the business sending party.
Received Communication Identification	Shows the identification for the inbound communication assigned by the system.
User	Shows the user who initiated the communication.
Party Technical Address - Sender	Shows the technical address (i.e. distinguished name) of the party.
ISO 20022 Error Code	Shows the ISO 20022 error code.

Business File Header
User Details

Certificate DN	Shows the user information which was extracted from the signature tag in the file header.
System User Reference	Shows the identification of the system user which was extracted from the file header.
<b>Payload Details</b>	
Payload Identifier	Shows the identification of the file which was assigned by the sender of the file.
Creation Date and Time	Shows the date and time when the file was created by the sender.
Total Number of Documents	Shows the total number of messages within the file.
Payload Type Details	Shows the identification of the payload type and the declaration of the payload content.

<b>Document Details</b>	
Document Type	Shows the type of the document as specified in the ISO 20022 message type catalogue.
Number of Documents	Shows the number of messages for each declared type.

<b>Error Details</b>	
Error Code	Shows the error code for the rejection.
Dynamic Error Description	Shows a detailed error description explaining why the file was rejected.

#### Buttons

Related Inbound Messages	This function enables the user to display the inbound messages related to the selected inbound file.

### 2.2.1.7 Inbound Message – Search/List

**Context of Usage** This screen contains a number of search fields. By inputting the relevant data, you can search for Inbound messages. The search result will be displayed in a

list, which is sorted by the values of the 'Entry Date and Time' column in descending order (default setting). After selecting an entry, you can proceed further by clicking on the buttons below. Users can see Inbound Messages under their datascope.

## Screen Access

- *Common >> Services >> Communication >> Inbound Messages >> Search*

Illustration 30: Inbound Message – details screen

**Fields  
Description**

Inbound Message – Details screen	
Entry Date and Time	Shows the calendar date and time when the Inbound message entered into the related service.
Entry Business Date	Shows the business date when the inbound message entered into the related service.
Inbound Individual Message Identification	Shows the technical identification of the Inbound individual message.
Received Communication Identification	Shows the technical identification of the inbound individual message.
Sender Message Reference	Shows the reference of the original message as sent in Business Application Header.
Sender File Reference	Shows the Sender File Reference of the original file containing the message(s).
User	Shows the user who initiated the communication.
Sending Party Short Name	Show the short name of the sending party.
Network Service	Shows the name of the network service.
Business Validation Status	Shows the status of the Business Validation.
Inbound Queuing Status	Shows the status of the Inbound Queuing.
Message Type	Shows the ISO 20022 request type of the message.
Party Technical Address	Shows the technical address (i.e. distinguished name) of the sending party.
Certificate DN	Shows the user information which was extracted from the signature tag in the file header.
System User Reference	Shows the identification of the system user as extracted from the business application header.
Error	Shows the error code and description of the Business rule retrieved in the message if present.

Message Information	
Message Information	<p>Shows detailed information of the request.</p> <p>The content of the message is only displayed in case of small messages. Bigger messages can be displayed via the separate message export icon.</p> <p>Pressing this icon exports the message based on the xml document. In addition, root elements are present at the beginning and the end of the exported document. On top of the export, additional information about 'Time', 'User' and 'Screen of export' is available for documentation purpose.</p>

## Buttons

Related Outbound Message	This function enables the User to display the outbound messages related to the selected inbound message.
Inbound File	This function enables the User to display the details of the related Inbound file.

### 2.2.1.9 Outbound Files – Search/List

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search for outbound files. The search result will be displayed in a list, which is sorted by the values of the 'Delivery Date and Time' column descending order (default setting). After selecting an entry, you can proceed further by clicking on the buttons below. Users can see Outbound Files under their datascope.

#### Screen Access

**I** *Common >> Services >> Outbound Files >> Search*

#### Privileges

To use this screen, the following Privileges are needed [ ]:

- I** Outbound Files List Query
- I** Outbound Files Details Query

## Fields Description

Outbound Files – Search Criteria	
Sender File Reference	Enter the sender file identification of the original file containing the message(s). Required format is: max. 35x characters.
Network Service	Select the name of the network service. The default value is 'All'.
Receiving Party Short Name	Enter or select the short name of the receiving party from the dropdown menu. The default value is 'All'.
Party Technical Address	Enter the technical address (i.e. distinguished name) of the party. Required format is: max. 256 characters (UTF-8 except '<'; '>'; '&').
Outbound Queuing Status	Select the outbound queuing status of the file from the possible values: <ul style="list-style-type: none"> <li>All (default value)</li> <li>Active</li> <li>Deleted</li> </ul>
Delivery Timestamp - From	Enter or pick the lower bound of the search range for the date and time of the delivery. The default value is the current date – start of real-time settlement. Required format is: YYYY-MM-DD hh:mm:ss This field must be earlier than or equal to the current business date and earlier than the 'Delivery Timestamp - To' date.

Delivery Timestamp - To	<p>Enter or pick the upper bound of the search range for the date and time of the delivery. The default value is the current date and time.</p> <p>Required format is: YYYY-MM-DD hh:mm:ss</p> <p>This field must be later than the 'Delivery Timestamp - From' date.</p>
----------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Outbound Files – List	
Delivery Timestamp	Shows the date and time when the outbound file was delivered.
Sender File Reference	Shows the sender file identification of the original file containing the message(s).
Network Service	Shows the name of the network service.
Receiving Part Short Name	Shows the short name of the receiving party.
Party Technical Address	Shows the technical address (i.e. distinguished name) of the party.
Outbound Queuing Status	Shows the outbound queuing status of the file.

## Buttons

Search	This function enables the user to start a search according to the criteria entered.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
Details	This function enables the user to display the details of the selected outbound file.

### 2.2.1.10 Outbound File – Details

#### Context of Usage

This screen displays detailed information on the selected outbound file. You can check the data and proceed further by clicking on the buttons below.

## Screen Access

- *Common >> Services >> Outbound Files – search/list screen >> Click on the search and/or details button*

Illustration 35: Available Reports – search/list screen

Fields Description

Available Reports – Search Criteria	
Report Type	Select the type of report from the possible values: <ul style="list-style-type: none"> <li>All (default value)</li> <li>Statement of static data for T2S Dedicated Cash Accounts</li> <li>Statement of static data for Securities Accounts</li> <li>Statement of static data for Securities</li> <li>Statement of static data for Parties</li> </ul>
Delta Mode	Select the mode of report from the possible values: <ul style="list-style-type: none"> <li>All (default value)</li> <li>Yes</li> <li>No</li> </ul>

System Entity Wide Reports	<p>Select whether the report is a community report (covering all information referring to a system entity) or a party based report (covering all information referring to a party) from the possible values:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> All (default value)</li> <li><input type="checkbox"/> Yes</li> <li><input type="checkbox"/> No</li> </ul>
Parent BIC	<p>Enter or select the Parent BIC of the party whose data are reported.</p> <p>Required format is: max. 11x characters.</p>
Party BIC	<p>Enter or select the BIC of the party whose data are reported.</p> <p>Required format is: max. 11x characters.</p>
Date	<p>Enter or pick the creation date of the report.</p> <p>Required format is: Date.</p>
Scheduled Time	<p>Enter or pick the scheduled time of the (business) event triggering the report creation.</p> <p>If this field is filled, the 'Business Event' field must not be filled and vice versa.</p> <p>Required format is: Time.</p>
Business Event	<p>Select the business event.</p> <p>If this field is filled, the 'Scheduled Time' field must not be filled and vice versa.</p>

Available Reports – List	
Statement Number	<p>Shows the statement number of the report composed of the business date and report type (2-letter abbreviation depending on report type and Delta/Full-Flag) and the sequential number, which is unique in the system.</p> <p>The number increases for each report.</p>
Report Type	Shows the report type.
Delta Mode	Shows if the report is a delta report or not.

System Entity Wide Report	Shows whether the report is a community report (covering all information referring to a system entity) or a party based report (covering all information referring to a party).
Parent BIC	Shows the Parent BIC of the party whose data are reported.
Party BIC	Shows the Party BIC of the party whose data are reported.
Party Short Name	Shows the short name of the party.
Creation Date and Time	Shows the date and time of the report creation.
Covered Period From	Shows the date and time from which the data are covered in the report.
Covered Period To	Shows the date and time until which the data are covered in the report.
Scheduled Time	Shows the scheduled time which triggered the report creation.
Event	Shows the configured business event which triggered the creation of the report.
Currency	Shows the currency of a specific event in case it was specified in the report configuration.
Number of Items	Shows the number of business items which are reported with this report.

## Buttons

Search	This function enables the user to start a search according to the filled in criteria.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
Details	This function enables the user to display the details of the selected available report.

### 2.2.1.14 Available Reports – Details

#### Context of Usage

This screen enables the user to display detailed information on created reports. User can check the data and proceed further by clicking on the button below.

## Screen Access

Common >> Services >> Available Reports – search/list screen >> Click on the *details* button

## Privileges

To use this screen, the following Privileges are needed [▶]:

- Report list query
- Report details query

## Screenshot

### 2.2.1.15 Available Reports - Statement of Common Reference Data details

#### Context of Usage

This screen displays detailed information on statements of static data, which provide information on the changes of static data related to cash accounts, securities accounts, securities or parties. Only 1 type of statement is shown per report.

The report displayed in this screen has to be already created in accordance with its report configuration.

## Screen Access

**|** *Common >> Services >> Available Reports >> Available reports - search/list screen >> Click on the search and/or details button >> Available report - details screen >> Click on the details button*

## Privileges

To use this screen, the following Privileges are needed [▶]:

**|** Report Details Query

## Screenshot

*Illustration 37: Available Report - Statement of Static Data – search/list screen*

## Fields Description

General Statement Information	
Report Name	Shows the name of the report.
Delta Mode	Shows the delta mode of the report, which is always 'No'
Statement Number	Shows the statement number of the report composed of the business date and report type (2-letter abbreviation depending on report type and Delta/Full-Flag) and the sequential number, which is unique in CRDM.  The number increases for each report.
Report Number	Shows the sequential number of the report which is specific for a report receiving party.  This number will only be displayed if the sending user belongs to a report receiving party.
Scheduled	Shows the name of the business event or time triggering the report creation

Covered Period – From	Shows the date and time from which the data are covered in the report.
Covered Period –To	Shows the date and time until which the data are covered in the report.
Report Owner Parent BIC	Shows the parent BIC of the party whose data are reported.
Report Owner Party BIC	Shows the BIC of the party.
System Entity Wide Report	Shows whether the report is a community report (covering all information referring to a system entity) or a party based report (covering all information referring to a party).

List - Securities	
ISIN	Shows the ISIN whose static data are displayed. This field is only available if the statement of static data refers to securities.
Name of the Changed Field	Shows the name of the changed field.
Old Value	Shows the old value of the attribute that was changed.
New Value	Shows the new value of the attribute that was changed.
Change Date and Time	Shows the date and time of the change.

List – Cash Accounts	
Cash Account Number	Shows the T2S dedicated cash account for which the report is created. This field is only available if the statement of static data refers to Cash Accounts.
Name of the Changed Field	Shows the name of the changed field.
Old Value	Shows the old value of the attribute that was changed.

New Value	Shows the new value of the attribute that was changed.
Change Date and Time	Shows the date and time of the change.

List – Parties	
Parent BIC	Shows the parent BIC of the party whose data are reported. This field is only available if the statement of static data refers to parties.
Party BIC	Shows the party BIC whose data are reported. This field is only available if the statement of static data refers to parties.
Name of the Changed Field	Shows the name of the changed field.
Old Value	Shows the old value of the attribute that was changed.
New Value	Shows the new value of the attribute that was changed.
Change Date and Time	Shows the date and time of the change.

List – Securities Accounts	
Securities Account Number	Shows the number of the securities account. This field is only available if the statement of static data refers to securities accounts.
Name of the Changed Field	Shows the name of the changed field.
Old Value	Shows the old value of the attribute that was changed.
New Value	Shows the new value of the attribute that was changed.
Change Date and Time	Shows the date and time of the change.

## Buttons

Cancel	This function enables the user to cancel the process and return to the previous screen.

## 2.3 Common

### 2.3.1 Parties

#### 2.3.1.1 Parties – Search/List Screen

##### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search for parties. The search results will be displayed in a list, which is sorted by the values of the 'BIC' column in ascending order (default setting). After selecting an entry, you can proceed further by clicking on the buttons below.

Party reference data can only be created and edited by users belonging to the responsible CB, CSD or by the Service operator (for 'NCB' and 'CSD' party type).. Party reference data can only be viewed by users belonging to the responsible CB, CSD or to the party itself, while the Service operator can view all party data.

##### Screen Access

Common >> Parties >> Parties >> Search

##### Privileges

To use this screen, the following Privileges are needed [▶]:

- ▶ Party list query
- ▶ Party reference data query
- ▶ Delete party

### 2.3.1.2 Party – Details Screen

**Context of Usage** This screen displays detailed information on the selected party. You can check the data and proceed further by clicking on the buttons below.

**Screen Access** | *Common >> Parties >> Parties >> Parties – search/list screen >> Click on the search and/or details button*

**Privileges** To use this screen, the following Privileges are needed [▶]:

- | Delete party
- | Party reference data query
- | Technical address network service link details query

### Screenshot

The screenshot displays the 'PARTY DETAILS' screen. At the top, there is a navigation bar with 'Common', 'Parties', 'Parties', 'Search', and 'Details' tabs. Below the navigation bar, the 'PARTY DETAILS' section is visible. It includes fields for Status (Active), Parent BIC (NCBXITRR001), Closing Date (9999-12-31), Opening Date (2018-05-08), LEI (984300XB71E5DCFAE85), and Party Type (Payment Bank). Below these fields, there are four tables: 'Party Code', 'Party Name', 'Party Address', and 'Party Technical Address List'. Each table has a 'Valid From' column and a 'Total rows' indicator. The 'Party Code' table has columns for BIC and Status. The 'Party Name' table has columns for Long Name and Short Name. The 'Party Address' table has columns for Street, House Number, Postal Code, City, State or Province, and Country Code. The 'Party Technical Address List' table has a 'Technical Address' column.

Securities Accounts	<p>This function enables the user to display the securities accounts related to the selected party.</p> <p>This button is available only in case the shown party is a CSD, External CSD or a CSD participant.</p>
Cash Accounts	<p>This function enable the user to access the Cash Account list screen related to the party.</p>

	This button is visible only in case of the shown party is a Central Banks, an Ancillary System or a Payment Bank.
Technical Addresses Network Services Link	This function enable the user to see the list of the link among Technical Addresses associated to the Party and the Network Services.
Revisions	This function enables the user to display the revisions list of the selected party.

### 2.3.1.3 Party – New/Edit Screen

#### Context of Usage

This screen enables the user to create a new party or to modify an existing one, previously selected.

In edit mode, for the Parties relevant for TIPS when their block/unblock status in CRDM is different from TIPS, this screen allows the user to request the status alignment.

The button is visible only for the Parties relevant for TIPS and it is active only when the TIPS block/unblock status is different from the one in CRDM. This can happen when users set the block/unblock status in TIPS during CRDM closing hours.

The TIPS block/unblock status is different from the one in CRDM if:

- ⇒ TIPS status is “unblocked” and the Party has at least one valid restriction among
  - TPCR: Block for credit;
  - TPDB: Block for debit;
  - TPBO: Block for both debit and credit.
- ⇒ TIPS status is “Blocked for crediting” and the CRDM valid restrictions are different from TPCR.
- ⇒ TIPS status is “Blocked for debiting” and the CRDM valid restrictions are different from TPDB.
- ⇒ TIPS status is “Blocked for crediting/debiting” and the CRDM valid restrictions are different from TPBO or from the couple (TPCR, TPDB).

When the alignment is requested, the screen set the proper amendment to be performed in the restrictions set, creating new/amending the existing TIPS blocking restrictions with an immediate effect when the user submit the all form.

When performing the immediate unblock of the Parties relevant for TIPS the user edits the related active restriction(TPCR, TPDB, TPBO); clicking on the edit button (pencil) the fields Valid From and Valid to are greyed, in this situation and only for TIPS restrictions a fixed message is displayed in order to guide the user to the next action:

- Click + button to immediately unblock the TIPS party
- Click X button to cancel the action

--	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Party Technical Address List	
Technical Address	<p>Enter the Technical Address of the party.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DPU1006</li> <li>DPU1007</li> </ul> <p>This field is mandatory to ensure it is present for A2A parties and that U2A parties use a standard entry.</p> <p>Required format is: max 256x characters (UTF-8 except '&gt;', '&lt;', '&amp;').</p>

Party Restriction List	
This section reports only active restrictions with a present or future validity period.	
Current status (TIPS)	<p>This field is visible only if the party is relevant for TIPS and only in edit mode. It represents the blocking/unblocking status as present in TIPS for the party.</p> <p>Possible values are:</p> <ul style="list-style-type: none"> <li>Unblocked;</li> <li>Blocked for debiting;</li> <li>Blocked for crediting;</li> <li>Blocked for crediting/debiting.</li> </ul> <p>When the CRDM and TIPS blocking status are different, any existing TPCR, TPBD, TPBO restriction cannot be added (the item does not appear in the list of possible restrictions) or updated/deleted (their buttons are not active).</p>
Restriction	<p>Enter or select a restriction type from the suggested items in the drop-down menu.</p> <p>If Valid From is entered, this field is mandatory.</p>
Valid From	<p>Enter the starting validity date and time for the restriction. For CLM and RTGS, only date is allowed</p>

	<p>If a restriction is selected, this field is mandatory.</p> <p>Valid From date must be equal to or greater than the current business date.</p> <p>When creating a new restriction, in case the Party is relevant for TIPS and the restriction is TIPS related, only an immediate restriction can be inserted: the valid from field contains '1000-01-01-00.01' and cannot be amended.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DPC1025</li> <li>■ DPC1208</li> <li>■ DPC1209</li> <li>■ DPC1230</li> <li>■ DPU1005</li> <li>■ DPU1010</li> <li>■ DPU1025</li> <li>■ DPU1208</li> <li>■ DPU1209</li> <li>■ DPU1230</li> </ul> <p>Required format is: DateTime.</p>
Valid To	<p>Enter the ending validity date and time for the restriction. For CLM and RTGS, only date is allowed; if Valid To is set to the current business date the restriction is meant as removed with immediate effect, otherwise it is removed from the start of the specified date in CLM/RTGS.</p> <p>When the restriction type is one among TPCR, TPBD and TPBO, the field is read-only. If the user is creating a new restriction, the field is empty. If the user is amending an existing restriction, the field contains the value for immediate closure ('9999-12-31-23.59').</p> <p>Reference for error message [▶]:</p>

	<ul style="list-style-type: none"> <li>■ DPC1025</li> <li>■ DPC1207</li> <li>■ DPC1209</li> <li>■ DPU1005</li> <li>■ DPU1207</li> <li>■ DPU1209</li> <li>■ DPC1231</li> </ul> <p>Required format is: DateTime.</p>
--	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Party Contact	
Name	<p>Enter the name of the Party Contact.</p> <p>If the user wants to enter Party Contacts, this field is mandatory.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DPC1150</li> <li>■ DPU1150</li> </ul> <p>Required format is: max. 140x characters.</p>
Position	<p>Enter the position of the Party Contact.</p> <p>If the user wants to enter Party Contacts, this field is mandatory.</p> <p>Required format is: max. 35x characters.</p>
Valid From	<p>Enter the starting validity date for the Party Contact.</p> <p>If the user wants to enter Party Contacts, this field is mandatory.</p> <p>Valid From date must be equal to or greater than the current business date.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DPC1150</li> <li>■ DPU1005</li> <li>■ DPU1009</li> <li>■ DPU1010</li> <li>■ DPU1150</li> <li>■ DPU1500</li> </ul> <p>Required format is: DateTime.</p>
Valid To	<p>Enter the ending validity date for the Party Contact.</p>

	<p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DPC1150</li> <li>■ DPU1005</li> </ul> <p>Required format is: DateTime.</p>
Office Telephone Number	<p>Enter the office Telephone Number of the Party Contact.</p> <p>Required format is: Telephone Number.</p>
Mobile Number	<p>Enter the mobile Number of the Party Contact.</p> <p>Required format is: Telephone Number.</p>
E-mail address	<p>Enter the e-mail address of the Party Contact.</p> <p>Required format is: max. 254x characters, SWIFT-x including \!#\$%&amp;*^_{}~";&lt;&gt;@[].</p>
TIPS E2E Checker contact	<p>Select whether the party shall receive TIPS E2E checker communication to the e-mail address or not.</p>

#### Auto-Collateralisation Rule (For T2S only)

##### Only relevant for NCB or Payment Bank

Collateralisation Procedure	<p>Select the type of collateralisation procedure chosen for the party by the national central bank from the possible values:</p> <ul style="list-style-type: none"> <li>■ Pledge</li> <li>■ Pledge Sub-account</li> <li>■ Repo</li> </ul> <p>For payment banks this attribute, if inserted, must be equal to "Repo" (Pledge and Pledge Sub-account cannot be selected).</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DPC1304</li> <li>■ DPU1304</li> </ul>
Minimum Amount for Auto-collateralisation	<p>Enter the minimum amount to be sourced in an autocollateralisation operation involving the Party.</p> <p>This field is only available for Payment Banks.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DPC1303</li> <li>■ DPU1303</li> </ul> <p>Required format is: Amount.</p>

Minimum Amount for Client collateralisation	<p>This attribute shall specify the minimum amount to be sourced in a client collateralisation operation.</p> <p>This field is only available for Payment Banks.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DPC1303</li> <li>DPU1303</li> </ul> <p>Required format is: Amount.</p>
---------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Market Specific Attributes (For T2S only)	
Attribute Name	<p>Enter or select the name of the market-specific attribute related to the party.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DPU1252</li> <li>DPU1257</li> </ul> <p>Required format is: max. 35x characters.</p>
Attribute Value	<p>Enter or select the value of the market-specific attribute related to the party.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DPC1252</li> <li>DPC1254</li> <li>DPC1256</li> <li>DPC1257</li> <li>DPU1254</li> <li>DPU1256</li> </ul> <p>Required format is: max. 350x characters.</p>

## Buttons

Update Row	This function enables the user to edit the selected item in the related list using the values inserted in the related fields.
Delete Row	This function enables the user to remove the selected item from the related list.
Add Row	This function enables the user to add an item in the related list using the values inserted in the related fields.

#### Clone Row

This function enables the user to fill the input fields with the related data, after selecting a row and pushing this button.

## Submit

This function enables the user to create or edit a party.

After this button is pushed, the system calls the back end flow and reloads the page updating the list.</p> <p>The button is enabled only in case the user selects a link with status “deleted”.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DPD3001</li> <li>■ DPD3004</li> <li>■ DPD3005</li> <li>■ DPD3006</li> <li>■ DPD3007</li> <li>■ DPD3008</li> <li>■ DPD3009</li> </ul>

Reset	This function enables the user to set all fields to default value and blanks out all optional fields.
Back to Party	This function enables the user to cancel the action and return to the previous screen. No operations are performed.
Revisions	This function enables the user to display the Revisions List of the selected Technical Address Network Service Link.

### 2.3.1.6 Party Service Link – Search/List Screen

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search the Service to which a Party is linked. It is worth noting that a Payment Bank defined in the CRDM does not need to be linked to the “T2S” Service in order to operate in T2S. The search results are displayed in a list. After selecting an entry, you can proceed further by clicking on the buttons below.

#### Screen Access

Common >> Parties >> Party Service Links >> Search

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- Delete Party-Service Link
- Party-Service Link List query

Cancel	This function enables the user to cancel the process and return to the previous screen.

### 2.3.1.9 TIPS Directory – Search/List Screen

#### Context of Usage

This screen allows the authorised users searching for elements of the TIPS Directory. By inputting the relevant search data, you can search for the BICs satisfying the searching parameters. A user can use this screen for searching the items and showing the related list and downloading the details of the TIPS Directory, both full and update versions.

The result list is displayed sorted by default by “User BIC”.

#### Screen Access

| *Common >> Parties >> TIPS Directory >> TIPS Directory – Details screen*

## Privileges

To use this screen, the following Privileges are needed [▶]:

- TIPS Directory query

## Screenshot

Illustration 46: TIPS Directory – Search/List screen

## Fields Description

TIPS Directory - Search Criteria	
User BIC	Enter the Participant's BIC to search.

TIPS Directory - List	
User BIC	Shows the BIC configured as Authorised Account User in TIPS. This BIC identifies one and only one TIPS Account, TIPS Ancillary System Technical Account or TIPS Credit Memorandum Balance in TIPS and it is the BIC that shall be used to address Instant Payments in TIPS.
Institution Name	Shows the name stored in the CRDM BIC Directory together with the user BIC.
Party BIC	Shows the BIC that identifies a TIPS Participant or a Reachable Party in TIPS. This BIC is for information purpose only and it allows grouping all User BICs configured by a given TIPS Participant or Reachable Party. It cannot be used to address Instant Payments in TIPS.
Account Owner BIC	Shows the BIC of the TIPS Participant (or TIPS Ancillary System) owning the TIPS Account (or TIPS Ancillary System

	Technical Account) for which the User BIC has been authorised, also through a CMB.
Valid From	Shows the date from which the BIC is valid.
Valid To	Shows the date until which the BIC is valid.
Participation Type	Shows the type of participation of the User BIC.
Maximum IP Amount	Shows the maximum amount accepted by the corresponding TIPS Participant or Reachable Party in an incoming Instant Payment transaction.
Cross-currency	Shows whether the Authorised Account User BIC is authorised to accept cross-currency payments for the associated Cash Account.

## Buttons

Search	This function enables the user to start a search according to the entered criteria.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
TIPS Directory Last Full	This function enables the user to download the Full version of the last TIPS directory.
TIPS Directory Last Update	This function enables the user to download the Delta version of the last TIPS directory.
TIPS Directory Old Full	This function enables the user to download the Full version of the previous TIPS directory.
TIPS Directory Old Update	This function enables the user to download the Delta version of the previous TIPS directory.

### 2.3.1.10 Restricted Parties – Search/List Screen

**Context of Usage** This screen allows the authorised users to search for Restricted Parties according to their datascope. The result list is sorted by default by “Short Name”.

**Screen Access** | *Common >> Parties >> Restricted Parties >> Search*

**Privileges** To use this screen, the following Privileges are needed [▶]:  
| Restricted Party query

## Screenshot

Illustration 47: Restricted Party – search/list screen

## Fields Description

Restricted Parties - Search Criteria	
Parent BIC	Enter or select the parent BIC of the party. Required format is: max. 11x characters.
Party Type	Select the type of party from the possible values: <ul style="list-style-type: none"> <li>All (default value)</li> <li>Payment bank</li> <li>National Central Bank (NCB)</li> <li>Central Securities Depository (CSD)</li> <li>CSD Participant</li> <li>External CSD</li> <li>Ancillary System</li> </ul>
Restriction Date from	Enter or pick the lower bound for the validity date of the Restriction. Required format is: Date.
Restriction Date to	Enter or pick the upper bound for the validity date of the Restriction. Required format is: Date.
Restriction	Select the restriction from the drop-down menu.

Restricted Party – List	
Parent BIC	Shows the parent BIC of the party.
Party BIC	Shows the BIC of the party.
Short Name	Shows the short name of the party.
Party Type	Shows the type of party.
Restriction Date and Time	Shows the date and time from which the restriction is valid.
Restriction	Shows the identification of the restriction.

## Buttons

Search	This function enables the User to start a search according to the entered criteria. The results are displayed in a list on the same screen.
Reset	This function enables the User to set default search criteria and blanks out all optional criteria.
Details	This function enables the user to display the details of the selected party.
Edit	This function enables the user to edit the details of the selected party.
Parties	This function enables the user to display the parties list. This function enables the user to display the parties list.

## 2.3.2 Cash

### 2.3.2.1 Cash Accounts – Search/List Screen

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search for Cash Accounts. The search results will display a list sorted by the values of the 'Cash Account Number' column in ascending order (default setting). After selecting an entry, you can proceed further by clicking on the buttons below.

Users can see Cash Accounts under their datascope and the ones for which they have been defined as Co-Manager.

## Screen Access

| *Common >> Cash >> Cash Accounts >> Search*

| *Common >> Parties >> Parties >> Parties – search/list screen >> Click on the search and details button >> Click on the cash accounts button*

## Privileges

To use this screen, the following Privileges are needed [▶]:

- | Delete Cash Account
- | Cash Account list query
- | Cash Account reference data query

### 2.3.2.3 Cash Account – New/Edit Screen

#### Context of Usage

This screen contains a number of fields regarding cash accounts. You can enter new data or edit existing data. Afterwards you can proceed further by clicking on the buttons below. Central Bank users can edit Cash Accounts under their datascope and the ones for which they have been defined as Co-Manager.

Payment Bank and Ancillary System users can only edit floor/ceiling attributes (Floor Notification Amount, Ceiling Notification Amount, Target Amount After Breaching Floor, Target Amount After Breaching Ceiling, Floor Notification and Ceiling Notification) for Cash Accounts under their datascope and for the ones for which they have been defined as Co-Manager.

In edit mode, for TIPS Accounts or a TIPS Credit Memorandum Balances when their block/unblock status in CRDM is different from TIPS, this screen allows the user to request the status alignment.

The relevant button is visible only for TIPS Accounts or a TIPS Credit Memorandum Balances and it is active only when the TIPS block/unblock status is different from the one in CRDM. This can happen when users set the block/unblock status in TIPS during CRDM closing hours.

The TIPS block/unblock status is different from the one in CRDM if:

- TIPS status is "unblocked" and the relevant Account has at least one valid restriction among
  - o TACR: Block for credit;
  - o TADE: Block for debit;
  - o TABO: Block for both debit and credit.
- TIPS status is "Blocked for crediting" and the CRDM valid restrictions are different from TACR.
- TIPS status is "Blocked for debiting" and the CRDM valid restrictions are different from TADE.

- TIPS status is "Blocked for crediting/debiting" and the CRDM valid restrictions are different from TABO or from the couple (TACR, TADE).

When the alignment is requested, the screen set the proper amendment to be performed in the restrictions set, creating new/amending the existing TIPS blocking restrictions with an immediate effect when the user submit the all form.

When performing the immediate unblock of a TIPS Accounts or a TIPS Credit Memorandum Balances the user edits the related active restriction(TADE, TACR, TABO); clicking on the edit button (pencil) the fields Valid From and Valid to are greyed, in this situation and only for TIPS restrictions a fixed message is displayed in order to guide the user to the next action:

- Click + button to immediately unblock the cash account
- Click X button to cancel the action .

#### Screen Access

■ *Common >> Cash >> Cash Accounts >> New*

■ *Common >> Cash >> Cash Accounts >> Search >> click on New or Edit button*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- Create Cash Account
- Update Cash Account

Restrictions	
This section reports only active restrictions with a present or future validity period.	
Current status (TIPS)	<p>This field is visible only if the account is a TIPS Account or a TIPS Credit Memorandum Balance and only in edit mode. The field is read-only. It represents the blocking/unblocking status as present in TIPS for the account.</p> <p>Possible values are:</p> <ul style="list-style-type: none"> <li><b>Unblocked;</b></li> <li><b>Blocked for debiting;</b></li> <li><b>Blocked for crediting;</b></li> <li><b>Blocked for crediting/debiting.</b></li> </ul> <p>When the CRDM and TIPS blocking status are different, any existing TACR, TADE, TABO restriction cannot be added (the item does not appear in the list of possible restrictions) or updated/deleted (their buttons are not active).</p>
Restrictions	Enter or select the restriction type from the suggested items in the drop-down menu.

	<p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DCU1300</li> </ul> <p>This field is also available as a show field for existing records. Duplicate Restriction Type-Valid From combinations are not allowed and you will be shown an error message to indicate 'Duplicate key fields'. There are two possible cases when this error message is shown:</p> <ul style="list-style-type: none"> <li>New entry in sub-table with a duplicate key</li> <li>When in one session (prior submitting) a row is deleted and a new row with the same values (from the deleted entry) in key fields is entered</li> </ul>
Valid from	<p>Enter the date and time from which the cash account restriction is valid or use the calendar icon. For CLM and RTGS, only date is allowed.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DCC1025</li> <li>DCC1208</li> <li>DCC1209</li> <li>DCC1213</li> <li>DCC1214</li> <li>DCC1230</li> <li>DCU1260</li> <li>DCC1300</li> <li>DCU1211</li> <li>DCU1216</li> <li>DCU1219</li> <li>DCU1222</li> <li>DCU1223</li> <li>DCU1300</li> </ul> <p>This field is also available as a show field for existing records. Duplicate Restriction Type-Valid From combinations are not allowed and you will be shown an error message to indicate 'Duplicate key fields'. There are 2 possible cases when this error message is shown:</p> <ul style="list-style-type: none"> <li>New entry in sub-table with a duplicate key</li> </ul>

	<p>When in one session (prior submitting) a row is deleted and a new row with the same values (from the deleted entry) in key fields is entered.</p> <p>When the restriction type is one among TACR, TADE and TABO and the user is creating a new restriction, the field is read-only and contains the value for immediate creation ('1000-01-01-00.01').</p> <p>Required format is: DateTime.</p>
Valid to	<p>Enter the date and time until which the cash account restriction is valid or use the calendar icon. For CLM and RTGS, only date is allowed; if Valid To is set to the current business date the restriction is meant as removed with immediate effect, otherwise it is removed from the start of the specified date in CLM/RTGS.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DCC1212</li> <li>DCC1213</li> <li>DCC1214</li> <li>DCC1300</li> <li>DCU1212</li> <li>DCU1220</li> <li>DCU1222</li> <li>DCU1223</li> <li>DCU1261</li> <li>DCU1300</li> </ul> <p>This field is also available as a show field for existing records.</p> <p>When the restriction type is one among TACR, TADE and TABO, the field is read-only. If the user is creating a new restriction, the field is empty. If the user is amending an existing restriction, the field contains the value for immediate closure ('9999-12-31-23.59').</p> <p>Required format is: DateTime.</p>

## Buttons

Search Party	This function enables the user to activate a Search Parties pop-up screen. It is visible only in create mode.

## Submit

This function enables the user to create or edit a cash account.

Reset	This function enables the user to set all fields to default value and blanks out all optional fields.
Cancel	This function enables the user to cancel the process and return to the previous screen.
Align with TIPS status	<p>This button is visible only for TIPS Accounts or a TIPS Credit Memorandum Balances and only in EDIT mode. The button is active only when the TIPS blocking status is different from the CRDM one. When clicking on this button, the user is asking the system to align the status with the status of the restrictions in TIPS. The restrictions described below are inserted in the list of restrictions. These automatically added restrictions cannot be deleted or amended by the users.</p> <p>The action performed are the following:</p> <ul style="list-style-type: none"> <li>o If the TIPS status is “unblocked” and the CRDM contains one or more of restrictions TACR, TADE, TABO, these restrictions are amended setting the valid to date to the immediate timestamp ('9999-12-31-23.59').</li> <li>o If the TIPS status is “Blocked for crediting”, a TACR restriction is added to the list with an immediate “valid from” date ('1000-01-01-00.01'). At the same time, possible valid restrictions TADE or TABO are amended setting the valid to date to the immediate timestamp ('9999-12-31-23.59').</li> <li>o If the TIPS status is “Blocked for debiting”, the immediate creation of a TADE restriction is requested and, at the same time, possible valid restrictions TACR or TABO are amended setting the valid from date to the immediate closure timestamp ('9999-12-31-23.59').</li> <li>o If the TIPS status is “Blocked for crediting/debiting”, a TPBO restriction is added to the list with an immediate “valid from” date ('1000-01-01-00.01'). At the same time, possible valid restrictions TPCB or TPDB are amended setting the valid to date to the immediate closure timestamp ('9999-12-31-23.59').</li> </ul>

### 2.3.2.4 Limits – Search/List Screen

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search to limits applicable to TIPS Credit Memorandum Balances or to RTGS DCAs or T2S DCAs . The search results are displayed in a list. After selecting an entry, you can proceed further by clicking on the buttons below.

#### Screen Access

| *Common >> Cash >> Limits >> Search*

| *Common >> Cash >> Cash Account >> Search >> click on Details button >> click on Limits button*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

| Delete Limit

**Fields  
Description**

Limits – Search Criteria	
Status	<p>Select the status of the Limit from the possible values:</p> <ul style="list-style-type: none"> <li>All</li> <li>Active (default value)</li> <li>Deleted</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRD9003</li> <li>DRD9004</li> </ul>
Limit Type	<p>Enter the type of the Limit to be searched.</p> <p>Possible values:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>TIPS CMB Limit</li> <li>T2 Bilateral Limit</li> <li>T2 Multilateral Limit</li> <li>T2S Auto-collateralisation Limit</li> <li>T2S External Guarantee Limit</li> <li>T2S Unsecured credit Limit</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRD9101</li> </ul>
Limit Id	<p>Enter the technical id for the Limit the user wants to search.</p> <p>Required format is: Integer.</p>
Cash Account Number	<p>If the Limit Type is TIPS CMB, enter the number of the TIPS Credit Memorandum Balance the limit is related to.</p> <p>If the Limit Type is T2 Bilateral Limit or T2 Multilateral Limit, enter the number of the Cash Account the limit is linked to.</p> <p>If the Limit Type is T2S Auto-collateralisation Limit, T2S External Guarantee Limit or T2S Unsecured credit Limit, enter the number of the T2S Dedicated Cash Account of the CMB the limit is related to.</p> <p>Required format is: max. 34x characters.</p>

Authorised BIC	<p>Enter or select the BIC authorized on the Cash account for whom the limit is searched.</p> <p>This field is selectable only if the field Limit Type is different from "TIPS CMB Limit", "T2 Bilateral Limit" or "T2 Multilateral Limit".</p> <p>This field is visible only if the field Limit Type is selected and equal to "T2S Auto-collateralisation Limit", "T2S External Guarantee Limit" or "T2S Unsecured credit Limit".</p> <p>Required format is: max. 11x characters.</p>
Amount From	<p>Enter the amount of the Limit: lower bound.</p> <p>Required format is: Amount.</p>
Amount To	<p>Enter the amount of the Limit: upper bound.</p> <p>Required format is: Amount.</p>
Unlimited Amount	<p>If selected only Limit with 'Unlimited Amount' value selected will be searched.</p>
Valid From - From	<p>Enter the lower bound for the opening date of the Limit or use the calendar icon.</p> <p>Required format is: Date.</p>
Valid From – To	<p>Enter the upper bound for the opening date of the Limit or use the calendar icon.</p> <p>Required format is: Date.</p>
Valid To – From	<p>Enter the lower bound for the closing date of the Limit or use the calendar icon.</p> <p>This field is visible and used only if the field Limit Type is selected and equal to "T2 Bilateral Limit" or "T2 Multilateral Limit".</p> <p>Required format is: Date.</p>
Valid To – To	<p>Enter the upper bound for the closing date of the Limit or use the calendar icon.</p> <p>This field is visible and used only if the field Limit Type is selected and equal to "T2 Bilateral Limit" or "T2 Multilateral Limit".</p> <p>Required format is: Date.</p>

To Account BIC	<p>Enter the Account BIC linked to the Limit.</p> <p>Reference for error message [ ]:</p> <p><a href="#">DRD9080</a></p> <p><a href="#">DRD9101</a></p> <p>This field is visible and used only if the field Limit Type is selected and equal to "T2 Bilateral Limit".</p> <p>Required format is: max. 11x characters.</p>
Currency	<p>Enter the currency associated to the Cash Account linked to the limit.</p> <p>Reference for error message [ ]:</p> <p><a href="#">DRD9150</a></p> <p>It contains the list of currencies associated with the Cash Accounts under the data scope of the user.</p> <p>The default value is All.</p>

Limits – List	
Status	<p>Shows the status of the Limit.</p> <p>Reference for error message [ ]:</p> <p><a href="#">DRD9003</a></p> <p><a href="#">DRD9004</a></p>
Limit Type	<p>Shows the type of the returned Limit.</p> <p>Reference for error message [ ]:</p> <p><a href="#">DRD9101</a></p>
Limit Id	Shows the technical id of the returned Limit.
Cash Account Number	Shows the number of the Cash Account of the returned Limit.
Parent BIC	<p>Shows the Parent BIC related to the returned Limit.</p> <p>If the Limit type is TIPS CMB Limit, shows the Parent BIC of the NCB.</p> <p>If the Limit type is T2 Bilateral Limit or T2 Multilateral Limit, shows the Parent BIC of the account holder.</p>

	<p>If the Limit is for auto-collateralisation, shows the Parent BIC of the NCB.</p> <p>If the Limit is for client collateralisation, shows the Parent BIC of the holder of the T2S DCA.</p>
Party BIC	<p>Shows the Party BIC related to the returned Limit.</p> <p>If the Limit type is TIPS CMB Limit, it shows the Party BIC of the TIPS Participant owner of the TIPS Account related to the relevant TIPS Credit Memorandum Balance.</p> <p>If the Limit type is T2 Bilateral Limit or T2 Multilateral Limit, shows the Party BIC of the account holder.</p> <p>If the Limit is for auto-collateralisation, shows the Party BIC of the NCB.</p> <p>If the Limit is for client collateralisation, shows the Party BIC of the holder of the DCA.</p>
Party Short Name	<p>Shows the Party Short Name of the Party related to the returned Limit.</p> <p>If the Limit type is TIPS CMB Limit, it shows the Party Short Name of the TIPS Participant owner of the TIPS Account related to the relevant TIPS Credit Memorandum Balance.</p> <p>If the Limit type is T2 Bilateral Limit or T2 Multilateral Limit, shows the Party Short Name of the account holder.</p> <p>If the Limit is for auto-collateralisation, shows the Short Name of the NCB.</p> <p>If the Limit is for client collateralisation, shows the Short Name of the holder of the DCA.</p>
CMB Id	Shows the technical id of the CMB the Limit is related to
Limit Amount	<p>Shows the Limit Amount.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DRD9003</li> <li>■ DRD9150</li> </ul>

Valid To	Shows the date and time until which the Limit is valid.  Reference for error message [ ]: <a href="#">DRD9206</a>
To Account BIC	Shows the Account BIC linked to the Limit.  Reference for error message [ ]: <a href="#">DRD9080</a> <a href="#">DRD9101</a>
Currency	Shows the currency associated to the Cash Account linked to the limit.  Reference for error message [ ]: <a href="#">DRD9150</a>

## Buttons

Search	This function enables the user to start a search according to the filled in criteria. The results are displayed on the same screen.  If the search retrieves a single record, the details screen is directly displayed.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
New	This function enables the user to create a new Limit.
Edit	This function enables the user to edit the details of the selected Limit.  If the status of the selected Limit is already set to 'Deleted', this function is not available.
Delete	This function enables the user to delete the selected Limit, after confirmation.  If the status of the selected Limit is already set to 'Deleted', this function is not available.  Reference for error message [ ]: <a href="#">DRD9001</a> <a href="#">DRD9003</a>

Restore	<p>This function enables the user to restore a previously deleted Limit.</p> <p>If the status of the selected Limit is already set to 'Active' this function is not available.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DRD9004</li> <li>■ DRD9064</li> <li>■ DRD9065</li> <li>■ DRD9066</li> <li>■ DRD9080</li> <li>■ DRD9101</li> <li>■ DRD9150</li> <li>■ DRD9205</li> <li>■ DRD9206</li> <li>■ DRD9231</li> </ul>
Revisions	<p>This function enables the user to display the revisions of the selected Limit.</p>
CMB Details	<p>This function enables the user to display the details of the CMB related to the selected limit.</p> <p>This button is for T2S only.</p>

### 2.3.2.5 Limit – New/Edit Screen

#### Context of Usage

This screen contains a number of fields regarding Limit. You can enter new data or edit existing data, previously selected. Afterwards you can proceed further by clicking on the buttons below. This screen is relevant for Central Bank or Payment Bank users responsible for the account to be debited.

#### Screen Access

- *Common >> Cash >> Limits >> New*
- *Common >> Cash >> Limits >> Search >> click on New or Edit button*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- Create Limit
- Update Limit

## Screenshot

Illustration 52: Limit – new/edit screen

## Fields Description

Limits	
Limit Id	<p>Shows the technical id of the Limit.</p> <p>This field is present only in edit mode, it is mandatory and read only.</p> <p>Required format is: Integer.</p>
Limit Type	<p>Select the type of the Limit from the drop down menu.</p> <p>Possible values are:</p> <ul style="list-style-type: none"> <li>TIPS CMB Limit</li> <li>T2 Bilateral Limit</li> <li>T2 Multilateral Limit</li> <li>T2S Auto-collateralisation Limit</li> <li>T2S External Guarantee Limit</li> <li>T2S Unsecured credit Limit</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRC9054</li> <li>DRC9058</li> <li>DRC9100</li> <li>DRC9101</li> <li>DRU9101</li> <li>DRU9207</li> </ul> <p>This field is mandatory.</p> <p>This field is read only in edit mode.</p>

Cash Account Number	<p>If the Limit Type is TIPS CMB, it contains the Cash Accounts with type TIPS CMB visible to the connected user and it represents the CMB the limit is related to.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DRC9001</li> <li>■ DRC9052</li> <li>■ DRC9100</li> </ul> <p>If the Limit Type is T2 Bilateral Limit or T2 Multilateral Limit, it contains the list of Cash Accounts the connected user can see and it represents the Cash Account the limit is linked to.</p> <p>This field is mandatory in create mode.</p> <p>If the Limit Type is T2S Auto-collateralisation, T2S External Guarantee or T2S Unsecured Credit, it contains the list of Cash Accounts the connected user can see and it represents the Cash Account of the CMB the limit is related to.</p> <p>This field is read-only in create mode if the user enters the screen coming from “Cash Account – Details” screen. In this case, the field is filled with the passed Cash Account number.</p> <p>This field is editable only if the field Limit Type is selected.</p> <p>This field is read-only in edit mode.</p> <p>Required format is: max. 34x characters.</p>
Authorised BIC	<p>Enter the BIC authorized on the Cash account for whom the limit is inserted.</p> <p>This field is visible and mandatory only if the field Limit Type is selected and equal to "T2S Auto-collateralisation Limit", "T2S External Guarantee Limit" or "T2S Unsecured credit Limit".</p> <p>This field is mandatory in create mode.</p> <p>This field is read only in edit mode.</p> <p>Required format is: max. 11x characters.</p>
TIPS CMB Limit amount	<p>The field is visible only if the selected limit type is a TIPS CMB Limit and in edit mode. The field is read-only.</p> <p>It shows the current value of the TIPS CMB Limit.</p>
CMB Id	<p>Shows the identifier of the CMB the Limit is related to.</p> <p>This field is present only in edit mode and is read only.</p>

	<p>This field is visible only if the field Limit Type is equal to "TIPS CMB", "T2S Auto-collateralisation Limit", "T2S External Guarantee Limit" or "T2S Unsecured credit Limit".</p>
Limit Amount	<p>Enter the Limit Amount.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DRC9150</li> <li>■ DRC9800</li> <li>■ DRU9055</li> <li>■ DRU9056</li> <li>■ DRU9150</li> <li>■ DRU9800</li> </ul> <p>This field is mandatory.</p> <p>Required format is: Amount.</p>
Unlimited Amount	<p>If selected, the Limit Amount is set to 'Unlimited' value.</p>
Valid From	<p>Enter the date and time from which the credit Limit is valid.</p> <p>If the selected limit type is a TIPS CMB Limit, the field contains the current date and it is read-only.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DRC9100</li> <li>■ DRC9205</li> <li>■ DRC9206</li> <li>■ DRC9230</li> <li>■ DRU9206</li> </ul> <p>This field is mandatory in create mode.</p> <p>This field is read only in edit mode.</p> <p>Required format is: DateTime.</p>
Valid To	<p>Enter the date and time until which the credit Limit is valid.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DRC9206</li> <li>■ DRU9206</li> <li>■ DRU9207</li> </ul> <p>This field can be filled only if Limit Type is "T2 Bilateral Limit" or "T2 Multilateral Limit". It is empty if Limit Type is different.</p>

	<p>This field must be equal to or greater than the current date and equal to or greater than the Valid From.</p> <p>Required format is: DateTime.</p>
To Account BIC	<p>Enter or select the Account BIC linked to the Limit.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRC9059</li> <li>  DRC9100</li> <li>  DRC9101</li> <li>  DRU9101</li> </ul> <p>This field is mandatory in create mode if Limit Type is equal to "T2 Bilateral Limit". It is not allowed in any other case.</p> <p>This field is read-only in edit mode.</p> <p>Required format is: max. 11x characters.</p>

## Buttons

Submit	<p>This function enables the user to create or edit a Limit.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRC9001</li> <li>  DRC9052</li> <li>  DRC9053</li> <li>  DRC9054</li> <li>  DRC9055</li> <li>  DRC9056</li> <li>  DRC9057</li> <li>  DRC9058</li> <li>  DRC9059</li> <li>  DRC9100</li> <li>  DRC9101</li> <li>  DRC9150</li> <li>  DRC9205</li> <li>  DRC9206</li> <li>  DRC9800</li> <li>  DRU9001</li> <li>  DRU9003</li> <li>  DRU9055</li> <li>  DRU9056</li> <li>  DRU9101</li> <li>  DRU9150</li> <li>  DRU9206</li> <li>  DRU9207</li> <li>  DRC9230</li> <li>  DRC9231</li> <li>  DRC9232</li> <li>  DRU9232</li> <li>  DRU9800</li> </ul>
Reset	<p>This function enables the user to set all fields to default value and blanks out all optional fields.</p>

Cancel

This function enables the user to cancel the process and return to the previous screen.

### 2.3.2.6 Authorised Account User – Search/list Screen

#### Context of Usage

This screen enables the user to display a list of Authorised Account Users matching the entered criteria.

Therefore this screen contains a number of fields regarding Authorised Account Users. By inputting the relevant data, you can search for Authorised Account Users. The search results will be displayed in a list. After selecting an entry, you can proceed further by clicking on the activated buttons.

#### Screen Access

**|** *Common >> Cash >> Authorised Account User >> Search*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- |** Delete Authorised Account User
- |** Authorised Account User Query

## Fields

### Description

Authorised Account User - Search Criteria	
Status	<p>Select the status of the Authorised Account User from the possible values:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> All</li> <li><input type="checkbox"/> Active (default value)</li> <li><input type="checkbox"/> Deleted</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> DCD2002</li> <li><input type="checkbox"/> DCD2003</li> </ul>
Participation Type	<p>Optionally select the type of Cash Account authorisation from the possible values:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Direct</li> <li><input type="checkbox"/> Indirect</li> <li><input type="checkbox"/> Multi Addressee – Branch of Direct Participant</li> <li><input type="checkbox"/> Multi Addressee – Credit Institution</li> <li><input type="checkbox"/> Addressable BIC – Correspondent</li> <li><input type="checkbox"/> Addressable BIC – Branch of Direct Participant</li> <li><input type="checkbox"/> Addressable BIC – Branch of Indirect Participant</li> <li><input type="checkbox"/> Addressable BIC – Branch of Correspondent</li> <li><input type="checkbox"/> Exclusion</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> DCD2008</li> <li><input type="checkbox"/> DCD2009</li> </ul>
Authorised Account User BIC	<p>Enter the BIC allowed to settle on the selected account.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> DCD2008</li> </ul> <p>At least one field between Authorised Account User BIC and Cash Account must be entered to perform the search.</p> <p>Required format is: max 11x characters.</p>
Cash Account Number	<p>Enter the Cash Account the BIC is authorised to use.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> DCD2004</li> </ul>

	At least one field between Cash Account and Authorised Account User BIC must be entered to perform the search. Required format is: max. 34x characters.
Unlimited Maximum IP Amount	Select whether to search only Authorised Account Users for which 'Maximum IP Amount' is equal to "Unlimited".
Valid From From	Enter or pick the lower bound for the opening date of the Authorised Account User. Required format is: Date.
Valid From To	Enter or pick the upper bound for the opening date of the Authorised Account User. The 'Valid From – To' must be greater than the 'Valid From – From'. Required format is: Date.
Valid To From	Enter or pick the lower bound of the search range for the Authorised Account User. Required format is: Date.
Valid To To	Enter or pick the upper bound of the search range for the Authorised Account User. The 'Valid To – To' must be greater than the 'Valid To – From'. Required format is: Date.
Cross-currency	Select whether to search only Authorised Account Users authorised to accept cross-currency payments for the associated Cash Account.

Authorised Account User - List	
Status	<p>Shows the status of the Authorised Account User.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DCD2002</li> <li>DCD2003</li> </ul> <p>If the status is set to 'Deleted', the selected Authorised Account User cannot be deleted or edited. If the status is set to 'Active', the selected Authorised Account User cannot be restored.</p>

Authorised Account User BIC	Shows the BIC allowed settling on the selected account.  Reference for error message [ ]:    DCD2008    DCD2013
Cash Account Number	Shows the Cash Account the BIC is authorised to use.  Reference for error message [ ]:    DCD2004    DCD2013
Participation Type	Shows the type of Cash Account authorisation.  Reference for error message [ ]:    DCD2008    DCD2009
Maximum IP Amount	Shows the Maximum Amount for Instant Payment transaction.  In case the value defined for the Authorised Account User is lower than the default value for the Maximum IP Amount defined in the system for the same currency of the TIPS Account linked to the Authorised Account User, the latter is shown.
Valid From	Shows the date from which the Authorised Account User is valid.
Valid To	Shows the date until which the Authorised Account User is valid.
Cross-currency	Shows whether the Authorised Account User is authorised to accept cross-currency payments for the associated Cash Account.

## Buttons

Search	This function enables the user to start a search according to the criteria entered. The results are displayed in a list on the same screen.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
New	This function enables the user to create a new Authorised Account User.

Edit	This function enables the user to edit the details of the selected Authorised Account User.
Delete	<p>This function enables the user to delete the selected Authorised Account User after direct confirmation.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>  DCD2001</li> <li>  DCD2002</li> <li>  DCD2008</li> <li>  DCD2009</li> </ul>
Restore	<p>This function enables the user to restore a previously deleted element.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>  DCD2003</li> <li>  DCD2004</li> <li>  DCD2005</li> <li>  DCD2006</li> <li>  DCD2007</li> <li>  DCD2010</li> <li>  DCD2011</li> <li>  DCD2013</li> </ul>
Revisions	This function enables the user to display the revisions of the selected Authorised Account User.

### 2.3.2.7 Authorised Account User – New/Edit Screen

#### Context of Usage

The “Authorised Account User - New/Edit” screen enables the Service Operator, NCBs, Payment Banks and Ancillary Systems to create a new Authorised Account User or to edit an existing one, previously selected. The screen has a slightly different behaviour depending on the function the user is submitting.

#### Screen Access

| *Common >> Cash >> Authorised Account User >> New*

| *Common >> Cash >> Authorised Account User >> Search >> Click on New or Edit button*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- Create Authorised Account User

### 2.3.2.8 Standing/Predefined Liquidity Transfer Order – Search/List Screen

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search for Standing/Predefined Liquidity Transfer Orders. The search results will display a list sorted by the values of the 'Order Reference' column in ascending order (default setting). After selecting an entry, you can proceed further by clicking on the buttons below.

Central Bank, Ancillary System and Payment Bank users can see all Standing/Predefined Liquidity Transfer Orders depending on their datascope. Payment Bank users can see the ones under their datascope and the ones where the debtor cash account is under their datascope or for which they have been defined as Co-Managers. Duly authorised users can manage Standing/Predefined Liquidity Transfer Orders on Cash Accounts for which they are defined as Co-Managers.

AS users can see the ones under their datascope.

#### Screen Access

Reset	This function enables the user to set all fields to default value and blanks out all optional fields.
Cancel	This function enables the user to cancel the process and return to the previous screen.

## 2.3.3 Access Rights Management

### 2.3.3.1 Users – Search/List Screen

#### Context of Usage

This screen enables the user to display a list of Users matching the entered criteria.

This screen contains a number of search fields. By inputting the relevant data, you can search for users. The search results will be displayed in a list, which is sorted by the values of the 'Login Name' column in ascending order (default setting). After selecting an entry, you can proceed further by clicking on the buttons below.

#### Screen Access

Revisions	This function enables the user to display the revisions of the selected CRDM user.
Restore	<p>This function enables the user to restore a previously deleted user. If the status of the selected user is already set to 'Active', this function is not available.</p> <p>Reference for error message [ ]:</p> <p><a href="#">DRD7001</a></p> <p><a href="#">DRD7002</a></p> <p><a href="#">DRD7003</a></p> <p><a href="#">DRD7004</a></p> <p><a href="#">DRD7005</a></p> <p><a href="#">DRD7007</a></p> <p><a href="#">DRD7008</a></p>
User Certificate Distinguished Name Links	This function enables the user to access the User certificate distinguished name links screen for the selected user.

### 2.3.3.3 User – New/Edit Screen

#### Context of Usage

The screen “User – New/Edit” enables the user to create a new User or to edit an existing one. This screen enables also to lockout a user to enter the system and removing the lockout. Locking out a user means that the “lockout” flag is selected and a lockout timestamp is provided. Deleting a lockout means that the “lockout” flag is deselected.

The screen has a slightly different behaviour depending on the function the user is submitting.

#### Screen Access

- *Common >> Access Rights Management >> Users >> New*
- *Common >> Access Rights Management >> Users >> Users – search/list screen >> Click on the new or edit button*
- *Common >> Access Rights Management >> Users >> Users – search/list screen >> Click on the search and/or details button >> User – details screen >> Click on the edit button*

#### Privileges

To use this screen, the following Privileges are needed [ ]:

- Create User
- Update User

#### Screenshot

Illustration 60: User – new/edit screen

#### Fields Description

User	
Login Name	<p>Enter the login name of the user.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DRC7006</li> <li>■ DRU7008</li> </ul> <p>This field is mandatory.</p>

	Required format is: max. 35x characters.
Name	<p>Enter the name of the user.</p> <p>This field is mandatory.</p> <p>Required format is: max. 127x characters.</p>
System User Reference <sup>2</sup>	<p>Enter the unique system user reference associated to the user.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DRC7007</li> <li>■ DRU7005</li> </ul> <p>This field is mandatory.</p> <p>Required format is: max. 35x characters.</p>
Lockout From	<p>Shows the date since the user is locked out from the system.</p> <p>The field is a timestamp, represented by two different but related fields (Date and Time). Only timestamp greater than system timestamp can be inserted. When "lockout" is selected, the system shows the system date, but the user can change it. When lockout is deselected, this field is read-only and empty.</p> <p>Required format is: DateTime.</p>
Lockout	<p>Select the lockout status. When the select field is selected the user cannot log into the system as from the date specified in the 'Lockout Status since' field.</p>
Parent BIC	<p>Enter or select the parent BIC of the party related to the user.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DRC7005</li> </ul> <p>This field is mandatory in create mode.</p> <p>This field is read-only in edit mode.</p> <p>Required format is: max. 11x characters.</p>
Party BIC	<p>Enter or select the BIC of the party related to the user.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DRC7005</li> </ul> <p>This field is mandatory in create mode.</p> <p>This field is read-only in edit mode.</p> <p>Required format is: max. 11x characters.</p>

<sup>2</sup> This field is used for addressing inbound messages and files (see also CRDM UDFS – 3. Catalogue of Messages).

## Buttons

Submit	<p>This function enables the user to create or edit a User according to the information filled in the fields.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRC7001</li> <li>  DRC7005</li> <li>  DRC7006</li> <li>  DRC7007</li> <li>  DRU7001</li> <li>  DRU7003</li> <li>  DRU7005</li> <li>  DRU7008</li> </ul>
Cancel	<p>This function enables the user to cancel the creation or the edit action.</p>
Reset	<p>This function enables the user to set all fields to default value and blanks out all optional fields. This function restores the situation shown at opening of the page.</p>

### 2.3.3.4 Certificate Distinguished Names – Search/List Screen

#### Context of Usage

This screen enables the user to display a list of Certificate Distinguished Names matching the entered criteria.

This screen gives also the possibility to update, delete and restore a selected Certificate Distinguished Name (only active items can be deleted or updated, only deleted items can be restored) and to show Revisions and Audit trail of a selected one.

Finally, it is possible to create a new Certificate Distinguished Name.

The Certificate Distinguished Names are visible to all the users with no datascope restriction.

#### Screen Access

| *Common >> Access Rights Management >> Certificate Distinguished Names >> Search*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- | Certificate query
- | Delete certificate distinguished name

## Screenshot

## Buttons

Search	<p>This function enables the user to start a search according to the criteria entered. The results are displayed in a list on the same screen.</p>
Reset	<p>This function enables the user to set default search criteria and blanks out all optional criteria.</p>
New	<p>This function enables the user to create a new user certificate distinguished name.</p>
Edit	<p>This function enables the user to update an active certificate distinguished name</p>
Delete	<p>This function enables the user to delete the selected certificate distinguished name, after confirmation.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRDA001</li> <li>DRDA003</li> <li>DRDA010</li> </ul>
Restore	<p>This function enables the user to restore a previously deleted certificate distinguished name.</p> <p>If the status of the selected certificate distinguished name is already set to 'Active', this function is not available.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRDA001</li> <li>DRDA002</li> <li>DRDA004</li> </ul>

Revisions	This function enables the user to display the revisions of the selected certificate distinguished name.
User Certificate Distinguished Name Links	This function enables the user to display the user certificate distinguished name links.

### 2.3.3.5 Certificate Distinguished Names – New/Edit Screen

#### Context of Usage

The screen “Certificate Distinguished Name – New/Edit” enables the user to create a new Certificate Distinguished Name or to update an existing active one. As far as the update is concerned, the users can only update the case of the letters of the existing DN: the existing DN cannot be amended in the content (changing the existing values, space included) but only changing lowercase letters in uppercase ones or the other way around.

#### Screen Access

Common >> Access Rights Management >> Certificate Distinguished Names >> Certificate distinguished names – search/list screen >> Click on the new button

Common >> Access Rights Management >> Certificate Distinguished Names >> New

Common >> Access Rights Management >> Certificate Distinguished Names >> Certificate distinguished names – search/list screen >> Click on the edit button

#### Privileges

To use this screen, the following Privileges are needed [ ]:

- Create Certificate Distinguished Name
- Update Certificate Distinguished Name

#### Screenshot

Illustration 62: Certificate Distinguished Names – new/edit screen

#### Fields Description

Certificate Distinguished Names	
Certificate Distinguished Name	<p>Enter the distinguished name of the certificate you want to create.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRCA002</li> <li>DRUA002</li> <li>DRUA003</li> </ul> <p>The field is mandatory.</p> <p>Required format is: max 256x characters (UTF-8 except '&gt;', '&lt;', '&amp;').</p>

## Buttons

Submit	<p>This function enables the user to create a new certificate distinguished name or to update an existing active one according to the information entered in the fields.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRCA001</li> <li>DRCA002</li> <li>DRUA001</li> <li>DRUA002</li> <li>DRUA003</li> </ul>
Cancel	<p>This function enables the user to cancel the process and return to the previous screen.</p>
Reset	<p>This function enables the user to set all fields to default value and blanks out all optional fields.</p>

### 2.3.3.6 User Certificate Distinguished Name Links – Search/List Screen

#### Context of Usage

This screen enables the user to display a list of User Certificate Distinguished Name Links matching the entered criteria. A User Certificate Distinguished Name Link is a Link between a User and a Certificate Distinguished Name.

The search results will be displayed in a list, which is sorted by the values of the 'Login Name' column in ascending order (default setting).

This screen gives also the possibility to delete and restore a selected User Certificate Distinguished Name Link.

## Screen Access

Common >> Access Rights Management >> User Certificate Distinguished Name Links >> Search

Common >> Access Rights Management >> Users >> Users – search/list screen >> Click on the user certificate distinguished name links button

Common >> Access Rights Management >> Users >> Users – search/list screen >> Click on the search and/or the details button >> User – details screen >> Click on the user certificate distinguished name links button

Common >> Access Rights Management >> Certificate Distinguished Names >> Certificate distinguished names – search/list screen >> Click on the user certificate distinguished name links button

## Privileges

To use this screen, the following Privileges are needed [▶]:

- Delete User Certificate Distinguished Name Links
- User Certificate Distinguished Name Links Query

## Fields Description

User Certificate Distinguished Name Links	
Login Name	<p>Enter or select the Login Name of the user that you want to link to the certificate.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>  DRC0002</li> <li>  DRC0003</li> <li>  DRC0005</li> </ul> <p>This field is mandatory in create mode.</p> <p>This field is read-only in edit mode.</p>
Certificate Distinguished Name	<p>Enter or select the Distinguished Name of the certificate that you want to link to the User.</p>

	<p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRC0004</li> <li>DRC0005</li> </ul> <p>This field is mandatory in create mode.</p> <p>This field is read-only in edit mode.</p>
Default	<p>Select whether this should be the default certificate for the selected User.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRC0006</li> <li>DRC0007</li> </ul> <p>This field is read-only in edit mode.</p>
Main User	<p>Select whether this should be the main certificate for the TIPS User.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRU0007</li> <li>DRU0008</li> </ul>

## Buttons

Submit	<p>This function enables the user to create or edit a User Certificate Distinguished Name Link according to the information filled in the fields.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRC0001</li> <li>DRC0002</li> <li>DRC0003</li> <li>DRC0004</li> <li>DRC0005</li> <li>DRC0006</li> <li>DRC0007</li> <li>DRU0001</li> <li>DRU0002</li> <li>DRU0007</li> <li>DRU0008</li> </ul>

Reset	This function restores the situation shown at opening of the page.
Cancel	This function enables the user to cancel the creation/editing action and return to List page.

### 2.3.3.8 Roles – Search/List Screen

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can display a list of Roles matching the entered criteria. The search results are displayed in a list. After selecting an entry, you can proceed further by clicking on the buttons below.

#### Screen Access

**|** *Common >> Access Rights Management >> Roles >> Search*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- |** Role List Query
- |** Delete Role

#### Screenshot

*Illustration 65: Roles – search/list screen*

## Fields Description

Roles – Search Criteria	
Status	<p>Select the status of the Role from the possible values:</p> <ul style="list-style-type: none"> <li>All</li> <li>Active (default value)</li> <li>Deleted</li> </ul> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRD6003</li> <li>DRD6044</li> </ul>
Role Name	<p>Enter the name of the Role.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRD6002</li> </ul> <p>Required format is: max. 35x characters.</p>
Role Description	<p>Enter the description of the Role.</p> <p>Required format is: max. 127x characters.</p>

Roles – List	
Status	<p>Shows the status of the Role.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRD6003</li> <li>DRD6044</li> </ul>
Name	<p>Shows the name of the Role.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRD6002</li> </ul>
Description	Shows the description of the Role.
System Entity	Shows the system entity of the user who created the Role.

## Buttons

Search	This function enables the user to start a search according to the entered criteria.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
New	This function enables the user to create a new Role.
Edit	<p>This function enables the user to edit the details of the selected Role.</p> <p>If the status of the selected Role is already set to 'Deleted', this function is not available.</p>
Delete	<p>This function enables the user to delete the selected Role, after confirmation.</p> <p>If the status of the selected Role is already set to 'Deleted', this function is not available.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRD6001</li> <li>DRD6003</li> <li>DRD6050</li> </ul>
Restore	<p>This function enables the user to restore a previously deleted Role.</p> <p>If the status of the selected Role is already set to 'Active', this function is not available.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRD6001</li> <li>DRD6002</li> <li>DRD6044</li> </ul>
Revisions	This function enables the user to display the revisions of the selected Role.
Grant/Revoke Privileges	This function enables the user to be redirected to the Grant/Revoke System Privileges screens.
Grant/Revoke Role	This function enables the user to be redirected to the Grant/Revoke Roles screens.

### 2.3.3.9 Role – New/Edit Screen

#### Context of Usage

This screen contains a number of fields regarding roles. You can enter new data or edit existing data. Afterwards you can proceed further by clicking on the buttons below.

#### Screen Access

- *Common >> Access Rights Management >> Roles >> New*
- *Common >> Access Rights Management >> Roles >> Search >> click on New or Edit button*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- Create Role
- Update Role

#### Screenshot

#### Fields Description

Role	
Role Name	<p>Enter the name of the Role.</p> <p>References for error messages [▶]:</p> <ul style="list-style-type: none"> <li>■ DRC6006</li> <li>■ DRU6006</li> </ul> <p>This field is mandatory.</p> <p>Required format is: max. 35x characters.</p>
Role Description	<p>Enter the description of the Role.</p> <p>This field is mandatory.</p> <p>Required format is: max. 127x characters.</p>

#### Buttons

Submit	<p>This function enables the user to create or edit a Role.</p> <p>References for error messages [▶]:</p> <ul style="list-style-type: none"> <li>■ DRC6001</li> <li>■ DRC6006</li> <li>■ DRU6001</li> <li>■ DRU6003</li> <li>■ DRU6006</li> </ul>
Reset	<p>This function enables the user to set all fields to default value and blanks out all optional fields.</p>
Cancel	<p>This function enables the user to cancel the process and return to the previous screen.</p>

### 2.3.3.10 Grant/Revoke System Privileges – Search Screen

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search for privileges granted to a role, party or user. You can proceed further by clicking on the buttons below. This screen's behaviour varies slightly depending on the user accessing it. If the user belongs to a CSD Participant, External CSD, Ancillary System or Payment Bank party the Party blocks will show the 'Intra-party' and 'Cross-party' options, which allow to review the privileges granted to their own party or to grant privileges to other parties within their own system entity, respectively. In all other cases, the Party blocks will show the 'Intra-system entity' and 'Cross-system entity' options, which allow to grant privileges to parties within and outside of the user's system entity, respectively.

#### Screen Access

■ *Common >> Access Rights Management >> Grant/Revoke System Privileges*

#### Privileges

To use this screen, the following Privilege is needed [▶]:

- Privilege query

## Screenshot

Illustration 67: Grant/Revoke System Privileges – search screen

## Fields Description

Grant/Revoke System Privileges – Search Criteria	
Role	
Role Name	<p>Select the name of the role.</p> <p>If the corresponding option is selected, the field is enabled and mandatory, otherwise it is not available.</p> <p>Required format is: max. 35x characters.</p>
Intra-System Entity Parties/Intra-Party	
Parent BIC	<p>Shows the parent BIC of the user's system entity.</p> <p>If the corresponding option is selected, the field is enabled and mandatory, otherwise it is not available.</p> <p>Required format is: max. 11x characters.</p>
Party BIC	<p>Enter the BIC of the party.</p> <p>If the corresponding option is selected, the field is enabled and mandatory, otherwise it is not available.</p> <p>Required format is: max. 11x characters.</p>
Cross-System Entity Parties/Cross-Party	

## Buttons

Parent BIC	<p>Enter the Parent BIC of grantee party.</p> <p>Required format is: 11 characters.</p> <p>If the corresponding option is selected, the field is enabled and mandatory, otherwise it is not available.</p>
Party BIC	<p>Enter the BIC of grantee party.</p> <p>Required format is: 11 characters.</p> <p>If the corresponding option is selected, the field is enabled and mandatory, otherwise it is not available.</p>
<b>User</b>	
Login Name	<p>Enter or select the login name of the user.</p> <p>Required format is: max. 35x characters.</p> <p>If the corresponding option is selected, the field is enabled and mandatory, otherwise it is not available.</p>
Search	<p>This function enables the user to start a search according to the filled in criteria.</p> <p>If you select Cross-System Entity Parties/Cross-Party radio button, you will be directed to the grant/revoke cross-system entity object privilege – new/edit screen. If you select any other radio button, you will be directed to grant/revoke system privilege – new/edit screen. If no option is selected, this function is not available.</p>
Display	<p>This function enables the user to display the details according to the filled in criteria.</p> <p>If you select Cross-System Entity Parties/Cross-Party radio button, you will be directed to the grant/revoke cross-system entity object privilege – details screen. If you select any other radio button, you will be directed to grant/revoke system privilege – details screen. If no option is selected, this function is not available.</p>

### 2.3.3.11 Grant/Revoke System Privilege – Details Screen

#### Context of Usage

This screen displays detailed information on all system privileges granted to a specific role. You can check the data and proceed further by clicking on the buttons below.

## Screen Access

Common >> Access Rights Management >> Grant/Revoke System Privileges  
Grant/Revoke System Privileges – search screen >> Click on the display button

## Privileges

To use this screen, the following Privilege is needed [▶]:

Granted system privileges list query

## Screenshot

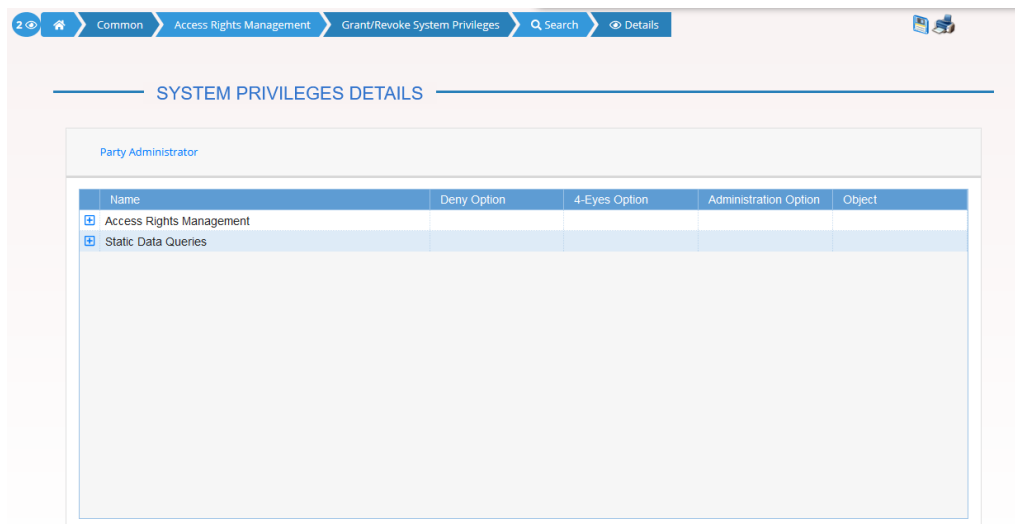

Illustration 68: Grant/Revoke System Privileges – details screen

## Fields Description

Role <Role Name> OR Party <Parent BIC + BIC> OR User <User Login Name>	
Name	Shows the privileges related to the selected group. All the privileges have been grouped according to their name. If the user expands the group, the privilege names will be shown
Privilege Name	Shows the privileges related to the selected group. If the privilege type is 'Object', the privilege name and the field are highlighted. Privilege names are shown if you expand the group
Deny Option	Shows whether the system privilege is explicitly denied.
4-Eyes Option	Shows whether the 4-eyes mode is required in order to perform the activity linked to the system privilege or not
Administration Option	Shows whether the grantee is allowed to grant the same privilege to another role of the same party or not.
Object	If the privilege type is 'Object', this field contains a button allowing the user to display the objects on which the privilege has been applied.

## Buttons

<expand group>	This function enables the user to show all the privileges related to the group.
<close group>	This function enables the user to hide all the privileges related to the group.
Object Privilege	This function enables the user to display the objects on which the privilege has been applied.

### 2.3.3.12 Grant/Revoke System Privilege – New/Edit Screen

#### Context of Usage

This screen contains a number of fields regarding system privileges. User can grant new system privileges to roles, parties or users, or revoke those that have been previously granted. The screen shows two lists:

■ on the left side, the list of all privileges the user can see that have not been granted to the specified grantee item.

■ on the right side, the list of privileges that have been granted to the specified grantee item.

Afterwards you can proceed further by clicking on the buttons below.

## Screen Access

- | *Common >> Access Rights Management >> Grant/Revoke System Privileges*
- Grant/Revoke System Privileges – search screen >> Click on the search button*
- | *Common >> Access Rights Management >> Roles >> Roles – search/list screen >> Click on the grant/revoke privilege button*

## Privileges

To use this screen, the following Privileges are needed [▶]:

- | Grant Privilege
- | Revoke Privilege
- | Granted System Privileges List Query

## Screenshot

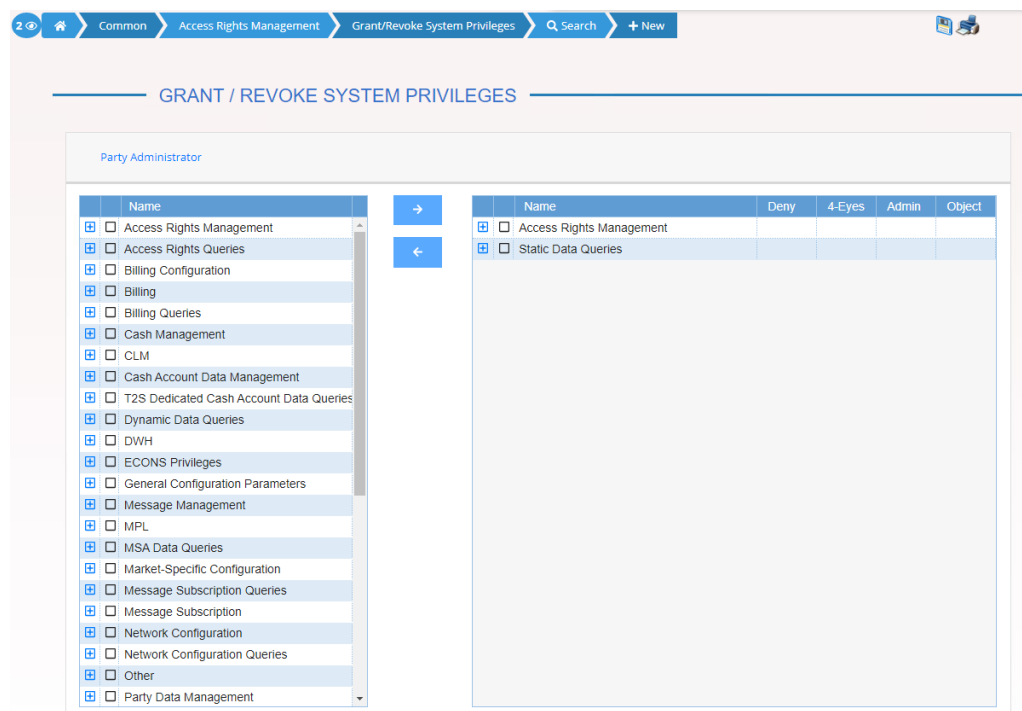

Illustration 69: Grant/Revoke System Privileges – new/edit screen

## Fields Description

Role <Role Name> OR Party <Parent BIC + BIC> OR User <User Login Name>	
Current not Granted Privileges	
Group Name	Shows the full list of all group names related to the currently not granted privileges.

Privilege Name	Shows the names of not currently granted privileges.  Reference for error message [ ]:    DRGP001    DRGP002    DRGP013
<b>Current Granted Privileges</b>	
Group Name	Shows the full list of all group names related to the currently granted privileges.
Privilege Name	Shows the names of the currently granted privileges.  If the privilege type is set to 'Object', the privilege name and the field are highlighted.
Deny	Shows whether the system privilege is explicitly denied or not.
4-Eyes	Shows whether the 4-eyes mode is required in order to perform the activity linked to the system privilege or not.
Administration option	Shows whether the grantee is allowed to grant the same privilege to another role of the same party or not.
Object	If the privilege type is 'Object', this field contains a button allowing the user to display the objects on which the privilege has been applied.

Input Additional Data (data input prompt)	
Deny Option	Select if the system privilege is explicitly denied.  Reference for error message [ ]:    DRGP017
4-Eyes Option	Select if the 4-eyes mode is required to perform the activity linked to the system privilege.  Reference for error message [ ]:    DRGP018
Administration Option	Select if is required to allow the grantee to grant the same privilege to another role of the same party.

## Buttons

Grant	<p>This function enables the user to grant the selected privileges to the role.</p> <p>The function opens the 'Input Additional Data' prompt to specify additional information.</p>
Revoke	<p>This function enables the user to revoke the selected privileges from the role by moving them from the 'Granted' list to the 'Not Granted' list.</p>
<expand group>	<p>This function enables the user to show all the privileges related to the group.</p>
<close group>	<p>This function enables the user to hide all the privileges related to the group.</p>
Object Privilege	<p>This function enables the user to display the objects on which the privilege can be applied.</p>

Submit (Input additional data)	<p>This function enables the user to move the selected privileges from the 'Not Granted' list to the 'Granted' list inserting the additional information to privileges.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRGP001</li> <li>  DRGP002</li> <li>  DRGP004</li> <li>  DRGP005</li> <li>  DRGP006</li> <li>  DRGP007</li> <li>  DRGP008</li> <li>  DRGP009</li> <li>  DRGP010</li> <li>  DRGP011</li> <li>  DRGP012</li> <li>  DRGP013</li> <li>  DRGP014</li> <li>  DRGP015</li> <li>  DRGP016</li> <li>  DRGP017</li> <li>  DRGP018</li> <li>  DRGP019</li> <li>  DRGP020</li> <li>  DRGP021</li> <li>  DRGP022</li> <li>  DRRP001</li> <li>  DRRP003</li> <li>  DRRP004</li> <li>  DRRP005</li> <li>  DRRP006</li> <li>  DRRP007</li> </ul>
Close (Input additional data)	<p>This function enables the user to close the Input additional data pop-up and no operations are performed.</p>

### 2.3.3.13 Grant/Revoke Cross-System Entity Object Privilege - Details Screen

#### Context of Usage

This screen displays detailed information on (the selected) object privileges to be granted or revoked in cross-system entity mode. You can check the data and proceed further by clicking on the buttons below. Only directly assigned privileges are available for cross-system entity object privilege granting. You can check the data and proceed further by clicking on the buttons below.

#### Screen Access

**|** *Common >> Access Rights >> Grant/Revoke System Privileges >> Grant/Revoke System privileges – search screen >> Click on the cross system entity or cross party radio button and then click on display button*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

**|** *Granted Object Privileges List Query*

#### Screenshot

*Illustration 70: Grant/Revoke Cross-System Entity Object Privilege – Details Screen*

#### Fields Description

Party <Parent BIC + Party BIC>	
Privilege Category	Select the name of the group the privilege belongs to.
Privilege Name	Select the name of the granted privilege

Object Privileges	
Secured Element Type	Shows the element type of the object privilege.
Object/Group	Shows the name and technical identification of the secured group or the object identification, i.e. parent BIC and BIC, security account number, cash account number, ISIN.
Deny Option	Shows whether the object privilege is explicitly denied or not.

4-Eyes Option	Shows whether the 4-eyes mode is required in order to perform the activity linked to the object privilege or not.
Administration Option	Shows whether the party administrator of the grantee party is allowed to grant the same privilege to other parties or not. If not, the privilege can be granted only to users and roles of the same party.

## Buttons

Check	When the user clicks on this button, the system checks if the selected system privilege has been already directly granted to the grantee (privileges assigned via role are not available for cross-system entity object privilege assignment). In case of positive result, the system shows the list of objects privileges. Otherwise, no object privileges can be granted. You can only change 'privilege category' and 'privilege name' and execute a new check.
Reset	This function enables the user to set 'Privilege category' and 'Privilege name' fields to the initial blank value. The object privilege panel is reset accordingly

### 2.3.3.14 Grant/Revoke Cross-System Entity Object Privilege – New/Edit Screen

#### Context of Usage

This screen contains a number of fields regarding granting and revoking object privileges in cross-system entity mode, which is available only on directly assigned privileges. You can enter new data or edit existing data. Afterwards you can proceed further by clicking on the button(s) below.

#### Screen Access

Common >> Access Rights >> Grant/Revoke System Privileges >> Grant/Revoke System privileges – search screen >> Click on the cross system entity or cross party radio button and then click on search button

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- ▶ Grant Privilege
- ▶ Revoke Privilege

## Screenshot

Illustration 71: Grant/Revoke Cross-System Entity Object Privilege – new/edit screen

## Fields Description

Party <Parent BIC + Party BIC>	
Privilege Category	Select the name of the group the privilege belongs to.
Privilege Name	Select the name of the granted privilege.  Reference for error message [ ]: <ul style="list-style-type: none"> <li>DRGP001</li> <li>DRGP002</li> <li>DRRP001</li> </ul>

Object Privileges	
Secured Element Type	Shows the element type of the object privilege.
Object/Group	Shows the name and technical identification of the secured group or the object identification, i.e. parent BIC and BIC, security account number, cash account number, ISIN.
Deny Option	Shows whether the object privilege is explicitly denied or not.
4-Eyes Option	Shows whether the 4-eyes mode is required in order to perform the activity linked to the object privilege or not.
Administration Option	Shows whether the party administrator of the grantee party is allowed to grant the same privilege to other parties or not. If not, the privilege can be granted only to users and roles of the same party.
Add/Remove Value	
Secured Element Type	Select the element type of the object privilege from the possible values:

	<ul style="list-style-type: none"> <li>System Entity</li> <li>Secured Group</li> <li>Party</li> <li>Security</li> <li>Party and its accounts</li> <li>Securities Account</li> <li>Cash Account</li> </ul> <p>This field is mandatory.</p>
Parent BIC	<p>Enter or select the parent BIC of the secured object party.</p> <p>If the secured element type is set to 'System Entity', 'Party' or 'Party and its accounts' then this field is present and mandatory. It is not present otherwise.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRGP010</li> <li>DRGP013</li> <li>DRGP009</li> </ul> <p>Required format is: 11 characters.</p>
Party BIC	<p>Enter or select the party BIC of the secured object party.</p> <p>If the secured element type is set to 'System Entity', 'Party' or 'Party and its accounts' then this field is present and mandatory. It is not present otherwise.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRGP010</li> <li>DRGP013</li> <li>DRGP009</li> </ul> <p>Required format is: 11 characters.</p>
ISIN	<p>Enter or select the ISIN of the secured object security.</p> <p>If the secured element type is set to 'Security' then this field is present and mandatory. It is not present otherwise.</p> <p>Required format is: 12 characters.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRGP010</li> <li>DRGP013</li> </ul>

Securities Account Number	<p>Enter or select the number of the secured object securities account.</p> <p>If the secured element type is set to 'Securities Account' then this field is present and mandatory. It is not present otherwise.</p> <p>Required format is: max. 35 characters.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRGP010</li> <li>DRGP013</li> </ul>
Cash Account Number	<p>Enter or select the number of the secured object cash account.</p> <p>If the secured element type is set to 'Cash Account' then this field is present and mandatory. It is not present otherwise.</p> <p>Required format is: max. 34 characters.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRGP010</li> <li>DRGP013</li> </ul>
Secured Group Identification	<p>Enter the technical identification of the secured group identification. If the secured element type is set to 'Secured Group' then this field is present and mandatory. It is not present otherwise.</p> <p>Required format is: numeric with max. 9 digits.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRGP011</li> <li>DRGP013</li> </ul>
Deny Option	<p>Select whether the object privilege is explicitly denied or not.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRGP017</li> </ul>
4-Eyes Option	<p>Select whether the 4-eyes mode is required in order to perform the activity linked to the object privilege or not.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRGP018</li> </ul>
Administration Option	<p>Select whether the party administrator of the grantee party is allowed to grant the same privilege to other parties or not. If not selected, the privilege can be granted only to users and roles of the same party.</p>

## Buttons

Check	<p>When the user clicks on this button, the system checks if the selected system privilege has been already directly granted to the grantee (privileges assigned via role are not available for cross-system entity object privilege assignment). In case of positive result, the system shows the list of objects privileges. Otherwise, no object privileges can be granted. You can only change 'privilege category' and 'privilege name' and execute a new check.</p>
Add and Submit	<p>This function enables the user to add an item in the 'Object privilege' list by granting the inserted object privilege.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRGP001</li> <li>  DRGP002</li> <li>  DRGP004</li> <li>  DRGP005</li> <li>  DRGP006</li> <li>  DRGP007</li> <li>  DRGP008</li> <li>  DRGP009</li> <li>  DRGP010</li> <li>  DRGP011</li> <li>  DRGP012</li> <li>  DRGP013</li> <li>  DRGP016</li> <li>  DRGP017</li> <li>  DRGP018</li> </ul>
Delete and Submit	<p>This function enables the user to delete the selected item from the 'Object privilege' list and revokes it.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRRP001</li> <li>  DRRP002</li> <li>  DRRP004</li> <li>  DRRP005</li> <li>  DRRP006</li> </ul>

Cancel	This function enables the user to cancel the process and return to the previous screen.
Reset	This function enables the user to set 'Privilege category' and 'Privilege name' fields to the initial blank value. The object privilege panel is reset accordingly

### 2.3.3.15 Grant/Revoke Object Privilege - Details Screen

#### Context of Usage

This screen displays detailed information on all the objects and secured groups to which a specific object privilege is applied. You can check the data.

This screen is not relevant for CSD participant, payment bank and ancillary system users.

#### Screen Access

**| Common >> Access Rights >> Grant/Revoke System Privileges >> Grant/Revoke System privileges – search screen >> Click on the display button >> Grant/revoke system privilege - details screen >> Click on the object privilege button**

#### Privileges

To use this screen, the following Privileges are needed [ ]:

**| Granted Object Privileges List Query**

#### Screenshot

Illustration 72: Grant/Revoke Object Privilege – Details Screen

#### Fields Description

	<p><b>Role &lt;Role Name&gt;</b></p> <p><b>OR</b></p> <p><b>Party &lt;Parent BIC + Party BIC&gt;</b></p> <p><b>OR</b></p> <p><b>User &lt;User Login Name&gt;</b></p>
Privilege Category	Shows the name of the group the privilege belongs to.
Privilege Name	Shows the name of the granted privilege.

Deny Option	Shows whether the object privilege is explicitly denied or not.
4-Eyes Option	Shows whether the 4-eyes mode is required in order to perform the activity linked to the object privilege or not.
Administration Option	<p>If the grantee of the privilege is a user or a role, it shows whether the grantee is allowed to grant the same privilege to another user or role of the same party or not.</p> <p>If the grantee of the privilege is a party, it shows whether the party administrator of the grantee party is allowed to grant the same privilege to other parties or not. If not, the privilege can be granted only to users and roles of the same party</p>

Object Privileges	
Secured Element Type	Shows the element type of the object privilege.
Object/Group	Shows the name and technical identification of the secured group or the object identification, i.e. parent BIC and BIC, security account number, cash account number, ISIN.
Deny Option	Shows whether the object privilege is explicitly denied or not.
4-Eyes Option	Shows whether the 4-eyes mode is required in order to perform the activity linked to the object privilege or not.
Administration Option	<p>If the grantee of the privilege is a user or a role, it shows whether the grantee is allowed to grant the same privilege to another user or role of the same party or not.</p> <p>If the grantee of the privilege is a party, it shows whether the party administrator of the grantee party is allowed to grant the same privilege to other parties or not. If not, the privilege can be granted only to users and roles of the same party.</p>

### 2.3.3.16 Grant/Revoke Object Privilege - New/Edit Screen

#### Context of Usage

This screen contains a number of fields regarding object privileges granted to a user, party or role. You can grant new object privileges or revoke those that have been previously granted. Afterwards you can proceed further by clicking on the buttons below. To grant a privilege at object level, the privilege must first be granted at system level. After that you can specify the objects on which the privilege must be applied.

This screen is not relevant for CSD participant, payment bank and ancillary system users.

## Screen Access

**|** *Common >> Access Rights >> Grant/Revoke System Privileges >> Grant/Revoke System privileges – search screen >> Click on the search button >> Grant/revoke system privilege – new/edit screen >> Click on the object privilege button*

**|** *Common >> Access Rights >> Roles >> Roles – search/list screen >> Click on the grant/revoke privileges button >> Grant/revoke system privilege – new/edit screen >> Click on the object privilege button*

## Privileges

To use this screen, the following Privileges are needed [ ]:

- |** Grant Privilege
- |** Revoke Privilege

## Screenshot

Illustration 73: Grant/Revoke Cross-System Entity Object Privilege – new/edit screen

## Fields Description

<p style="text-align: center;"> <b>Role &lt;Role Name&gt;</b>  <b>OR</b>  <b>Party &lt;Parent BIC + Party BIC&gt;</b>  <b>OR</b>  <b>User &lt;User Login Name&gt;</b> </p>	
Privilege Category	Shows the name of the group the privilege belongs to.
Privilege Name	Shows the name of the granted privilege. References for error messages [ ]:

	<ul style="list-style-type: none"> <li>DRGP001</li> <li>DRGP002</li> <li>DRRP001</li> </ul>
Deny Option	Shows whether the object privilege is explicitly denied or not.
4-Eyes Option	Shows whether the 4-eyes mode is required in order to perform the activity linked to the object privilege or not.
Administration Option	<p>If the grantee of the privilege is a user or a role, it shows whether the grantee is allowed to grant the same privilege to another user or role of the same party or not.</p> <p>If the grantee of the privilege is a party, it shows whether the party administrator of the grantee party is allowed to grant the same privilege to other parties or not. If not, the privilege can be granted only to users and roles of the same party</p>

Object Privileges	
Secured Element Type	Shows the element type of the object privilege.
Object/Group	Shows the name and technical identification of the secured group or the object identification, i.e. parent BIC and BIC, security account number, cash account number, ISIN.
Deny Option	Shows whether the object privilege is explicitly denied or not.
4-Eyes Option	Shows whether the 4-eyes mode is required in order to perform the activity linked to the object privilege or not.
Administration Option	<p>If the grantee of the privilege is a user or a role, it shows whether the grantee is allowed to grant the same privilege to another user or role of the same party or not.</p> <p>If the grantee of the privilege is a party, it shows whether the party administrator of the grantee party is allowed to grant the same privilege to other parties or not. If not, the privilege can be granted only to users and roles of the same party</p>
Add/Remove Value	
Secured Element Type	Select the element type of the object privilege from the possible values:

	<ul style="list-style-type: none"> <li>System Entity</li> <li>Secured Group</li> <li>Party</li> <li>Security</li> <li>Party and its accounts</li> <li>Securities Account</li> <li>Cash Account</li> </ul> <p>This field is mandatory.</p>
Parent BIC	<p>Enter or select the parent BIC of the secured object party.</p> <p>If the secured element type is set to 'System Entity', 'Party' or 'Party and its accounts' then this field is present and mandatory. It is not present otherwise.</p> <p>Required format is: 11 characters.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRGP009</li> <li>DRGP010</li> <li>DRGP013</li> <li>DRGP021</li> </ul>
Party BIC	<p>Enter or select the party BIC of the secured object party.</p> <p>If the secured element type is set to 'System Entity', 'Party' or 'Party and its accounts' then this field is present and mandatory. It is not present otherwise.</p> <p>Required format is: 11 characters.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRGP009</li> <li>DRGP010</li> <li>DRGP013</li> <li>DRGP021</li> </ul>

Delete and Submit	<p>This function enables the user to delete the selected item from the 'Object privilege' list and revokes it.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>  DRGP001</li> <li>  DRGP002</li> <li>  DRGP004</li> <li>  DRGP005</li> <li>  DRGP006</li> <li>  DRGP007</li> <li>  DRGP008</li> <li>  DRGP009</li> <li>  DRGP010</li> <li>  DRGP011</li> <li>  DRGP012</li> <li>  DRGP013</li> <li>  DRGP016</li> <li>  DRGP017</li> <li>  DRRP001</li> <li>  DRRP004</li> <li>  DRRP005</li> <li>  DRRP006</li> <li>  DRRP007</li> </ul>
Cancel	<p>This function enables the user to cancel the process and return to the previous screen.</p>
Reset	<p>This function enables the user to set all fields to default value and blanks out all optional fields.</p>

### 2.3.3.17 Grant/Revoke Roles – Search/List Screen

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search for:

- | Parties and users the role is granted to
- | Roles granted to the selected party
- | Roles granted to the selected user

## Screen Access

**|** *Common >> Access Rights Management >> Grant/Revoke Roles*

## Privileges

To use this screen, the following Privileges are needed [▶]:

**|** Granted roles list query (display button available)

**|** Grant/revoke role (search button available)

Illustration 74: Grant/Revoke roles – search screen

## Fields Description

Grant/Revoke Roles – Search Criteria	
Role	
Role Name	<p>Select the name of the role.</p> <p>If the corresponding option is selected, the field is enabled and mandatory, otherwise it is not available.</p> <p>Required format is: max. 35x characters.</p>
Parties	
Parent BIC	<p>Enter or select the parent BIC of the party.</p> <p>If the corresponding option is selected, the field is enabled and mandatory, otherwise it is not available.</p> <p>Required format is: max. 11x characters.</p>

Party BIC	<p>Enter or select the BIC of the party.</p> <p>If the corresponding option is selected, the field is enabled and mandatory, otherwise it is not available.</p> <p>Required format is: max. 11x characters.</p>
<b>User</b>	
Login Name	<p>Enter or select the login name of the user.</p> <p>Required format is: max. 35x characters, input sensitive field.</p>

## Buttons

Search	The function enables the user to start a search according to the criteria entered accessing the grant/revoke role – new/edit screen.
Display	The function enables the user to start a search according to the criteria entered accessing the grant/revoke role – details screen.

### 2.3.3.18 Grant/Revoke Role – Details Screen

**Context of Usage** This screen displays detailed information on users and parties that are granted a specific role.

**Screen Access** | *Common >> Access Rights Management >> Grant/Revoke Roles >> Grant/Revoke Roles – search/list screen >> Click on the display button*

**Privileges** To use this screen, the following Privilege is needed [▶]:  
| *Granted roles list query*

## Screenshot

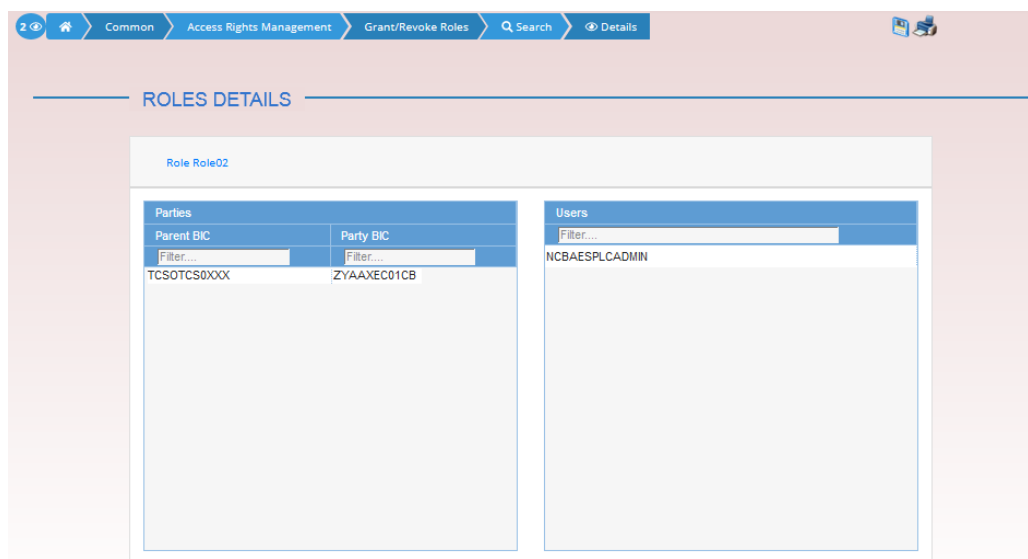

Illustration 75: Grant/Revoke role – details screen (role mode)

The screenshot shows the 'ROLES DETAILS' screen for a specific party. The breadcrumb navigation at the top indicates the path: Common > Access Rights Management > Grant/Revoke Roles > Search > Details. The main header identifies the party as 'Party TCSOTCS0XXX - NCBXITR001'. Below this, a 'Roles' section contains a filter input and a list of roles. The roles listed are 'National Service Desk (NCB)', 'Reading role', and 'RoleDMITest'. The 'Reading role' is currently selected and highlighted in blue.

Illustration 76: Grant/Revoke role – details screen (party roles mode)

The screenshot shows the 'ROLES DETAILS' screen for a specific user. The breadcrumb navigation at the top indicates the path: Common > Access Rights Management > Grant/Revoke Roles > Search > Details. The main header identifies the user as 'User N8IT NCB Admin1'. Below this, a 'Roles' section contains a filter input and a list of roles. The roles listed are 'Advanced Access rights admin', 'National Service Desk (NCB)', 'Party Administrator', 'Reading role', and 'RoleDMITest'. The 'Reading role' is currently selected and highlighted in blue.

### 2.3.3.20 Privileges – Search/List Screen

#### Context of Usage

This screen allows the authorised users to search for the Privileges.

The Service Operators can additionally manage the Privileges creating new ones or editing, deleting or restoring existing ones.

The result list is sorted by default by "Name", "Description", "Privilege type".

#### Screen Access

| *Common >> Access Rights Management >> Privileges >> Search*

#### Privileges

To use this screen, the following Privileges are needed [ ]:

- | Privilege query

Screenshot

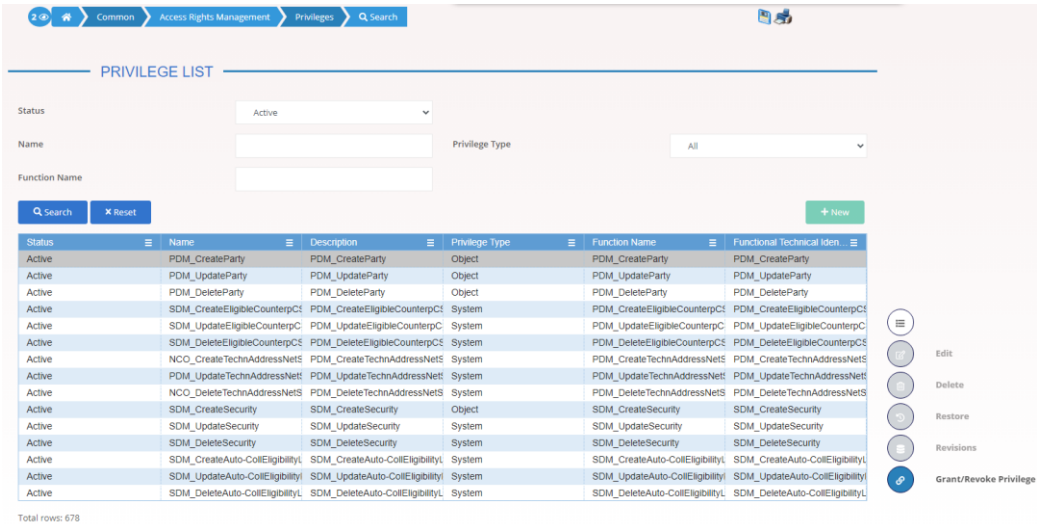

Illustration 81: Privilege – search/list screen

Fields  
Description

Privileges - Search Criteria	
Status	Select the status of the Privilege from the possible values: <ul style="list-style-type: none"> <li>All</li> <li>Active (default value)</li> <li>Deleted</li> </ul>
Name	Enter the name of the privilege. Required format is: max. 35x characters.
Privilege Type	Select the type of privilege from the possible values: <ul style="list-style-type: none"> <li>All (default value)</li> <li>System</li> <li>Object</li> </ul>
Function Name	Enter the name of the function associated to the privilege. Required format is: max. 35x characters.

Privilege – List	
Status	Shows the status of the Privilege.
Name	Shows the name of the privilege.
Description	Shows the description of the privilege.
Privilege Type	Shows the type of the Privilege.
Function Name	Shows the name of the function associated to the Privilege.
Functional Technical Identification	Shows the functional technical identification of the privilege.

## Buttons

Search	This function enables the User to start a search according to the entered criteria. The results are displayed in a list on the same screen.
Reset	This function enables the User to set default search criteria and blanks out all optional criteria.
New (Service Operator Only)	This function enables the User to create a new Privilege.
Edit (Service Operator Only)	This function enables the User to edit the selected Privilege.
Delete (Service Operator Only)	<p>This function enables the User to delete the selected Privilege, after confirmation.</p> <p>If the status of the selected Privilege is already set to 'Deleted', this function is not available.</p>
Restore (Service Operator Only)	<p>This function enables the User to restore a previously deleted Privilege.</p> <p>If the status of the selected Privilege is already set to 'Active', this function is not available.</p>
Revisions (Service Operator Only)	This function enables the User to access the Display Revisions List screen related to the selected Privilege.

### Grant/Revoke Privilege

This function enables the User to access the Grant/Revoke privileges Search screen.

## 2.3.3.21 Secured Groups - Search/List Screen

### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search for secured groups. The search results will be displayed in a list, which is sorted by the values of the 'Secured Group Identification' column in ascending order (default setting). After selecting an entry, you can proceed further by clicking on the buttons below.

This screen is not relevant for CSD participant, external CSD, payment bank or ancillary system users.

### Screen Access

Common >> Access Right Management >> Secured Groups >> Search

### Privileges

To use this screen, the following Privileges are [ ] needed:

- Secured Group list query
- Secured Group Details query
- Delete Secured Group

### Screenshot

**SECURED GROUP LIST**

### 2.3.4.3 Message Subscription Rule Set – New/Edit Screen

#### Context of Usage

This screen contains a number of fields regarding message subscription rule sets. You can enter new data or edit existing data. Afterwards you can proceed further by clicking on the buttons below.

#### Screen Access

**|** *Common >> Messages and Reports >> Message Subscription Rule Set >> New*

**|** *Common >> Messages and Reports >> Message Subscription Rule Set >> Message Subscription Rule Set – search/list screen >> click on New or Edit button*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- |** Create Message Subscription Rule Set
- |** Update Message Subscription Rule Set

#### Screenshot

Illustration 89: Message Subscription Rule Set – new/edit screen

#### Fields Description

Message Subscription Rule Set	
Rule Set Id	Shows the technical identification of the Message Subscription Rule Set.  This field is visible only in edit mode and it is read-only.

Name	<p>Enter the name assigned to the Message Subscription Rule Set.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRCE200</li> <li>DRUE200</li> </ul> <p>This field is mandatory.</p> <p>Required format is: max. 35x characters.</p>
Description	<p>Enter the description assigned to the Message Subscription Rule Set.</p> <p>This field is mandatory.</p> <p>Required format is: max. 350x characters.</p>
Service	<p>Select the service to which the Message Subscription Rule Set shall be applied for. Possible values:</p> <ul style="list-style-type: none"> <li>TIPS SERVICE</li> <li>T2 CLM COMPONENT</li> <li>T2 RTGS COMPONENT</li> <li>T2S AND CRDM COMPONENT</li> <li>ECMS</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRCE003</li> </ul> <p>This field is mandatory.</p> <p>This field is read-only in edit mode.</p>
Valid From	<p>Enter the date from which the Message Subscription Rule Set is valid or use the calendar icon.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRCE009</li> <li>DRCE010</li> <li>DRUE205</li> <li>DRUE206</li> <li>DRUE207</li> </ul> <p>This field is mandatory in create mode.</p> <p>In edit mode, if the date is in the past and if the user is different from Service Operator, this field is read-only. Otherwise the field should be editable.</p> <p>Required format is: Date.</p>

Valid To	<p>Enter the date until which the Message Subscription Rule Set is valid or use the calendar icon.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRCE010</li> <li>DRUE206</li> <li>DRUE207</li> </ul> <p>Required format is: Date.</p>
Positive/Negative parameter set	<p>Select the way in which the Message Subscription Rule Set must be used from the possible values:</p> <ul style="list-style-type: none"> <li>Positive</li> <li>Negative</li> </ul> <p>This field is mandatory.</p> <p>For TIPS and T2, only Positive value is possible.</p>
Creator Parent BIC	<p>Enter or select the Parent BIC of the Party who sets up the rule sets for the “Interested Parties”.</p> <p>This field is mandatory in create mode.</p> <p>This field is read only in edit mode.</p> <p>This field is visible only when the user is Service Operator, NCB or CSD user.</p> <p>If the user is a NCB user, this field contains the parent BIC of the party the user is performing the operation belongs to.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRCE001</li> <li>DRCE006</li> <li>DRUE010</li> </ul> <p>Required format is: max. 11x characters.</p>
Creator Party BIC	<p>Enter or select the Party BIC of the Party who sets up the rule sets for the “Interested Parties”.</p> <p>This field is mandatory in create mode.</p> <p>This field is read only in edit mode.</p> <p>This field is visible and enabled only when the user is Service Operator, a NCB or a CSD .</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRCE001</li> </ul>

	<ul style="list-style-type: none"> <li>DRCE006</li> <li>DRUE010</li> </ul> <p>Required format is: max. 11x characters.</p>
--	----------------------------------------------------------------------------------------------------------------------------

Interested Parties	
Parent BIC	<p>Enter or select the Parent BIC of the interested party.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRCE002</li> <li>DRCE005</li> <li>DRUE004</li> <li>DRUE005</li> <li>DRUE007</li> <li>DRUE010</li> </ul> <p>This field is mandatory in create mode.</p> <p>Required format is: max. 11x characters.</p>
Party BIC	<p>Enter or select the Party BIC of the interested party.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRCE002</li> <li>DRCE005</li> <li>DRUE004</li> <li>DRUE005</li> <li>DRUE007</li> <li>DRUE010</li> </ul> <p>This field is mandatory in create mode.</p> <p>Required format is: max. 11x characters.</p>

## Buttons

Submit	<p>This function enables the user to create or edit a Message Subscription Rule Set.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRCE001</li> <li>DRCE002</li> </ul>

	<ul style="list-style-type: none"> <li>  DRCE003</li> <li>  DRCE005</li> <li>  DRCE006</li> <li>  DRCE009</li> <li>  DRCE010</li> <li>  DRCE100</li> <li>  DRCE200</li> <li>  DRCE300</li> <li>  DRUE001</li> <li>  DRUE003</li> <li>  DRUE004</li> <li>  DRUE005</li> <li>  DRUE006</li> <li>  DRUE007</li> <li>  DRUE008</li> <li>  DRUE010</li> <li>  DRUE200</li> <li>  DRUE205</li> <li>  DRUE206</li> <li>  DRUE207</li> <li>  DRUE300</li> </ul>
Reset	This function enables the user to set all fields to default value and blanks out all optional fields.
Cancel	This function enables the user to cancel the process and return to the previous screen.

#### 2.3.4.4 Message Subscription Rule – New/Edit Screen

##### Context of Usage

The screen “New/Edit Messages Subscription Rule” enables the user to create a new Messages Subscription Rule or to edit an existing one. A Messages Subscription Rule consists of grouped parameters; every parameter is of a specific Parameter Type. Each rule is a box and contains a set of boxes for the related groups. The users can add or drop an entire group or add or delete specific parameters inside a group. Duly authorised users can refer, when managing a message subscription, to accounts under their Party ownership or for which their party is configured as co-manager.

## Screen Access

**| Common** >> Messages and Reports >> Message Subscription Rule Set >> Message Subscription Rule Set - search/list screen >> Click on the search button >> Click on the details button >> Click on the Message Subscription Rule button >> Click on the add rule button

**| Common** >> Messages and Reports >> Message Subscription Rule Set >> Message Subscription Rule Set - search/list screen >> Click on the search button >> Click on the details button >> Click on the Message Subscription Rule button >> select a Rule and click on edit rule button

## Privileges

To use this screen, the following Privileges are needed [▶]:

- | Create Message Subscription Rule**
- | Update Message Subscription Rule**
- | Message Subscription Rule List Query**
- | Message Subscription Rule Set Details Query**
- | Message Subscription Rule Set List Query**

## Screenshot

Illustration 90: Message Subscription Rule Set – new screen

## Fields Description

Message Subscription Rule	
Service	Shows the Service of the message subscription rule set. This field is read only.
Rule Set Id	Shows the technical identification of the message subscription rule set.

	This field is read only.
Name	Shows the name of the message subscription rule set. This field is read only.
Rule Set Valid From	Shows the date from which the message subscription rule is valid. This field is read only. Displayed format is: Date.
Rule Set Valid To	Shows the date until which the message subscription rule is valid. This field is read only. Displayed format is: Date.

Rule data	
Rule	Shows the technical identification of the message subscription rule. This field is read only and visible only in edit mode.
Sequence #	<p>This field enables the user to enter the sequence number related to the message subscription rule.</p> <p>Reference for error message [ &gt; ]:</p> <ul style="list-style-type: none"> <li>  DRCF003</li> <li>  DRCF005</li> </ul> <p>This field is mandatory. Required format is: Numeric</p>
Valid From	<p>This field enables the user to enter the date from which the message subscription rule is valid.</p> <p>Reference for error message [ &gt; ]:</p> <ul style="list-style-type: none"> <li>  DRCF005</li> <li>  DRCF006</li> <li>  DRCF007</li> <li>  DRUF004</li> <li>  DRUF006</li> <li>  DRUF007</li> </ul> <p>This field is mandatory. If the date is in the past, this field is read-only. Required format is: Date.</p>

Valid To	<p>This field enables the user to enter the date until which the message subscription rule is valid.</p> <p>Reference for error message [ ▶ ]:</p> <ul style="list-style-type: none"> <li>  DRCF007</li> <li>  DRUF004</li> <li>  DRUF007</li> </ul> <p>Required format is: Date.</p>
Boolean Expression	<p>This field shows the groups of parameters related to a message subscription rule.</p> <p>This field is read only. It is filled by adding a new group to the groups' box.</p> <p>Example of a Boolean expression of a rule with two groups: (Message type = XX AND Cash Account = YYY) as Group A OR (Message type = WW AND Cash Account = ZZZ) as Group B.</p>

### Predicates (Set of groups of Parameters)

Enables the user to enter the groups of parameters related to a message subscription rule.

It is possible to add one or more predicate to a group. A predicate is a parameter and the user is allowed to enter the predicates one by one. The user must select the type of parameter to be added in a select box and the relevant input field(s) is/are shown.

When adding a predicate to a group, select box must show the parameter types consistent with the selected Service:

In a group a parameter can appear only once. The aforementioned select box must not show a parameter type if already present in the group.

The already inserted parameters in a group can be amended.

Group	<p>Group of the Parameters related to a Rule. When the user clicks on the edit group button, the displayed pop-up shows a text field where inserting the Group Name.</p> <p>Reference for error message [ ▶ ]:</p> <ul style="list-style-type: none"> <li>  DRCF060</li> <li>  DRCF300</li> <li>  DRUF300</li> <li>  DRUF600</li> </ul> <p>This field is always present and mandatory.</p>
-------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Messages Type	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>This parameter type is selectable and mandatory for each service.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRCF010</li> <li>  DRUF008</li> <li>  DRUF010</li> </ul>
Instruction Type	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
Message Status	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
Party	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows two auto-complete select boxes, Parent BIC and BIC with format 11x each.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul>

	<p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
Securities Account Number	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows an auto-complete select box where inserting the Securities Account Identification Number.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
ISIN	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows an input-sensitive select box where inserting the Security ISIN.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
Cash Account	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows an auto-complete select box where inserting the Cash Account Identification Number.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRCF051</li> <li>  DRUF008</li> <li>  DRUF051</li> </ul> <p>This parameter type is selectable for each service.</p>
Instruction Status	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the</p>

	<p>“Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
ISO Transaction Code	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
Currency	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing the currencies code.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
Already Matched Flag	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>

Settlement Transaction Condition Code	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DRCF008</li> <li>■ DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
Business Sending Party	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows two auto-complete select boxes, Parent BIC and BIC with format 11x each.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DRCF008</li> <li>■ DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
Business Sending User	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a Select box that allows the customer to enter or choose a single Business Sending User.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DRCF008</li> <li>■ DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
Instructing Party	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows two auto-complete select boxes, Parent BIC and BIC with format 11x each.</p> <p>Reference for error message [▶]:</p> <ul style="list-style-type: none"> <li>■ DRCF008</li> <li>■ DRUF008</li> </ul>

	<p>This parameter type is selectable when the service linked to the Rule Set is T2S.</p>
Multi-addressee BIC	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows an auto-complete select box, BIC with format 11x.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2 RTGS.</p>
Business Case Code	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable if the service linked to the Rule Set is T2 CLM or T2 RTGS.</p>
Priority	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is T2 RTGS</p>
Underlying Message Type	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> </ul>

	<ul style="list-style-type: none"> <li>  DRCF011</li> <li>  DRUF008</li> <li>  DRUF011</li> </ul> <p>This parameter type is selectable if the service linked to the Rule Set is T2 CLM or T2 RTGS.</p>
Debit/Credit Indicator	<p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCF008</li> <li>  DRUF008</li> </ul> <p>This parameter type is selectable when the service linked to the Rule Set is TIPS.</p>

## Buttons

Submit	<p>This function enables the user to create or edit a Message Subscription Rule according to the information filled in the fields.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCF001</li> <li>  DRCF002</li> <li>  DRCF003</li> <li>  DRCF004</li> <li>  DRCF005</li> <li>  DRCF006</li> <li>  DRCF007</li> <li>  DRCF008</li> <li>  DRCF009</li> <li>  DRCF010</li> <li>  DRCF011</li> <li>  DRCF050</li> <li>  DRCF051</li> <li>  DRCF060</li> <li>  DRCF200</li> </ul>

	<ul style="list-style-type: none"> <li>  DRCF300</li> <li>  DRCF310</li> <li>  DRUF001</li> <li>  DRUF003</li> <li>  DRUF004</li> <li>  DRUF005</li> <li>  DRUF006</li> <li>  DRUF007</li> <li>  DRUF008</li> <li>  DRUF009</li> <li>  DRUF010</li> <li>  DRUF011</li> <li>  DRUF044</li> <li>  DRUF050</li> <li>  DRUF051</li> <li>  DRUF200</li> <li>  DRUF300</li> <li>  DRUF310</li> <li>  DRUF600</li> </ul>
Add Group	This function enables the user to add a group in the groups box in which the user can enter the name of the new group. After inserting a name and pushing the “ok” button in the popup, the group name is added to the Boolean Expression.
Edit Group	This function enables the user to edit a group name.
Delete Group	Pushing this button, the selected group is removed from the Boolean Expression with all its parameters.
Reset	This function restores the situation shown at opening of the page.
Cancel	This function enables the user to cancel the creation or the edit action. No operations are performed.
Add predicate	If the user pushes this button, the system shows a pop-up with select box to choose the proper parameter type. After selecting the parameter type, the field(s) for the parameter value is/are shown. After inserting a value and pushing the “ok” button in the popup, a value is inserted in the selected relevant group box.

Edit predicate	If the user pushes this button, the system shows a pop-up with a editable select box containing the actual Parameter Value. The user can change the Parameter Value. After editing a new value and pushing the “ok” button in the popup, the new value appears in the relevant group box.
Delete predicate	Pushing this button, the selected predicate is removed from the relevant group.

### 2.3.4.5 Report Configurations – Search/List Screen

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can search for report configuration. The search results are displayed in a list. After selecting an entry, you can proceed further by clicking on the buttons below. Duly authorised users can see and manage Report configuration under their datascope or configured for Cash Accounts they own or co-manage.

#### Screen Access

**|** *Common >> Messages and Reports >> Report Configurations >> Search*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- |** Report configuration list query
- |** Delete report configuration

#### Screenshot

*Illustration 91: Report Configuration – search/list screen*

## Fields Description

Report Configuration – Search Criteria	
Status	<p>Select the status of the Report Configuration from the possible values:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> All</li> <li><input type="checkbox"/> Active (default value)</li> <li><input type="checkbox"/> Deleted</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> DRDV009</li> <li><input type="checkbox"/> DRDV020</li> <li><input type="checkbox"/> DRDV030</li> </ul>
Configuration Name	<p>Enter the Name of the Report Configuration to be searched.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> DRDV008</li> </ul> <p>Required format is: max. 35x characters.</p>

Report Name	<p>Shows the name of the report type.</p> <p>Reference for error message [ ]:</p> <p>■ DRDV007</p>
Service	Shows the service of the report.
Delta Mode	<p>Shows whether the recipient receives the relevant report in delta mode or in full mode.</p> <p>Reference for error message [ ]:</p> <p>■ DRDV110</p>

System entity wide reporting flag	Shows whether the report should include information about the entire system entity.
Event Type	Shows the code of the event type that triggers the report.  Reference for error message [ ▶ ]: <a href="#">  DRDV006</a>
Currency	Shows the currency related to the event.  Reference for error message [ ▶ ]: <a href="#">  DRDV070</a>
Frequency	Shows the frequencies with which the reports are generated.
Parent BIC	Shows the Parent BIC of the interested report.  Reference for error message [ ▶ ]: <a href="#">  DRDV004</a> <a href="#">  DRDV005</a>
Party BIC	Shows the Party BIC of the interested report.  Reference for error message [ ▶ ]: <a href="#">  DRDV004</a> <a href="#">  DRDV005</a>
Owner Party Short Name	Shows the short name of the party which owns the report.
Cash Account Number	Shows the cash account for which the report has been subscribed.

## Buttons

Search	This function enables the user to start a search according to the filled in criteria.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
New	This function enables the user to create a new Report Configuration.

Edit	<p>This function enables the user to edit the details of the selected Report Configuration.</p> <p>If the status of the selected Report Configuration is already set to 'Deleted', this function is not available.</p>
Delete	<p>This function enables the user to delete the selected Report Configuration.</p> <p>If the status of the selected Report Configuration is already set to 'Deleted', this function is not available.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRDV001</li> <li>  DRDV020</li> <li>  DRDV060</li> </ul>
Restore	<p>This function enables the user to restore the selected Report Configuration.</p> <p>If the status of the selected Report Configuration is already set to 'Active', this function is not available.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRDV001</li> <li>  DRDV004</li> <li>  DRDV005</li> <li>  DRDV006</li> <li>  DRDV007</li> <li>  DRDV008</li> <li>  DRDV009</li> <li>  DRDV030</li> <li>  DRDV050</li> <li>  DRDV070</li> <li>  DRDV100</li> <li>  DRDV110</li> <li>  DRDV120</li> <li>  DRDV155</li> </ul>
Details	<p>This function enables the user to read the details of the selected Report Configuration.</p>
Revisions	<p>This function enables the user to display the revisions of the selected Report Configuration.</p>

## 2.3.4.6 Report Configuration – Details Screen

### Context of Usage

This screen displays detailed information on the selected report configuration. It also contains a number of fields regarding report configuration, for which you can enter new data or edit existing data. You can check the data and proceed further by clicking on the buttons below. Duly authorised users can see and manage Report configuration under their datascope or configured for Cash Accounts they own or co-manage.

### Screen Access

**|** *Common >> Messages and Reports >> Report Configuration >> Report Configuration – search/list screen >> Click on the search and/or details button*

### Privileges

To use this screen, the following Privileges are needed [▶]:

- |** Report Configuration details query
- |** Delete Report Configuration

## 2.3.4.7 Report Configuration – New/Edit Screen

### Context of Usage

This screen contains a number of fields regarding report configuration. You can enter new data or edit existing data. Afterwards you can proceed further by clicking on the buttons below. Each report configuration specifies a type of report, its data scope (i.e. full or delta report), the set of parties entitled to get said type of report and the mode they get it (i.e. push or pull).

The screen has a slightly different behaviour depending on the function the user is submitting. Duly authorised users can see and manage Report configuration under their datascope or configured for Cash Accounts they own or co-manage.

### Screen Access

Common >> Messages and Reports >> Report Configuration >> New

Common >> Messages and Reports >> Report Configuration >> Report Configuration – search/list screen >> click on New or Edit button

### Privileges

To use this screen, the following Privileges are needed [▶]:

- Create Report configuration
- Update Report configuration

### Screenshot

## 2.3.5 Market Specific Configuration

### 2.3.5.1 Restriction Types – Search/List Screen

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can display a list of Restriction Types matching the entered criteria. The search results are displayed in a list, which is sorted by the values of the 'Restriction Type' column in ascending order (default setting). After selecting an entry, you can proceed further by clicking on the buttons below.

#### Screen Access

| *Common >> Market Specific Configuration >> Restriction Types >> Search*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- | Market-specific Restriction List Query
- | Delete Restriction Type

## Screenshot

## Fields Description

Restriction Types – Search Criteria	
Status	<p>Select the status of the Restriction Type from the possible values:</p> <ul style="list-style-type: none"> <li>All</li> <li>Active (default value)</li> <li>Deleted</li> </ul> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRDL003</li> <li>DRDL004</li> </ul>
Service	<p>Select the service for which the Restriction Type is valid from the possible values:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>T2 RTGS COMPONENT</li> <li>T2 CLM COMPONENT</li> <li>T2S</li> <li>TIPS</li> </ul>
General Restriction	<p>Select whether the Restriction Type is a general restriction defined by the Service Operator and available to everyone from the possible values:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>Yes</li> <li>No</li> </ul>

Restriction Type	<p>Enter the Restriction Type code.</p> <p>Required format is: max. 4x characters.</p> <p>Reference for error message [ ]:</p> <p>DRDL005</p>
Description	<p>Enter the description of the Restriction Type.</p> <p>Required format is: max. 350x characters.</p>
Valid from from	<p>Enter the lower bound of the search range for the date from which the Restriction Type is valid or use the calendar icon.</p> <p>The lower bound of the 'Valid from' date must be earlier than the upper bound.</p> <p>Required format is: Date.</p>
Valid from to	<p>Enter the upper bound of the search range for the date from which the restriction type is valid or use the calendar icon.</p> <p>The upper bound of the 'Valid from' date must be equal to or later than the lower bound.</p> <p>Required format is: Date.</p>
Valid to from	<p>Enter the lower bound of the search range for the date until which the restriction type is valid or use the calendar icon.</p> <p>The lower bound of the 'Valid to' date must be earlier than the upper bound.</p> <p>Required format is: Date.</p>
Valid to to	<p>Enter the upper bound of the search range for the date until which the restriction type is valid or use the calendar icon.</p> <p>The upper bound of the 'Valid to' date must be equal to or later than the lower bound.</p> <p>Required format is: Date.</p>

Object Restriction Type	<p>Select the object restriction type from the possible values:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>Cash balance</li> <li>External RTGS account</li> <li>Intra-Position Movement instruction</li> <li>Intra-Balance Movement instruction</li> <li>Party</li> <li>Security</li> <li>Securities account</li> <li>Securities position</li> <li>Settlement instruction</li> <li>Cash Account</li> </ul>
Restriction Processing Type	<p>Select the restriction processing type from the drop-down menu from the possible values:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>Balance Type / Earmarking</li> <li>Blocking</li> <li>Collateralized</li> <li>CoSD Blocking</li> <li>CSD Validation Hold</li> <li>Deliverable</li> <li>Earmarking for Auto-collateralization</li> <li>Rejection</li> <li>Reservation</li> </ul>
Positive / Negative Parameter Set	<p>Select the Positive/Negative parameter set from the drop-down menu from the possible values:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>Positive</li> <li>Negative</li> </ul>

Restriction Types – List	
Status	<p>Shows the status of the Restriction Type.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRDL003</li> </ul>

	<a href="#">DRDL004</a>
Service	Shows the service for which the Restriction Type is valid.
General Restriction	Shows whether the Restriction Type is a general restriction defined by the Service Operator and available to everyone.
Restriction Type	Shows the Restriction Type code. References for error messages [ ]: <a href="#">DRDL005</a>
Description	Shows the description of the Restriction Type.
Valid from	Shows the date from which the Restriction Type is valid.
Valid to	Shows the date until which the Restriction Type is valid.
Object Restriction Type	Shows the object on which the Restriction Type can be applied
Restriction Processing Type	Shows the restriction processing type.
Currency	Shows the currency linked to the Restriction Type, if available. Reference for error message [ ]: <a href="#">DRDL006</a>
Positive / Negative Parameter Set	Shows whether the rules of the Restriction Type represent a positive or negative set of parameters.

## Buttons

Search	This function enables the user to start a search according to the entered criteria.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
New	This function enables the user to create a new Restriction Type.
Edit	<p>This function enables the user to edit the details of the selected Restriction Type.</p> <p>If the status of the selected Restriction Type is already set to 'Deleted', or it is already closed, this function is not available.</p>

Delete	<p>This function enables the user to delete the selected Restriction Type, after confirmation.</p> <p>If the status of the selected Restriction Type is already set to 'Deleted', or it is already closed, this function is not available.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>■ DRDL001</li> <li>■ DRDL003</li> <li>■ DRDL040</li> </ul>
Restore	<p>This function enables the user to restore a previously deleted Restriction Type.</p> <p>If the status of the selected Restriction Type is already set to 'Active' this function is not available.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>■ DRDL001</li> <li>■ DRDL004</li> <li>■ DRDL005</li> <li>■ DRDL005</li> </ul>
Revisions	<p>This function enables the user to display the revisions of the selected Restriction Type.</p>
Details	<p>This function enables the user to read the details of the selected Restriction Type Rule Set.</p>

### 2.3.5.2 Restriction Type - Details Screen

#### Context of Usage

This screen displays detailed information on the selected Restriction Type. It also contains a number of fields regarding Restriction Type, for which you can enter new data or edit existing data. You can check the data and proceed further by clicking on the buttons below. Restriction Type Rules List is only shown after clicking on the related button, if the user is granted with the required privileges. Same principles applied for editing or deleting a Restriction Type Rule.

#### Screen Access

■ *Common >> Market Specific Configuration >> Restriction Type >> Restriction Type – search/list screen >> Click on the details button*

#### Privileges

To use this screen, the following Privileges are needed [ ]:

- Market-specific Restriction Type Rule Set List Query
- Delete Restriction Type
- Market-specific Restriction Type Rule Detail Query

- Update Restriction Type Rule
- Delete Restriction Type Rule

## Screenshot

Illustration 95: Restriction Type – details screen

## Fields Description

Restriction Type	
Status	Shows the status of the Restriction Type.  If the status is set to 'Deleted', the selected Restriction Type cannot be deleted or edited.  If the status is set to 'Active', the selected Restriction Type cannot be restored.
Service	Shows the service to which the Restriction Type is applied for.
Restriction Type	Shows the Restriction Type code.
Description	Shows the description of the Restriction Type.
Valid From	Shows the date from which the Restriction Type is valid.
Valid To	Shows the date until which the Restriction Type is valid.
Object Restriction Type	Shows the object Restriction Type.

Restriction Processing Type	Shows the restriction processing type.
Currency	Shows the currency linked to the Restriction Type. References for error messages [ ]: <a href="#">DRDL006</a>
Positive / Negative Parameter Set	Shows whether the rules of the Restriction Type represent a positive or negative set of parameters.

Restriction Type Rules	
Status	Select the status of the Restriction Type rule from the possible values: <a href="#">All</a> <a href="#">Active (default value)</a> <a href="#">Deleted</a>
Status	Shows the status of the Restriction Type Rule. If the status is set to 'Deleted', the selected Restriction Type Rule cannot be deleted or edited. If the status is set to 'Active', the selected Restriction Type Rule cannot be restored.
Sequence	Shows the sequence related to the Restriction Type Rule.
Rule	Shows the technical identification of the Restriction Type Rule.
Valid From	Shows the date from which the Restriction Type Rule is valid.
Valid To	Shows the date until which the Restriction Type Rule is valid.
Rule Boolean Expression	Shows the parameters applicable to the rule.

## Buttons

Search	This function enables the user to access the list of Restriction Type Rules related to the selected rule set.
--------	---------------------------------------------------------------------------------------------------------------

Edit	<p>This function enables the user to edit the details of the displayed Restriction Type.</p> <p>If the status of the displayed Restriction Type is already set to 'Deleted', or it is closed, this function is not available.</p>

Reset	<p>This function enables the user to set all fields to default value and blanks out all optional fields.</p>

Cancel

This function enables the user to cancel the process and return to the previous screen.

## 2.3.5.4 Restriction Type Rule - New/Edit Screen

### Context of Usage

The screen “New/Edit Restriction Types Rule” enables the user to create a new Restriction Types Rule or to edit an existing one. A Restriction Types Rule consists of grouped parameters; every parameter refers to a specific Parameter Type or, for CSD only, to a Market Specific Attribute. The users can add or drop an entire group or add or delete specific parameters inside a group.

### Screen Access

**|** *Common >> Market Specific Configuration >> Restriction Type >> Restriction Type - search/list screen >> Click on the search button >> Click on the details button >> Click on the add rule button*

**|** *Common >> Market Specific Configuration >> Restriction Type >> Restriction Type - search/list screen >> Click on the search button >> Click on the details button >> Click on Search button >> select a Rule and click on edit rule button*

### Privileges

To use this screen, the following Privileges are needed [▶]:

- |** Create Restriction Type Rule
- |** Update Restriction Type Rule
- |** Market-specific Restriction Type Rule Detail Query
- |** Market-specific Restriction Type Rule Parameter Details Query
- |** Market-specific Restriction Type Rule Set List Query

### Screenshot

Illustration 97: Restriction Type Rule – new screen

## Fields Description

Restriction Type	
Status	Shows the status of the Restriction Type Rule Set. This field is read-only.
Service	Shows the Service of the Restriction Type rule set. This field is read-only.
Restriction Type	Shows the Restriction Type code. This field is read-only.
Description	Shows the description of the Restriction Type Rule Set. This field is read-only.
Restriction Type Valid From	Shows the date from which the Restriction Type Rule Set is valid. This field is read-only. Displayed format is: Date.
Restriction Type Valid To	Shows the date until which the Restriction Type rule Set is valid. This field is read-only. Displayed format is: Date.

Restriction Type Rule Data	
Rule	Shows the technical identification of the Restriction Type rule. This field is read only and visible only in edit mode.
Sequence Number	Enter the sequence number related to the Restriction Type rule. This field is mandatory. Required format is: Numeric. Reference for error message [ ]: <ul style="list-style-type: none"> <li>■ DRCX004</li> <li>■ DRUX005</li> </ul>

Valid From	<p>Enter or pick the date from which the Restriction Type rule is valid.</p> <p>This field is mandatory.</p> <p>If the date is in the past, this field is read-only.</p> <p>Required format is: Date.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DRCX010</li> <li>■ DRUX004</li> <li>■ DRUX010</li> </ul>
Valid To	<p>Enter or pick the date until which the Restriction Type rule is valid.</p> <p>Required format is: Date.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DRCX011</li> <li>■ DRUX011</li> </ul>
Boolean Expression	<p>This field shows the groups of parameters related to a Restriction Type rule.</p> <p>This field is read-only.</p> <p>It is filled by adding a new group to the groups' box.</p> <p>Example of a Boolean expression of a rule with two groups: (Message type = XX AND Cash Account = YYY) as Group A OR (Message type = WW AND Cash Account = ZZZ) as Group B.</p>

### Predicates (Set of groups of Parameters)

Enables the user to enter the groups of parameters related to a Restriction Type Rule.

It is possible to add parameters of predefined types or related to the market-specific attributes available to the requestor user. It is possible to add one or more predicate to a group. A predicate is a parameter and the user is allowed to enter the predicates one by one. The user must select the type of parameter to be added in a select box and the relevant input field(s) is/are shown.

In a group, a parameter can appear only once. The aforementioned select box must not show a parameter type if already present in the group.

The already inserted parameters in a group can be amended.

Group	Group of the Parameters related to a Rule. When the user clicks on the edit group button, the displayed pop-up shows a text field where inserting the Group Name.
-------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<p>This field is always present and mandatory.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX300</li> <li>  DRUX300</li> </ul>
Category	<p>Select the category of the predicate from the possible values:</p> <ul style="list-style-type: none"> <li>  Predefined</li> <li>  MSA</li> </ul>
Securities Movement Type	<p>Select the type of Securities Movement Type.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Payment	<p>Select the type of type of cash movement.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p>

	<p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Transaction Identification	<p>Select the ISO Transaction Code of the instruction.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Securities Account Owner Party Type	<p>Select the party type of the account owner.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> </ul>

	<ul style="list-style-type: none"> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Instructing Party Type	<p>Select the party type of the account owner.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Party BIC	<p>Enter or select the BIC of the instructing party.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows an auto-complete select box where inserting the BIC with format 11x.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> </ul>

	<ul style="list-style-type: none"> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
ISIN	<p>Enter or select the ISIN code of the security.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows an input-sensitive select box where inserting the Security ISIN with format 12x.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Matching Status	<p>Select the matching status of the instruction.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> </ul>

	<ul style="list-style-type: none"> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Debited Position/Balance	<p>Select the restriction type code of the delivering position or the debited balance of the instruction.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Credited Position/Balance	<p>Select the restriction type code of the delivering position or the credited balance of the instruction.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> </ul>

	<ul style="list-style-type: none"> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Securities Account Number	<p>Enter or select the Securities Account Number.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows an auto-complete select box where inserting the Securities Account Number.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Cash Account Number	<p>Enter or select the Cash Account Number.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows an auto-complete select box where inserting the Cash Account Number.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> </ul>

	<ul style="list-style-type: none"> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Credit Debit Indicator	<p>Select the value of the Debit/Credit Indicator.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX050</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX050</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Country if Issuance	<p>Select the country of issuance of the security.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p>
Settlement Currency	<p>Select the Settlement Currency.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing the currencies code.</p> <p>Reference for error message [ ]:</p>

	<ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Cash Account Type	<p>Select the cash account type.</p> <p>If the Group contains a Parameter of this type, this field contains the corresponding Parameter Value. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing a set of values allowed for this field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX060</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX600</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX600</li> </ul>
Market-Specific Attribute Name	<p>Enter or select the value of the parameter.</p> <p>This field is only available if MSA parameter has been added to the group. When the user clicks on the “Add predicate” button, the displayed pop-up shows a select box containing the attribute values for the selected MSA. If the attribute values are not specified in the attribute domain, the entered value must be consistent with the format of the attribute domain.</p>

	<p>This field is only available for object restriction type equal to Settlement Instruction, Intra-position movement and Intra-balance movement.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX002</li> <li>  DRCX012</li> <li>  DRCX013</li> <li>  DRCX050</li> <li>  DRCX200</li> <li>  DRCX310</li> <li>  DRCX320</li> <li>  DRCX330</li> <li>  DRCX600</li> <li>  DRUX003</li> <li>  DRUX012</li> <li>  DRUX013</li> <li>  DRUX050</li> <li>  DRUX200</li> <li>  DRUX310</li> <li>  DRUX320</li> <li>  DRUX330</li> <li>  DRUX600</li> </ul>
Market-Specific Attribute Name – Credit	<p>Select whether the relevant parameter value applies specifically to the receiving leg of the settlement instruction.</p> <p>This field is only applicable in case the market-specific attribute type is 'party' or 'account'. When the selected market-specific attribute type is 'Security', this field is not applicable. If the selected market-specific attribute type is 'party' or 'account' and neither the 'Debit' field nor the 'Credit' field are selected, then the parameter applies independently from the leg of the settlement instruction.</p> <p>This field is also available as a show field for existing records.</p> <p>This field is only available for object restriction type equal to Settlement Instruction, Intra-position movement and Intra-balance movement.</p> <p>This field is empty and read-only when a Market Specific Attribute type is “Security”.</p>

Market-Specific Attribute Name – Debit	<p>Select whether the relevant parameter value applies specifically to the delivering leg of the settlement instruction.</p> <p>This field is only applicable in case the market-specific attribute type is 'party' or 'account'. When the selected market-specific attribute type is 'Security', this field is not applicable.</p> <p>If the selected market-specific attribute type is 'party' or 'account' and neither the 'Debit' field nor the 'Credit' field are selected, then the parameter applies independently from the leg of the settlement instruction.</p> <p>This field is also available as a show field for existing records.</p> <p>This field is only available for object restriction type equal to Settlement Instruction, Intra-position movement and Intra-balance movement.</p> <p>This field is empty and read-only when a Market Specific Attribute type is "Security".</p>

## Buttons

Submit	<p>This function enables the user to create or edit a Restriction Type Rule according to the information filled in the fields.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRCX001</li> <li>  DRCX002</li> <li>  DRCX004</li> <li>  DRCX005</li> <li>  DRCX006</li> <li>  DRCX007</li> <li>  DRCX008</li> <li>  DRCX010</li> <li>  DRCX011</li> <li>  DRCX012</li> <li>  DRCX013</li> <li>  DRCX045</li> <li>  DRCX050</li> <li>  DRCX200</li> <li>  DRCX300</li> <li>  DRCX310</li> <li>  DRCX320</li> <li>  DRCX330</li> <li>  DRCX600</li> <li>  DRUX001</li> <li>  DRUX002</li> <li>  DRUX003</li> <li>  DRUX004</li> <li>  DRUX005</li> <li>  DRUX008</li> <li>  DRUX009</li> <li>  DRUX010</li> <li>  DRUX011</li> <li>  DRUX012</li> <li>  DRUX013</li> <li>  DRUX044</li> </ul>

	<ul style="list-style-type: none"> <li>  DRUX050</li> <li>  DRUX200</li> <li>  DRUX300</li> <li>  DRUX310</li> <li>  DRUX320</li> <li>  DRUX330</li> <li>  DRUX600</li> </ul>
Add Group	This function enables the user to add a group in the groups box in which the user can enter the name of the new group. After inserting a name and pushing the “ok” button in the popup, the group name is added to the Boolean Expression.
Edit Group	This function enables the user to edit a group name.
Delete Group	Pushing this button, the selected group is removed from the Boolean Expression with all its parameters.
Reset	This function restores the situation shown at opening of the page.
Cancel	This function enables the user to cancel the creation or the edit action. No operations are performed.
Add predicate	If the user pushes this button, the system shows a pop-up with select box to choose the proper parameter type. After selecting the parameter type, the field(s) for the parameter value is/are shown. After inserting a value and pushing the “ok” button in the popup, a value is inserted in the selected relevant group box.
Edit predicate	If the user pushes this button, the system shows a pop-up with a editable select box containing the actual Parameter Value. The user can change the Parameter Value. After editing a new value and pushing the “ok” button in the popup, the new value appears in the relevant group box.
Delete predicate	Pushing this button, the selected predicate is removed from the relevant group.

## 2.3.6 Network Configuration

### 2.3.6.1 Distinguished Name-BIC Routing – Search/List Screen

**Context of Usage**

This screen contains a number of fields regarding the relationship between a Distinguished Name and a BIC for which it is authorised to operate, and enables

the user to display a list of DN-BIC couples matching the entered criteria. It gives also the possibility to display, edit, delete and restore a selected DN-BIC couple and to show Revisions and Audit trail of a selected one.

The search results will display a list sorted by the values of the 'Distinguished Name' column in ascending order (default setting).

After selecting an entry, you can proceed further by clicking on the buttons below.

## Screen Access

**|** *Common >> Network Configuration >> DN-BIC Routing >> Search*

## Privileges

To use this screen, the following Privileges are needed [▶]:

- |** Delete DN-BIC Routing
- |** DN BIC Routing Query

## Fields

### Description

Distinguished Name-BIC Routing - Search Criteria	
Status	<p>Select the status of the DN-BIC Routing from the possible values:</p> <ul style="list-style-type: none"> <li>All</li> <li>Active (default value)</li> <li>Deleted</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRD8002</li> <li>DRD8003</li> </ul>
Distinguished Name	<p>Enter the Distinguished Name which is part of the couple DN-BIC to be searched.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRD8004</li> </ul> <p>Required format is: max 256x characters (UTF-8 except '&gt;', '&lt;', '&amp;').</p>
BIC	<p>Enter the BIC which is part of the couple DN-BIC to be searched.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRD8005</li> </ul> <p>Required format is: max. 11x characters.</p>
Direction	<p>Select the direction of the communication for which the DN-BIC Routing to be searched is set from the possible values:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>Blank</li> <li>Inbound</li> <li>Outbound</li> </ul> <p>Only one field between Participation Type and Direction can be inserted.</p> <p>If the user enters a value in the Participation Type field, this field is blanked.</p>
Participation Type	<p>Select the participation type of the related Authorised Account User from the possible values:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>Blank</li> <li>Direct</li> <li>Multi Addressee – Branch of Direct Participant</li> </ul>

	<p><b>I Multi Addressee – Credit Institution</b></p> <p>Only one field between Participation Type and Direction can be inserted.</p> <p>If the user enters a value in the Direction field, Participation Type is blanked.</p>
Valid From from	<p>Enter the lower bound for the Valid from of the DN-BIC routing link or use the calendar icon.</p> <p>Required format is: Date.</p>
Valid From to	<p>Enter the upper bound for the Valid from of the DN-BIC routing link or use the calendar icon.</p> <p>The 'Valid From to' must be greater than the 'Valid From from'.</p> <p>Required format is: Date.</p>
Valid To from	<p>Enter the lower bound for the Valid to of the DN-BIC routing link or use the calendar icon.</p> <p>Required format is: Date.</p>
Valid To to	<p>Enter the upper bound for the Valid to of the DN-BIC routing link or use the calendar icon.</p> <p>The 'Valid To to' must be greater than the 'Valid To from'</p> <p>Required format is: Date.</p>
<b>Distinguished Name-BIC Routing - List</b>	
Status	<p>Shows the status of the DN-BIC Routing record.</p> <p>Reference for error message [ ]:</p> <p><b>I DRD8002</b></p> <p><b>I DRD8003</b></p>
Distinguished Name	<p>Shows the Distinguished Name which is part of the searched couple DN-BIC.</p> <p>Reference for error message [ ]:</p> <p><b>I DRD8004</b></p>
BIC	<p>Shows the BIC which is part of the searched couple DN-BIC.</p> <p>Reference for error message [ ]:</p> <p><b>I DRD8005</b></p>

Direction	Shows whether the link between the DN and the BIC authorises the DN to act as Originator (inbound routing) or as Beneficiary (outbound routing) for the Party.
Participation Type	Specifies the participation type of the related Authorised Account User.  Reference for error message [ ]: I DRD8008
Valid from	Shows the Valid from date of the DN-BIC Routing.
Valid to	Shows the Valid to date of the DN-BIC Routing.

## Buttons

Search	This function enables the user to start a search according to the entered criteria. The results are displayed in a list on the same screen.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
New	This function enables the user to create a new DN-BIC Routing.
Edit	This function enables the user to edit the selected DN-BIC Routing.
Delete	<p>This function enables the user to delete the selected DN-BIC Routing.</p> <p>If the status of the selected DN-BIC Routing is already set to 'Deleted', this function is not available.</p> <p>Reference for error message [ ]:</p> <p>I DRD8001</p> <p>I DRD8002</p> <p>I DRD8005</p>
Restore	<p>This function enables the user to restore a previously deleted DN-BIC Routing.</p> <p>If the status of the selected DN-BIC Routing is already set to 'Active', this function is not available.</p> <p>Reference for error message [ ]:</p>

	<ul style="list-style-type: none"> <li>  DRD8001</li> <li>  DRD8003</li> <li>  DRD8004</li> <li>  DRD8005</li> <li>  DRD8006</li> <li>  DRD8007</li> <li>  DRD8008</li> </ul>
Revisions	This function enables the user to access the Display Revisions List screen related to the selected DN-BIC Routing.

### 2.3.6.2 Distinguished Name-BIC Routing – New/Edit Screen

#### Context of Usage

This screen enables the user to create a new link between an existing distinguished name (DN) and an existing Authorised BIC, Participant or Reachable Party's BIC. The couple (DN, BIC) can be managed by the Service Operator, NCBs, Ancillary Systems or Payment Banks.

NCBs can manage DN-BIC Routings within their own System Entities.

Payment Banks and Ancillary Systems can manage DN-BIC Routings that reference BICs authorised to act on their own accounts and DNs linked to their own users (for TIPS) or to one of their Party Technical Addresses (for T2 RTGS).

#### Screen Access

- | *Common >> Network Configuration >> DN-BIC Routing >> New*
- | *Common >> Network Configuration >> DN-BIC Routing >> Search >> Click on the *new* or *edit* button*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- | Create DN-BIC Routing
- | Update DN-BIC Routing

Distinguished Name - BIC Routing	
Distinguished Name	<div>Enter or select the Distinguished Name to link to the BIC.</div> <div>Reference for error message [▶]:</div> <div>DRC8002</div> <div>This field is mandatory in create mode.</div> <div>This field is read-only in edit mode.</div>

Direction	<p>Select the Direction to specify whether the link between the DN and the BIC authorises the DN to act as Originator (inbound routing) or as Beneficiary (outbound routing).</p> <p>Possible values are:</p> <ul style="list-style-type: none"> <li>Inbound</li> <li>Outbound</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRU8006</li> </ul> <p>In create mode, if the user enters a value in the Participation Type field, this field is blanked. It's mandatory otherwise.</p> <p>This field is read-only in edit mode.</p>
Participation Type	<p>Select the participation type of the related Authorised Account User.</p> <p>Possible values are:</p> <ul style="list-style-type: none"> <li>Direct</li> <li>Multi Addressee – Branch of Direct Participant</li> <li>Multi Addressee – Credit Institution</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRU8008</li> </ul> <p>In create mode, if the user enters a value in the Direction field, this field is blanked. It's mandatory otherwise.</p> <p>This field is read-only in edit mode.</p>
Valid From	<p>Enter the date from which the DN-BIC routing link is valid or use the calendar icon.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRC8004</li> <li>DRU8003</li> <li>DRU8004</li> </ul> <p>This field is mandatory in create mode and it must be equal to or later than the current business date.</p> <p>In edit mode, if the date is equal to or lower than the current business date, this field is read-only.</p> <p>Required format is: Date.</p>

Valid To	<p>Enter the date until which the DN-BIC routing link is valid or use the calendar icon.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRC8005</li> <li>  DRU8005</li> </ul> <p>In create mode, the 'Closing Date' must be equal to or later than the 'Opening Date' and the current business date.</p> <p>Required format is: Date.</p>
BIC	<p>Select one or more BIC to link to the chosen Distinguished Name. User can filter the list of BIC, typing in the dedicated field.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRC8003</li> <li>  DRU8007</li> </ul> <p>This field is mandatory in create mode.</p> <p>This field is read-only in edit mode.</p>

## Buttons

Submit	<p>This function enables the user to create or edit a DN-BIC Routing according to the information filled in the fields.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>  DRC8001</li> <li>  DRC8002</li> <li>  DRC8003</li> <li>  DRC8004</li> <li>  DRC8005</li> <li>  DRC8006</li> <li>  DRC8007</li> <li>  DRC8008</li> <li>  DRU8001</li> <li>  DRU8002</li> <li>  DRU8003</li> <li>  DRU8004</li> </ul>
--------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<ul style="list-style-type: none"> <li>DRU8005</li> <li>DRU8006</li> <li>DRU8007</li> <li>DRU8008</li> </ul>
Reset	This function restores the situation shown at opening of the page.
Cancel	This function enables the user to cancel the creation/editing action and return to List page.

### 2.3.6.3 Routing – Search/List Screen

#### Context of Usage

This screen contains a number of fields regarding Routing configurations. By inputting the relevant data you can search for Routing configurations. The search results will be displayed in a list. After selecting an entry, you can proceed further by clicking on the buttons below.

#### Screen Access

Common >> Network Configuration >> Routing >> Search

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- Delete Routing
- Routing List Query

#### Screenshot

Illustration 100: Routing – search/list screen

**Fields**  
**Description**

Routing - Search Criteria	
Status	<p>Select the status of the Routing from the possible values:</p> <ul style="list-style-type: none"> <li>All</li> <li>Active (default value)</li> <li>Deleted</li> </ul> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRDW002</li> <li>DRDW044</li> </ul>
Network Service	<p>Select the name of the network service related to the routing from the drop-down menu.</p> <p>The default value is All.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRDW003</li> <li>DRDW015</li> </ul>
Parent BIC	<p>Enter or select the parent BIC of the party.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRDW005</li> <li>DRDW015</li> </ul>
Party BIC	<p>Enter or select the BIC of the party.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRDW005</li> <li>DRDW015</li> </ul>
Technical Address	<p>Select the technical address of the party from the drop-down menu.</p> <p>This field is initially blank and not selectable if the party and the relevant network service are not selected.</p> <p>This field contains the list of the Technical Addresses of the selected Party filtered by the selected Network Service (on the basis of the Technical Address Network Services Links).</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DRDW004</li> </ul>
Default Routing	<p>Select whether to filter default routings only from the drop-down menu.</p>

	<p>The default value is 'All'.</p> <p>Reference for error message [▶]:</p> <p>■ DRDW007</p>
--	---------------------------------------------------------------------------------------------

Routing - List	
Status	<p>Shows the status of the Routing.</p> <p>References for error messages [▶]:</p> <p>■ DRDW002</p> <p>■ DRDW044</p>

Default Routing	<p>Shows whether the routing is the default routing for all the services.</p> <p>Reference for error message [▶]:</p> <p>■ DRDW007</p>
Compression flag	<p>Shows the type of compression selected.</p> <p>This field is for T2S and CoCo only.</p>
Sequence	Shows the order in which the routing conditions for the same party are processed.

	<p>Reference for error message [▶]:</p> <p>■ DRDW006</p> <p>This field is for T2S and CoCo only.</p>
Size (lower bound)	<p>Shows the lower bound for file-based or message based network services.</p> <p>This field is for T2S and CoCo only.</p>
Size (upper bound)	<p>Shows the upper bound for file-based or message based network services.</p> <p>This field is for T2S and CoCo only.</p>
Currency	<p>Shows the linked currency code.</p> <p>This field is for T2S and CoCo only.</p>
Message Type	<p>Shows the name of the message related to the linked message type.</p>
Positive	<p>Shows whether the set of conditions represent a positive or negative list.</p> <p>This field is for T2S and CoCo only.</p>

## Buttons

Search	<p>This function enables the user to start a search according to the entered criteria.</p>
Reset	<p>This function enables the user to set default search criteria and blanks out all optional criteria.</p>
New	<p>This function enables the user to create a new Routing.</p>
Edit	<p>This function enables the user to edit the details of the selected Routing.</p> <p>If the status of the selected routing is set to 'Deleted', this function is not available.</p>
Delete	<p>This function enables the user to delete the selected Routing, after confirmation.</p> <p>If the status of the selected routing is already set to 'Deleted', this function is not available.</p> <p>References for error messages [▶]:</p> <p>■ DRDW001</p>

	<ul style="list-style-type: none"> <li>DRDW002</li> <li>DRDW007</li> </ul>
Restore	<p>This function enables the user to restore a previously deleted Routing.</p> <p>If the status of the selected routing is already set to 'Active', this function is not available.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>DRDW001</li> <li>DRDW003</li> <li>DRDW004</li> <li>DRDW005</li> <li>DRDW006</li> <li>DRDW044</li> <li>DRDW015</li> </ul>
Revisions	<p>This function enables the user to access the Display Revisions List screen related to the selected Routing.</p>

#### 2.3.6.4 Routing – New/Edit Screen

##### Context of Usage

This screen contains a number of fields regarding Routing configurations. You can enter new data or edit existing data. Afterwards you can proceed further by clicking on the buttons below. NCBs and CSDs can create Routing configurations acting on behalf of their Participants. Payment Banks, CSD Participant and Ancillary System can create Routing configurations for their own Technical Addresses.

##### Screen Access

- Common >> Network Configuration >> Routing >> New
- Common >> Network Configuration >> Routing >> Search >> Click on the *new* or *edit* button

##### Privileges

To use this screen, the following Privileges are needed [ ]:

- Create Routing
- Update Routing

## Screenshot

The screenshot displays the 'ROUTING NEW' screen. At the top, there is a breadcrumb navigation bar with links: Common, Network Configuration, Routing, and a '+ New' button. The main form area contains the following fields and controls:

- Description:** A text input field.
- Network Service:** A dropdown menu.
- Parent BIC:** A text input field with a 'Choose BIC' button next to it.
- Party BIC:** A text input field with a 'Choose BIC' button next to it.
- Search:** A blue button labeled 'Party' with a magnifying glass icon.
- Technical Address:** A text input field.
- Compression Flag:** A text input field.
- Size (lower bound):** A text input field.
- Currency:** A text input field.
- Positive:** A checkbox.
- Default Routing:** A text input field.
- Sequence:** A text input field.
- Size (upper bound):** A text input field.
- Message Type:** A dropdown menu with 'Choose...' as the selected option.
- Actions:** On the right side, there are three circular buttons: a plus sign (+) labeled 'Submit', a circular arrow (refresh) labeled 'Reset', and an 'X' labeled 'Cancel'.

Illustration 101: Routing – new/edit screen

## Fields Description

Routing	
Routing Identification	<p>Shows the technical identification of the routing.</p> <p>The field is visible only in Edit mode and is read-only.</p>
Description	<p>Enter the description of the routing configuration.</p> <p>This field is mandatory.</p> <p>Required format is: max. 127x characters.</p>
Network Service	<p>Select the name of the network service related to the routing from the drop-down menu.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>  DRCW002</li> <li>  DRCW007</li> <li>  DRCW014</li> <li>  DRCW015</li> <li>  DRUW004</li> <li>  DRUW007</li> <li>  DRUW015</li> <li>  DRUW016</li> </ul> <p>This field is mandatory.</p> <p>In create mode, only Network Services related to TIPS /T2 CLM COMPONENT/T2 RTGS COMPONENT services are shown.</p> <p>In edit mode, only Network Services that refer to the same Service of the existing instance are shown.</p> <p>For T2S night-time settlement related messages, only file-based network services can be selected.</p> <p>Required format is: max. 35x characters.</p>
Parent BIC	<p>Enter or select the parent BIC of the party.</p> <p>The field is properly filled returning from “display party list” after a search.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>  DRCW003</li> <li>  DRCW015</li> <li>  DRUW001</li> </ul> <p>This field is mandatory.</p> <p>Required format is: max. 11x characters.</p>

Party BIC	<p>Enter or select the BIC of the party.</p> <p>The field is properly filled returning from “display party list” after a search.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>■ DRCW003</li> <li>■ DRCW015</li> <li>■ DRUW001</li> </ul> <p>This field is mandatory.</p> <p>Required format is: max. 11x characters.</p>
Technical Address	<p>Select the unique technical address of the party.</p> <p>This field contains the list of the Technical Addresses of the selected Party filtered by the selected Network Service name (on the basis of the Technical Address Network Services Links).</p> <p>This field is empty and not selectable if the party and the relevant network service are not selected.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>■ DRCW004</li> <li>■ DRUW006</li> </ul> <p>This field is mandatory.</p> <p>Required format is: max. 256x characters (UTF-8 except for "&lt;", "&gt;" and "&amp;").</p>
Default Routing	<p>Select whether the routing is the default routing for the service and party.</p> <p>This field is enabled only after the selection of the Network Service.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>■ DRCW006</li> <li>■ DRCW007</li> <li>■ DRCW008</li> <li>■ DRUW007</li> </ul> <p>This field is read-only in edit mode.</p> <p>If the selected Network Service is a T2S one, if this field is selected, the fields “Sequence”, “Size (lower bound)”, “Size (upper bound)”, “Currency”, “Message type” and “Positive” must be empty.</p>

	<p>If the selected Network Service is a TIPS or T2 (RTGS or CLM) one, if this field is selected, the field "Message type" must be empty.</p>
Compression Flag	<p>Select the type of compression selected.</p> <p>The following compression values are admitted:</p> <ul style="list-style-type: none"> <li>■ No Compression</li> <li>■ ZIP Algorithm</li> </ul> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>■ DRCW014</li> <li>■ DRUW016</li> </ul> <p>This field is allowed and mandatory only for T2S and CoCo Network Services.</p>
Sequence	<p>Enter the order number in which the routing conditions for the same party are processed.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>■ DRCW005</li> <li>■ DRCW006</li> <li>■ DRCW008</li> <li>■ DRCW014</li> <li>■ DRUW008</li> <li>■ DRUW016</li> </ul> <p>This field is shown only when the selected Network Service is a T2S or a CoCo one. This field is mandatory if default routing is not selected and, if default routing is selected the field is read only.</p> <p>Required format is: Numeric.</p>
Size (lower bound)	<p>Enter the number format, expressed as dimension in kilobyte, for lower bound size.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>■ DRCW006</li> <li>■ DRCW008</li> <li>■ DRCW013</li> <li>■ DRCW014</li> <li>■ DRUW013</li> <li>■ DRUW014</li> </ul>

	<p><a href="#">  DRUW016</a></p> <p>This field is shown only when the selected Network Service is a T2S or a CoCo one.</p> <p>If default routing is selected, this field is read only.</p> <p>For night-time settlement related messages, this field cannot be used.</p>
Size (upper bound)	<p>Enter the number format, expressed as dimension in kilobyte, for upper bound size.</p> <p>References for error messages [ ]:</p> <p><a href="#">  DRCW006</a></p> <p><a href="#">  DRCW008</a></p> <p><a href="#">  DRCW009</a></p> <p><a href="#">  DRCW013</a></p> <p><a href="#">  DRCW014</a></p> <p><a href="#">  DRUW009</a></p> <p><a href="#">  DRUW013</a></p> <p><a href="#">  DRUW014</a></p> <p><a href="#">  DRUW016</a></p> <p>This field is shown only when the selected Network Service is a T2S or a CoCo one.</p> <p>If default routing is selected, this field is read only.</p> <p>For night-time settlement related messages, this field cannot be used.</p>
Currency	<p>Select the currency from the drop-down menu.</p> <p>References for error messages [ ]:</p> <p><a href="#">  DRCW006</a></p> <p><a href="#">  DRCW008</a></p> <p><a href="#">  DRCW011</a></p> <p><a href="#">  DRCW014</a></p> <p><a href="#">  DRUW011</a></p> <p><a href="#">  DRUW014</a></p> <p><a href="#">  DRUW016</a></p> <p>If 'Default Routing' is selected, this field is read-only.</p> <p>This field shown only when the selected Network Service is a T2S or a CoCo one.</p>

Message Type	<p>Select the linked message type from the drop-down menu<sup>3</sup>.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>  DRCW006</li> <li>  DRCW008</li> <li>  DRCW010</li> <li>  DRCW012</li> <li>  DRUW007</li> <li>  DRUW010</li> <li>  DRUW012</li> <li>  DRUW014</li> </ul> <p>If 'Default Routing' is selected, this field is read-only.</p> <p>This field is disabled until the 'Network Service' field is selected.</p>
Positive	<p>Select whether the set of conditions represent a positive or negative list.</p> <p>References for error messages [ ]:</p> <ul style="list-style-type: none"> <li>  DRCW006</li> <li>  DRCW008</li> <li>  DRCW014</li> <li>  DRUW016</li> </ul> <p>This field is mandatory if default routing is not selected.</p> <p>If default routing is selected, the field is read only.</p> <p>This field is shown only when the selected Network Service is a T2S or a CoCo one.</p>

## Fields

### Description

BIC Directory - Search Criteria	
Status	<p>Select the status of the BIC Directory from the possible values:</p> <ul style="list-style-type: none"> <li>All</li> <li>Active (default value)</li> <li>Deleted</li> </ul>
BIC	<p>Enter the BIC or the first part of the BIC you want to search.</p> <p>Required format is: max. 11 characters.</p>
BIC Type	<p>Select the classification for the BIC Type.</p> <p>The exhaustive list of possible values is as follows:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>Official BIC</li> <li>Internal technical BIC</li> </ul>
BIC Source	<p>Select the source of the BIC from the possible values:</p> <ul style="list-style-type: none"> <li>All (default value)</li> <li>Manual Input</li> <li>Automated Loading</li> </ul>
Valid from from	<p>Enter or pick the lower bound of the search range for the date from which the BIC is valid.</p> <p>Required format is: Date.</p>
Valid from to	<p>Enter or pick the upper bound of the search range for the date from which the BIC is valid.</p> <p>Required format is: Date.</p>
Valid to from	<p>Enter or pick the lower bound of the search range for the date until which the BIC is valid.</p> <p>Required format is: Date.</p>
Valid to to	<p>Enter or pick the upper bound of the search range for the date until which the BIC is valid.</p> <p>Required format is: Date.</p>
Financial Institution Name	<p>Enter the institution name.</p> <p>Required format is: max. 35x characters.</p>
City Name	<p>Enter the name of the city in which the financial institution resides.</p> <p>Required format is: max. 35x characters.</p>

National Sorting Code	Enter the code for the nation in which the financial institution resides.  Required format is: max. 15x characters.
-----------------------	---------------------------------------------------------------------------------------------------------------------------

BIC Directory - List	
Status	Shows the status of the BIC.
BIC	Shows the BIC.
BIC Type	Shows the type of the BIC.
BIC Source	Shows the source of the BIC.
Valid From	Shows the date from which the BIC is valid.
Valid To	Shows the date until which the BIC is valid.
Financial Institution Name	Shows the name of the financial institution.
Branch Information	Shows the branch information of the financial institution.
City Name	Shows the name of the city in which the financial institution resides.
National Sorting Code	Shows the code for the nation in which the financial institution resides.

## Buttons

Search	This function enables the user to start a search according to the criteria entered.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
Revisions	This function enables the user to access the Display Revisions List screen related to the selected BIC.

## 2.3.6.6 Network Services - Search/List Screen

### Context of Usage

This screen allows the authorised users to search for the Network Services.

The Service Operators users can additionally manage the Network Services creating new ones or editing, deleting or restoring existing ones.

The result list is sorted by default by “Network Service”, “Status” and “Network Service Description”.

### Screen Access

**|** *Common >> Network Configuration >> Network Services >> Search*

### Privileges

To use this screen, the following Privileges are needed [▶]:

**|** Network Service List query

### Screenshot

### Fields Description

Network Services - Search Criteria	
Status	<p>Select the status of the Network Services from the possible values:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> All</li> <li><input type="checkbox"/> Active (default value)</li> <li><input type="checkbox"/> Deleted</li> </ul>
Network Service	<p>Enter the name of the network service.</p> <p>Required format is: max. 35 characters</p>
Network Service Description	<p>Enter the name of the network service description.</p> <p>Required format is: max. 350 characters</p>
Technical Service Identification	<p>Enter the information needed to identify and use the network service.</p> <p>Required format is: max. 350 characters</p>
Technical Address Type	<p>Select the Technical Address Type from the possible values:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> All (default value)</li> <li><input type="checkbox"/> BIC</li> <li><input type="checkbox"/> Distinguished Name</li> <li><input type="checkbox"/> IP Address</li> </ul>

Network Services – List	
Status	Shows the status of the network service.
Network Service	Shows the name of the network service.
Network Service Description	Shows the description of the network service.
Technical Service Identification	Shows the information needed to identify and use the network service.
Technical Address Type	Shows the type of technical address specified for the network service.

## Buttons

Search	This function enables the User to start a search according to the entered criteria. The results are displayed in a list on the same screen.
Reset	This function enables the User to set default search criteria and blanks out all optional criteria.
New (Operator only)	This function enables the User to create a new Network Services.
Edit (Operator only)	This function enables the User to edit the selected Network Services.
Delete (Operator only)	<p>This function enables the User to delete the selected Network Services, after confirmation.</p> <p>If the status of the selected Network Services is already set to 'Deleted', this function is not available.</p>
Restore (Operator only)	<p>This function enables the User to restore a previously deleted Network Services.</p> <p>If the status of the selected Network Services is already set to 'Active', this function is not available.</p>
Revisions	This function enables the User to access the Display Revisions List screen related to the selected Network Services.

## 2.3.7 Scheduling

### 2.3.7.1 Closing Days – Search/List Screen

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, you can display a list of Closing Days matching the entered criteria. The search results are displayed in a list which is sorted by the value of the 'Description' column in ascending order (default setting) . After selecting an entry, you can proceed further by clicking on the buttons below.

Event Types – Search Criteria	
Status	Select the status of the Event Type from the possible values: <ul style="list-style-type: none"> <li>All</li> <li>Active (default value)</li> <li>Deleted</li> </ul>

Service	<p>Select the service of the Event Type from the possible values:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> All (default value)</li> <li><input type="checkbox"/> T2 RTGS COMPONENT</li> <li><input type="checkbox"/> T2 CLM COMPONENT</li> <li><input type="checkbox"/> T2S</li> </ul>
Code	<p>Enter the code of the Event Type.</p> <p>Required format is: max. 4x characters.</p>
Description	<p>Enter the description of the Event Type.</p> <p>Required format is: max. 127x characters.</p>
Currency-Specific	<p>Select whether the Event Type can be triggered at different times for different currencies from the possible values:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> All (default value)</li> <li><input type="checkbox"/> Yes</li> <li><input type="checkbox"/> No</li> </ul>
External Visibility	<p>Select whether the Event Type is available for external queries from the possible values:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> All (default value)</li> <li><input type="checkbox"/> Yes</li> <li><input type="checkbox"/> No</li> </ul>

Event Types – List	
Status	Shows the status of the Event Type.
Service	Shows the service for which the Event Type has been created.
Code	Shows the code of the Event Type.
Description	Shows the description of the Event Type.
Currency-Specific	Shows whether the event type can be triggered at different times for different currencies.
External Visibility	Shows whether the event type is available for external queries.

## Buttons

Search	This function enables the user to start a search according to the entered criteria.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
New (Service Operator Only)	This function enables the user to create a new Event Type.
Edit (Service Operator Only)	<p>This function enables the user to edit the details of the selected Event Type.</p> <p>If the status of the selected Event Type is already set to 'Deleted', or it is already closed, this function is not available.</p>
Delete (Service Operator Only)	<p>This function enables the user to delete the selected Event Type, after confirmation.</p> <p>If the status of the selected Event Type is already set to 'Deleted', or it is already closed, this function is not available.</p>
Restore (Service Operator Only)	<p>This function enables the user to restore a previously deleted Event Type.</p> <p>If the status of the selected Event Type is already set to 'Active' this function is not available.</p>
Details	This function enables the user to display the details of the selected Event Type.
Revisions	This function enables the user to display the revisions of the selected Event Type.

### 2.3.7.3 Event Type – Details Screen

#### Context of Usage

This screen displays detailed information on the selected Event Type. You can check the data and proceed further by clicking on the buttons below.

#### Screen Access

**|** *Common >> Scheduling >> Event Types >> Event Types – search/list screen*  
 >> *Click on the search and/or details button*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

**|** Event Type Details query

## Screenshot

Illustration 106: Event Type – details screen

## Fields Description

Event Type	
Status	Shows the status of the Event Type.
Service	Shows the service of the Event Type.
Code	Shows the code of the Event Type.
Description	Shows the description of the Event Type.
Currency-Specific	Shows if the event type can be triggered at different times for different currencies.
External Visibility	Shows if the event type is available for external queries.

Event Type Notification	
Component	Shows the code of the component to be notified of the start or of the end of the event type.
Start Notification	Shows if the component must receive a notification at the beginning of the event type.
End Notification	Shows if the component must receive a notification at the end of the event type.
Response Required	Shows whether other modules receiving the corresponding event should provide a response to the scheduling module when the related processing is completed.

## Buttons

Event Type Category	
Category Type	Shows the category type of the event.
Edit (Service Operator Only)	<p>This function enables the user to edit the details of the selected Event Type.</p> <p>If the status of the selected Event Type is already set to 'Deleted', or it is already closed, this function is not available.</p>

### 2.3.9.3 Invoice Configuration – New/Edit Screen

#### Context of Usage

This screen contains a number of fields regarding Invoice Configurations. The user can enter new data or edit existing data. Afterwards the user can proceed further by clicking on the buttons below.

This screen is available only for National Central Bank Users and European Central Bank users. The New screen has a peculiar behaviour on fields' visibility and activation depending on requestor and configured Parties combination.

#### Screen Access

| *Common >> Billing >> Invoice Configurations >> New*

Common >> Billing >> Invoice Configurations >> Search >> Click on the New or Edit button

## Privileges

To use this screen, the following Privileges are needed [▶]:

- Create Invoice Configuration
- Update Invoice Configuration
- BILL Monitor (ECB Users only)

## Screenshot

Illustration 113: Invoice Configuration – new/edit screen

## Fields Description

### Invoice Configuration

After selecting Service, Parent BIC and Party BIC fields, all other fields in all groups are enabled depending on requestor and configured Party combination.

Service	<p>Select the Service from the possible values:</p> <ul style="list-style-type: none"> <li>TIPS SERVICE</li> <li>T2 RTGS COMPONENT</li> <li>ECMS SERVICE</li> <li>T2S</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DPC7010</li> <li>DPC7015</li> <li>DPC7080</li> </ul> <p>This field is mandatory in create mode.</p> <p>This field is read only in edit mode.</p>
Parent BIC	<p>Enter or select the parent BIC of the party.</p> <p>If the requestor Party is ECB User granted with 'BILL Monitor' privilege , this field is read-only in create mode and contains the BIC of the platform (the Parent BIC of a generic Central Bank).Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DPC7015</li> <li>DPC7020</li> <li>DPC7060</li> <li>DPU7060</li> </ul> <p>This field is read-only in edit mode.</p> <p>Required format is: 11x characters.</p>
Party BIC	<p>Enter or select the BIC of the party.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DPC7015</li> <li>DPC7020</li> <li>DPC7060</li> <li>DPU7060</li> </ul> <p>This field is mandatory in create mode.</p> <p>This field is read-only in edit mode.</p> <p>Required format is: 11x characters.</p>
Consumption Message	<p>Select whether the Party is enabled to receive the consumption message or not. This field is only allowed for System Entity invoices.</p>

	<p>This checkbox is selectable and modifiable only:</p> <ul style="list-style-type: none"> <li>By CB<sup>4</sup> users for their own Invoice Configurations</li> <li>By ECB Users granted with 'BILL Monitor' privilege for their own Invoice Configurations</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DPC7060</li> <li>DPU7060</li> </ul>
Direct Invoicing	<p>Select whether the Party is enabled to manage participant invoices, including the direct sending of invoices to participant and the invoice generation. This field is only allowed for System Entity invoices.</p> <p>This checkbox is selectable and modifiable only by CB Users and ECB Users not granted with 'BILL Monitor' privilege for their own Invoice configuration. Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DPC7060</li> <li>DPU7060</li> </ul>
Tax Exempt	<p>Select whether the Participant is tax exempt. This field is only allowed for Participant invoices.</p> <p>This checkbox is selectable and modifiable only by CB users and ECB Users not granted with 'BILL Monitor' privilege for their Participant Invoice configuration. Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>DPC7060</li> <li>DPU7060</li> </ul>
Amount Threshold	<p>Enter the threshold to be considered for all fee schedules dependent on parameter (value expressed in EUR millions/day). This field is not allowed for ECB Invoice Configuration.</p> <p>This field is used and modifiable only:</p> <ul style="list-style-type: none"> <li>By CB users for their own Invoice Configurations</li> <li>By CB users and ECB Users not granted with 'BILL Monitor' privilege for their Participants' Invoice configuration.</li> </ul> <p>This field is mandatory.</p> <p>Required format is: Amount.</p>
VAT ID	Enter the VAT ID of the Party.

<sup>4</sup> ECB users not granted with 'BILL Monitor' privilege are considered as CB users for their System Entity

	<p>ECB Users granted with 'BILL Monitor' privilege manage their own and CBs'.</p> <p>CB<sup>5</sup> Users manage their own and their Participants' VAT ID.</p> <p>Required format is: max. 35x characters.</p>
Tariff	<p>Select the Tariff that may be associated to the Invoice Configuration.</p> <p>ECB Users granted with 'BILL Monitor' privilege manage their own and CBs' Tariff.</p> <p>CB Users manage the Tariff of their Participants.</p> <p>This field is mandatory when the selected Service is T2 RTGS COMPONENT and:</p> <ul style="list-style-type: none"> <li>■ for NCB Invoice Configuration managed by ECB</li> <li>■ for Participant Invoice Configuration</li> </ul> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DPC7070</li> <li>■ DPU7070</li> <li>■ DPU7080</li> </ul>
Account	<p>Enter or Select the RTGS DCA or the RTGS CB account to charge with Core Pricing Scheme Option B Fixed Fee.</p> <p>This field is active when the selected Service is T2 RTGS COMPONENT and the Tariff is "Option B".</p> <p>Required format is: max. 34x characters.</p> <p>Reference for error message [ ]:</p> <ul style="list-style-type: none"> <li>■ DPC7081</li> <li>■ DPC7082</li> <li>■ DPC7083</li> <li>■ DPU7081</li> <li>■ DPU7082</li> <li>■ DPU7083</li> </ul>

<sup>5</sup> ECB users not granted with 'BILL Monitor' privilege are considered as CB users for their System Entity

Invoice Address	
Street	<p>Enter the Street related to the Address of the Party to be used into the invoice.</p> <p>This field is mandatory.</p> <p>Required format is: max. 70x characters.</p>
House Number	<p>Enter the House Number related to the Address of the Party to be used into the invoice.</p> <p>This field is mandatory.</p> <p>Required format is: max. 16x characters.</p>
Country Code	<p>Select the Country Code related to the Address of the Party to be used into the invoice.</p> <p>This field is mandatory.</p> <p>Required format is: max. 2x characters.</p>
City	<p>Enter the City related to the Address of the Party to be used into the invoice.</p> <p>This field is mandatory.</p> <p>Required format is: max. 35x characters.</p>
Postal Code	<p>Enter the Postal Code related to the Address of the Party to be used into the invoice.</p> <p>This field is mandatory.</p> <p>Required format is: max. 16x characters.</p>
State or Province	<p>Enter the State or Province related to the Address of the Party to be used into the invoice.</p> <p>Required format is: max. 35x characters.</p>
Phone Number	<p>Enter the Phone Number related to the Address of the Party to be used into the invoice.</p> <p>Required format is: Telephone Number.</p>
Fax Number	<p>Enter the Fax Number related to the Address of the Party to be used into the invoice.</p> <p>Required format is: Telephone Number.</p>
Email Address	<p>Enter the Email Address related to the Address of the Party to be used into the invoice.</p>

Required format is: max. 254x characters, SWIFT-x including  
\!#\$%&\*^\_{}~";<>@[]..

Invoice Template	
No VAT	<p>Select whether the template has no reference to VAT for the Participant Invoice. This field is only allowed for Participant Invoices.</p> <p>This checkbox is selectable and modifiable only by CB users for their Participants' Invoice Configurations.</p> <p>Reference for error message [ ]:</p> <p>■ DPC7060</p> <p>■ DPU7060</p>
Statement Legal Mention	<p>Enter the Statement Legal Mention reported in the Invoice.</p> <p>This field is only allowed for System Entity Invoice Configurations.</p> <p>This field is used and modifiable only:</p> <p>■ By ECB users granted with 'BILL Monitor' privilege for their own Invoice Configurations. Reset	This function enables the user to set all fields to default value and blanks out all optional fields.
Cancel	This function enables the user to cancel the process and return to the previous screen.

## 2.3.9.4 VAT – Search/List Screen

### Context of Usage

This screen enables the user to display a list of VAT matching the entered criteria. A VAT is the value added tax rate based on the billable item, service/application and system entity to which the Party to be charged is assigned to.

This screen gives also the possibility to delete and restore a selected VAT.

This screen is not relevant for payment bank users. The items related to “T2 RTGS COMPONENT” are configured as VAT valid for T2 Service.

### Screen Access

**|** *Common >> Billing >> VAT >> Search*

### Privileges

To use this screen, the following Privileges are needed [▶]:

- |** Delete VAT
- |** VAT list query
- |** BILL Monitor (ECB Users only)

### 2.3.10.3 Common Reference Data Revisions - Search/List Screen

#### Context of Usage

This screen contains a number of search fields. By inputting the relevant data, user can search for static data revisions. After selecting an entry, user can proceed further by clicking on the buttons below.

When exporting the content of this screen, user receives the list and the corresponding details for each data record.

#### Screen Access

■ *Common >> Revisions >> Common Reference Data Revisions*

#### Privileges

To use this screen, the following Privileges are needed [▶]:

- Party audit trail query
- Cash Account audit trail query

- Residual Static Data audit trail query
- Securities audit trail query
- Securities account audit trail query

## Screenshot

*Illustration 121: Revisions/Audit Trails – details screen*

## Fields Description

Common Reference Data Revisions – Search Criteria	
Object Type	Select the static data domain related to the audit trail occurrence from the drop-down menu. The default value is 'Blank'.
User Login Name	Enter the login name of the user who made the amendment. No wildcards allowed. Required format is: max. 35x characters.
Date: From	Enter or pick the lower bound of the search range for the date. Required format is: Date.
Date: To	Enter or pick the upper bound of the search range for the date. Required format is: Date.

Common Reference Data Revisions – List	
Object Type	Shows the static data domain related to the audit trail occurrence.
Object	Shows the valid Parent BIC and Party BIC if the object type is set to 'Party'; the valid ISIN if the object type is set to 'Security'; the account number if the object type is set to 'Cash Account', the account number if the object type is set to 'Securities Account' or the account reference if the object type is set to 'External RTGS account'.  Shows the technical identification of the object if none of the previous object types are selected.
User Login Name	Shows the user who made the amendment.
Date and Time	Shows the date and time of the change.

Approval Type	Shows the type of approval.
Baseline number	Shows the identification of a set of coherent versions of instances within a 'Major-Minor' group.
Revision number	Shows the identification of the revision.

## Buttons

Search	This function enables the user to start a search according to the entered criteria.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.
Details	This function enables the user to display the list of revisions for the selected static data object.

## 2.4 T2

### 2.4.1 Cash

#### 2.4.1.1 Account Monitoring Group – Search/List Screen

##### Context of Usage

This screen enables the user to display a list of Account Monitoring Groups matching the entered criteria. The search results will be displayed in a list, which is sorted by the values of the 'Group Name' column in ascending order (default setting). After selecting an entry, you can proceed further by clicking on the buttons below.

The users can see and update any of the Account Monitoring Groups but are allowed to delete or restore only the ones whose Leader Party is under their data scope.

##### Screen Access

■ T2 >> Cash >> Account Monitoring Group >> Search

##### Privileges

To use this screen, the following Privileges are needed [▶]:

- Account Monitoring Group list query
- Delete Account Monitoring Group

## 2.4.2.4 Ancillary System Bilateral Agreement – Search/List Screen

### Context of Usage

This screen allows the authorised users to search for the Ancillary System Bilateral Agreements set from and towards Ancillary Systems under connected user's datascope.

This screen gives also the possibility to Service Operator and CB users to edit, delete and restore a selected Ancillary System Bilateral Agreement.

Finally, it is possible to create a new Ancillary System Bilateral Agreement.

This screen can be accessed by Central Bank and Ancillary System users.

The result list is displayed sorted by default by "Status, "Initiator Parent BIC", "Initiator Party BIC".

### Screen Access

| T2 >> Party >> Ancillary System Bilateral Agreement >> Search

### Privileges

To use this screen, the following Privileges are needed [▶]:

- | AS Bilateral Agreement list query
- | Delete AS Bilateral Agreement

### Screenshot

## Fields Description

Ancillary System Procedures - Search Criteria	
Parent BIC	Shows the Parent BIC of the Ancillary System. This search field is prefixed and read-only: it contains the Party BIC of the Central Bank the connected user belongs to. Required format is: max. 11x characters.
Party BIC	Enter or select the Party BIC of the Ancillary System. Required format is: max. 11x characters.
Procedure A Flag	Select whether the search shall return the Ancillary Systems linked to the A Procedure.
Procedure B Flag	Select whether the search shall return the Ancillary Systems linked to the B Procedure.
Procedure C Flag	Select whether the search shall return the Ancillary Systems linked to the C Procedure.

Procedure D Flag	Select whether the search shall return the Ancillary Systems linked to the D Procedure.
Procedure E Flag	Select whether the search shall return the Ancillary Systems linked to the E Procedure.
Situation At	<p>Enter or pick the date the Ancillary System Procedures to be searched must be valid in or use the calendar icon. This field is mandatory.</p> <p>By adding a procedure flag together with this field, all the AS with the correspondent AS Procedure not set up in the date chosen with this field are discarded from the search.</p> <p>Required format is: Date.</p>

Ancillary System Procedures – List	
Parent BIC	Shows the Parent BIC of the Ancillary System.
Party BIC	Shows the Party BIC of the Ancillary System.
Procedure A	Shows whether the A Procedure is configured for the referred Ancillary System or not.
Procedure B	Shows whether the B Procedure is configured for the referred Ancillary System or not.
Procedure C	Shows whether the C Procedure is configured for the referred Ancillary System or not.
Procedure D	Shows whether the D Procedure is configured for the referred Ancillary System or not.
Procedure E	Shows whether the E Procedure is configured for the referred Ancillary System or not.

## Buttons

Search	This function enables the user to start a search according to the entered criteria. The results are displayed in a list on the same screen.
Reset	This function enables the user to set default search criteria and blanks out all optional criteria.

Manage	This function enables the user to create, update, delete or restore the Ancillary System Procedures of the selected Ancillary System.
Details	This function enables the user to read the Ancillary System Procedures details of the selected Ancillary System.
Revisions	This function enables the user to access the Display Revisions List screen related to the selected Ancillary System Procedures.

### 2.4.2.7 Ancillary System Procedure – Details Screen

**Context of Usage** This screen displays detailed information on Ancillary System Procedures of the selected Ancillary System Party. The user can check the data and proceed further by clicking on the buttons below.

**Screen Access** | T2 >> Party >> Ancillary System Procedures >> Search/List screen >> Click on the *Details* button

**Privileges** To use this screen, the following Privileges are needed [▶]:  
| AS Procedures reference data query

#### Screenshot

Illustration 141: Ancillary System Procedures – details screen

#### Fields Description

Ancillary System Procedures	
Parent BIC	Shows the Parent BIC of the Ancillary System.
Party BIC	Shows the Party BIC of the Ancillary System.

Ancillary System Procedure – List	
Status	Shows the status of the Ancillary System Procedure.

Procedure	Shows the Ancillary System Settlement Procedure (A, B, C, D, E) configured for the Ancillary System Party.
Ancillary System Technical Account	Shows the Ancillary System Technical Account specified for the Settlement Procedure.
Ancillary System Guarantee Funds Account	Shows the Ancillary System Guarantee Funds Account specified for the Settlement Procedure.
Valid From	Shows the starting validity date for the Ancillary System Procedure.
Valid To	Shows the ending validity date for the Ancillary System Procedure.
Single/Global Notification	Shows whether the Ancillary System opted for Single or Global Notification.

## Buttons

Manage	This function enables the user to create, update, delete or restore the Ancillary System Procedures of the Ancillary System selected.
Revisions	This function enables the user to display the revisions list of an Ancillary System Procedure selected from the list.

### 2.4.2.8 Ancillary System Procedures – New/Edit Screen

#### Context of Usage

This screen contains a number of fields regarding Ancillary System Procedures of the selected Ancillary System Party. You can enter new data, edit/delete existing ones and restore deleted ones. Afterwards you can proceed further by clicking on the buttons below.

Only Central Bank users can access this screen via search/list or details screens, in both cases by clicking on Manage button.

The list is displayed sorted by default by “Status”, “Settlement Procedure”.

#### Screen Access

■ T2 >> Party >> Ancillary System Procedures >> Search/List screen >> Click on the *Manage* button

| T2 >> Party >> Ancillary System Procedures >> Details screen >> Click on the Manage button

Old Full	This function enables the user to download the Full version of the previous RTGS Directory.
Old Update	This function enables the user to download the Delta version of the previous RTGS Directory.

## 3 User Instructions Part

### 3.1 General

The user instructions part comprises scenarios adapted from typical user workflows. They are grouped into related activities, called business packages, which are further grouped into categories.

Furthermore, you can find business scenarios dedicated only to the Service operator are highlighted by the adding 'Service operator only' in the title.

#### Categories

The categories are a structural element and do not contain any information.

#### Business Packages

The business packages define an overall task. They include an overview and a list of the business scenarios. In detail, each business package description has the same structure and contains the following elements.

#### Overview

The overview describes the aim and the background of the business package. It also explains the interrelation of the business scenarios.

#### List of Business Scenarios

This section contains a list of all business scenarios belonging to the business package.

The list is unordered if the business scenarios represent alternative ways to achieve the aim of the business package. It is ordered if the business scenarios have to be carried out sequentially. Sequential business scenarios do not necessarily have to be carried out directly after each other. The sequence only implies that one business scenario is a prerequisite for the following ones.

#### Business Scenarios

Each business scenario represents a single workflow and consists of single action steps, intermediate results and a final result. In detail, each business scenario description has the same structure and contains the following elements.

#### Context of Usage

The context of usage describes the aim of the business scenario and indicates whether this business scenario is mandatory or optional in order to fulfil the overall business package. It also contains the usage restrictions and the prerequisites (excluding the privileges), if available.

**Privileges** In this section, all the necessary privileges to access and use the involved screens are listed. First the privileges to access the first screen are mentioned, followed by the privileges necessary to proceed with the business scenario. Afterwards, the privileges for the following screens are mentioned in the same order.

**Reference** This section lists all references to the screens involved, in order of their appearance in the business scenario.

**Instructions** Each workflow is described from the start to the end, beginning with the access to the starting screen. The instructions involve a number of separate steps which lead you through a series of screens and actions. Each action step is focused on 1 single action. Intermediate results are included and the instructions end with a final result. Possible alternatives and repetitions are highlighted with a notice sign.

#### **Example**

1. *Action step 1*
2. *Action step 2*
- ⇒ *Intermediate result*
3. *Action step 3*
- ➔ *Result*

## **3.2 Digital Signature**

### **3.2.1 Digital Signature (NRO)**

**Overview** This business section describes in a general way the interaction of the actors with the Digital Signature.

Application of a Digital Signature is applicable for the following GUI screens when performing the listed actions:

Digital Signature	
Cash Account - New/Edit screen	Submit
Standing Order For Reservation – Details screen	Delete
	Restore
Standing Order For Reservation - New/Edit screen	Submit
Standing Order For Reservation - Search/List screen	Delete
	Restore
Standing/Predefined Liquidity Transfer Order – Details screen	Delete
	Restore
Standing/Predefined Liquidity Transfer Order - New/Edit screen	Submit
Standing/Predefined Liquidity Transfer Order - Search/List screen	Delete
	Restore
Data Changes – Details screen	Submit
Grant/Revoked Privileges - Selection criteria screen	Grant
	Revoke
Grant/Revoke Role - New/Edit screen	Grant
	Revoke
Grant/Revoke System Privilege - New/Edit screen	Grant
	Revoke
Restriction Type - Search/List screen	Delete
	Restore
Restriction Type - New/Edit screen	Submit
Role - Search/List screen	Delete
	Restore
Role - New/Edit screen	Submit
User - Details screen	Delete
	Restore
User - New/Edit screen	Submit
User - Select/List screen	Delete

	<ul style="list-style-type: none"> <li>Restore</li> </ul>
User-Certificate DN Link - Select/List screen	<ul style="list-style-type: none"> <li>Delete</li> <li>Restore</li> </ul>
User-Certificate DN Link - New/Edit screen	<ul style="list-style-type: none"> <li>Submit</li> </ul>

## Business Scenario

The actor that is performing a business scenario linked to the screens and the buttons listed above must consider these steps as part of the specific business scenario.

1. Select the needed item or input the desired values, then click on the action button (Submit, Delete, Restore, Grant, Revoke).
  2. User selects the signing certificate to sign from the drop down list. If the digital identity is not linked to the logged user then the "OK" button is not enabled, and the following error is displayed: "The selected certificate is not linked to the logged user". If the digital identity is linked to the logged user then the "OK" button is enabled.
  3. Once clicked the "OK" button, user is requested to insert the PIN associated with the digital identity, insert the PIN and click the OK button.
- ⇒ The action initiated by the actor is concluded and the request is digitally signed.

## 3.3 Access Rights

### 3.3.1 Configuration of a Role

#### Overview

This business package describes the configuration of a role.

To configure a role, you first have to select a role and then to assign privileges or other roles to the selected role.

Afterwards you can assign the new role to a user or to a party.

To configure a role, carry out the business scenarios in the predefined order and choose the business scenario relevant to you whenever options are given.

#### Business Scenario

In the GUI all mandatory fields are marked with a red line in the label. All marked fields have to be filled in before you are allowed to proceed. The red line is turned into green when the field contains a value or is selected.

- Create a new Role [▶]
- Grant Privileges to a Role [▶]
- Grant System and Object Privileges to a Role [▶]
- Assign a role to a party [▶]

Assign a role to a user [▶]

### 3.3.1.1 Create a new Role

#### Context of Usage

This business scenario describes how to create a new role.

A role is a set of privileges, which can be granted to users and parties. You can create a new role for your participant and for yourself.

Creating a new role is mandatory for configuration of a role.

This business scenario is not relevant for CSD participants, payment bank and ancillary system users.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Role list query
- Create Role

#### Reference

Further information on screens involved can be found in the screen reference part:

- Roles – search screen [▶]
- Role – new/edit screen [▶]

#### Instructions

1. Go to the *Roles – search/list* screen:  
Common >> Access Rights Management >> Roles
2. Click on the new button.  
⇒ The *Role – new* screen is displayed.

3. Enter all mandatory information about the role you want to create.

#### Alternatives

To set all fields to default value and blank out all optional fields, click on the *reset* button.

To cancel the process and return to the previous screen, click on the *cancel* button.

4. Click the *submit* button.

➔ The new Role has been created.

### 3.3.1.2 Grant Privileges to a Role

#### Context of Usage

This business scenario describes how to grant a system privilege to a role. Before you start, make sure that you have already been granted the same privilege and that the role belongs to your system entity.

This business scenario is not relevant for CSD participant, payment bank and ancillary system users.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Grant Privilege
- Grant System Privileges List Query

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Grant/revoke privileges – search* screen [▶]
- *Grant/revoke system privileges – new/edit* screen [▶]

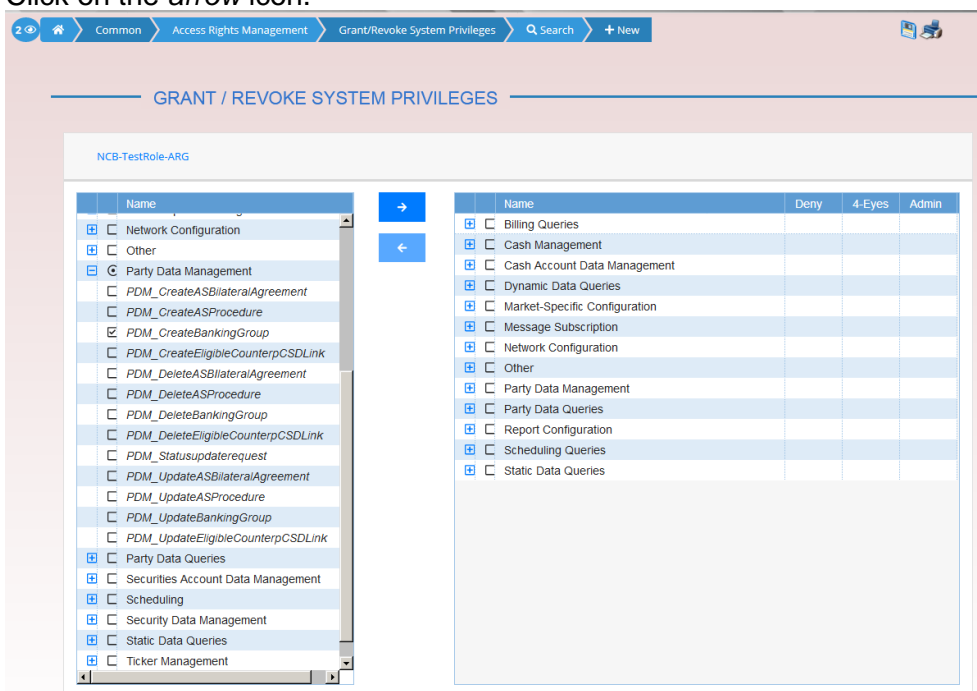

#### Instructions

1. Go to the *grant/revoke privileges – search* screen:  
Common >> Access Rights Management >> Grant/Revoke Privileges
2. Select “Role name” and choose the name of the relevant Role from the drop-down menu.

3. Click on the search button.

- ⇒ The *grant/revoke system privilege – new/edit* screen is displayed.
- 4. Search the relevant category in the 'Privileges' frame, open it by clicking the expand group icon and select the relevant privilege.
- ⇒ If the privilege has been already granted to the role, you can finish the business scenario with this step.
- ⇒ If the privilege has not been granted to the role, proceed with the next step.
- 5. Select the privilege(s) you want to grant to the Role.
- 6. Click on the *arrow* icon.

- ➔ The privilege has been granted to the role.

### Repetition

To grant more privileges to the role, repeat step 4 and 5 or select all the privileges you want to grant before clicking the *arrow* icon.

### 3.3.1.3 Grant System and Object Privileges to a Role

#### Context of Usage

This business scenario describes how to grant a system or an object privilege to a role.

You can grant a privilege to a role on a single object and on a group of objects (secured group).

Before you start, make sure that you have already been granted the same privilege and that the role belongs to your system entity.

This business scenario is not relevant for CSD participant and payment bank users.

## Privileges

To carry out this business scenario, you need the following privileges:

- Grant privilege
- Granted System Privileges List Query

## Reference

Further information on screens involved can be found in the screen reference part:

- *Grant/revoke privileges – search* screen [▶]
- *Grant/revoke system privilege – new/edit* screen [▶]
- *Grant/revoke object privilege – new/edit* screen [▶]

## Instructions

1. Go to the *grant/revoke privileges – search* screen:  
Common >> Access Rights Management >> Grant/Revoke System Privileges
2. Select “Role name” and choose the name of the relevant Role from the drop-down menu.

3. Click on the search button.  
⇒ The *grant/revoke system privilege – new/edit* screen is displayed.

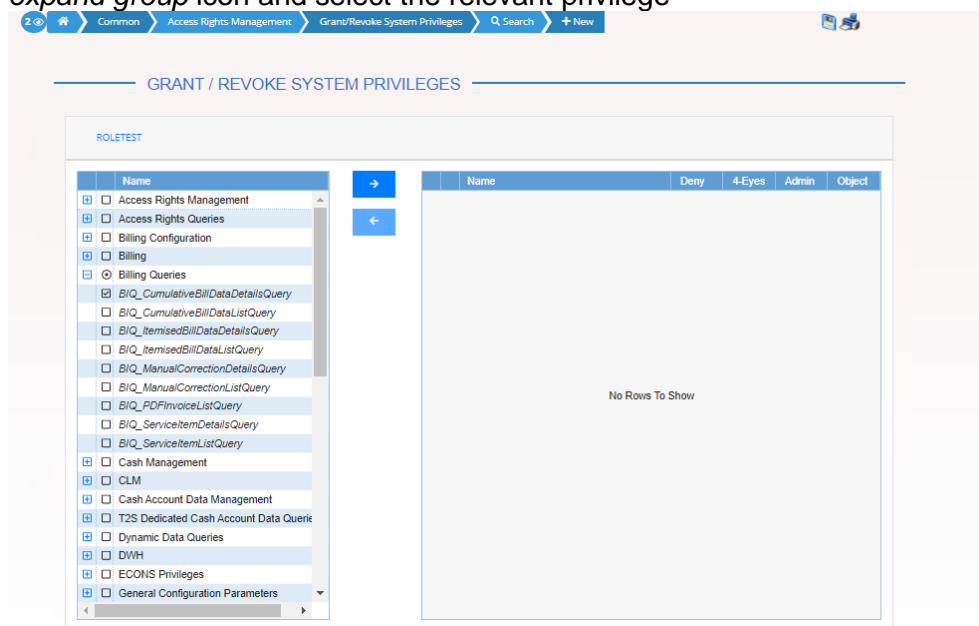

## ! Notice

To grant a system privilege to a role check if the role has already been granted with the relevant system privilege.

If the system privilege has already been granted to the role, proceed with step 8.

If the system privilege has not yet been granted to the role, proceed with the next step.

4. Search the relevant category in the 'Privileges' frame, open it by clicking the *expand group* icon and select the relevant privilege

5. Click on the right arrow icon

⇒ The input additional data prompt is displayed.

6. Select one or more of the available options in the prompt.

## Notice

### Deny

The option specifies whether the associated user function is allowed or explicitly denied: if it is set to 'true', the relevant function cannot be used.

### 4-Eyes

If set to 'true', a confirmation is needed in order to trigger the specific privilege.

The option is only relevant when 'Deny' is set to 'false'.

It is not relevant for privileges related to queries.

### Administration

If set to 'true', it enables administrative rights on such privilege. More precisely if the grantee of the privilege is a user or a role, it allows to grant the same privilege to another user or role of the same party. If the grantee is a party, this option specifies whether the party administrators of the grantee party are allowed to grant the same privilege also to other parties.

## Alternatives

To cancel the process and return to the previous screen, click on the *cancel* button.

### 7. Click on the ok button

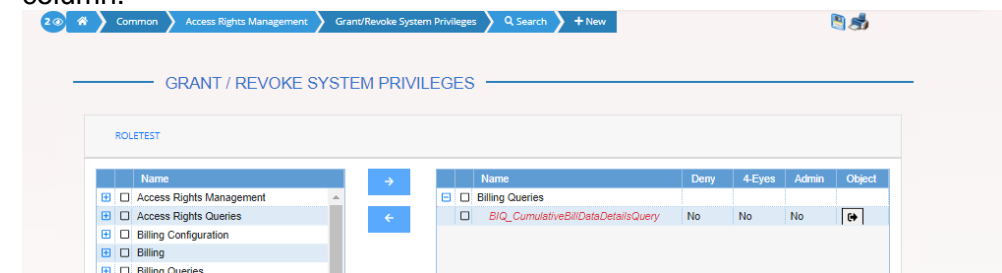

⇒ The system privilege has been granted to the role.

## Repetition

To grant more system privileges to the role, repeat steps 4 to 7 or select all the privileges you want to grant before clicking the *grant* icon.

### 9. To grant an object privilege to a role, click on the *arrow icon* in the 'Object' column.

⇒ The *grant/revoke object privileges – new/edit* screen is displayed

10. Select the single static data object or the secured group the privilege has to be granted to and enter all mandatory information in the 'Object Privileges' frame

11. Click on the add and submit button.

### Repetition

To add more object privileges, repeat steps 9 and 10.

11. Enter your PIN for digital signature purposes (NRO).

➡ The object privilege has been granted to the user.

### 3.3.1.4 Assign a Role to a Party

#### Context of Usage

This business scenario describes how to assign a role to a party. A role is a homogenous group of privileges. To grant a role to a party, you must own that role. You can grant a role to a party not belonging to your system entity only if you are the party administrator of the party that owns the role. This business scenario is not relevant for CSD participant, payment bank and ancillary system users.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Role list query
- Grant/revoke role

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Grant/revoke privileges – search screen* [▶]

## Grant/revoke role – new/edit screen [▶]

### Instructions

1. Go to the *grant/revoke roles – search* screen:  
Common >> Access Rights Management >> Grant/Revoke Roles
2. Select the parent BIC and the BIC of the party you would like to assign the role to

3. Click on the *search* button.
  - ⇒ The *grant/revoke roles – new/edit* screen is displayed.
4. Check if the party has been already granted to the relevant roles in the left column.
  - ⇒ If the party has been already granted to the role, you can finish the business scenario with this step.
  - ⇒ If the party has not been granted to the role, proceed with the next step.
5. Select the role(s) you want to grant to the party in the 'Roles' frame.

6. Click on the *arrow* icon.

The screenshot shows the 'GRANT/REVOKE ROLES' interface. At the top, there's a breadcrumb trail: Common > Access Rights Management > Grant/Revoke Roles. Below this, a subframe shows 'Party TC50TCS0XXX - NCBXARRRXXX'. The main area contains two tables. The left table, titled 'Roles', lists various roles with checkboxes. 'NCB2-Test Role-ARG' is checked. The right table, titled 'Current Granted Roles', shows 'NCB-TestRole-ARG'. A blue arrow icon is positioned between the two tables, indicating the action to grant the role.

➔ The role has been granted to the party.

### Repetition

To grant more roles to the party, repeat step 4 and 5 or select all the roles you want to grant before clicking the *arrow* icon.

### 3.3.1.5 Assign a Role to a User

#### Context of Usage

This business scenario describes how to assign a role to a user. A role is a homogenous group of privileges. To grant a role to a user, you must own that role. You can only grant a role to a user that belongs to your system entity.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Role list query
- Grant/revoke Role

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Grant/revoke roles – search* screen [▶]
- *Grant/revoke role – new/edit* screen [▶]

#### Instructions

1. Go to the *grant/revoke roles – search* screen:  
Common >> Access Rights Management >> Grant/Revoke Roles
2. Enter the login name of the relevant party in the 'User' subframe.

3. Click on the *search* button.

⇒ The *grant/revoke role – new/edit* screen is displayed.

4. Check if the user has been already granted to the relevant roles in the left column.

⇒ If the user has been already granted to the role, you can finish the business scenario with this step.

⇒ If the user has not been granted to the role, proceed with the next step.

5. Select the role(s) you want to grant to the user in the 'Roles' frame.

6. Click on the *arrow* icon.

Roles	Current Granted Roles
<input type="checkbox"/> NCB-AT(8) Role 1	<input type="checkbox"/> Advanced Access rights admin
<input type="checkbox"/> NCB-TestRole-ARGE	<input type="checkbox"/> NCB-TestRole-ARG
<input checked="" type="checkbox"/> NCB2-Test Role-ARG	<input type="checkbox"/> Party Administrator
<input type="checkbox"/> NCB3-Test Role-ARG	
<input type="checkbox"/> NUBGROLE	
<input type="checkbox"/> National Service Desk (NCB)	
<input type="checkbox"/> NoCo-ARM-Role	
<input type="checkbox"/> OT-CRDM-2E	
<input type="checkbox"/> OT-CRDM-4E	
<input type="checkbox"/> OT-ESMIG-Access-Role	
<input type="checkbox"/> OT-TIPS-2E	
<input type="checkbox"/> OT-TIPS-4E	
<input type="checkbox"/> PB Advanced Access Rights Admin	
<input type="checkbox"/> PR CMR Manager	

➔ The role has been granted to the user.

### Repetition

To grant more roles to the user, repeat step 4 and 5 or select all the roles you want to grant before clicking the *arrow* icon.

## 3.3.2 Configuration of a Privilege (Two-Step Approach)

### Overview

This business package describes the configuration of a privilege. A privilege identifies the capability of triggering one or several user functions and it is the basic element to assign access rights to users. Each privilege, just after its creation, is only available to the party administrators of the Service Operator. The privilege becomes available to an administrator of a party different from the Service Operator only after this privilege has been granted to this party. From this moment on, the party administrator can grant this privilege. This is the so called two-step approach.

A privilege can be granted to a party, a role or to another user, respecting the order imposed by the two-step approach:

1° step:

The user of the superior hierarchical party (Service operator/CSD or CB users) grants all the relevant privileges to the inferior hierarchical party (CSD or CB/CSD participant, payment bank or Ancillary System);

The user of the superior hierarchical party (Service operator/CSD or CB users) grants the following privileges to the party administrator users of the inferior hierarchical party (CSD or CB/CSD participant or payment bank):

- Administer party
- Grant privilege
- Grant/revoke role
- Granted system privileges list query
- Granted object privileges list query
- Granted roles list query
- CRDM Access

2° step:

From now on the party administrator user can manage the access rights for all the other users belonging to that party and to its participants.

### Business Scenarios

To configure a privilege, carry out the following business scenarios in the predefined order.

- Grant a privilege to a party [▶]

- [Grant a privilege to a user \[▶\]](#)
- [View privilege details \[▶\]](#)

### 3.3.2.1 Grant a Privilege to a Party

#### Context of Usage

This business scenario describes how to grant a system or an object privilege to a party.

You can grant a privilege to a party on a single object and on a group of objects (secured group).

CSDs and central bank users can grant a privilege to a party at intra system entity level and at cross system entity level. This last action can be performed only if you are a party administrator of a central bank or CSD. CSD Participant, External CSD and Payment Bank party administrators can grant privileges at cross party level to other parties within their system entity.

Before you start, in intra system entity case make sure that you have already been granted with the same privilege. In cross system/cross party entity case you have to perform this check at your party level.

#### Privileges

To carry out this business scenario, you need the following privileges:

- [Grant privilege](#)
- [Granted system privileges list query](#)
- [Granted object privileges list query](#)

#### Reference

Further information on screens involved can be found in the screen reference parts:

- [Grant/revoke privileges – search screen \[▶\]](#)
- [Grant/revoke system privilege – new/edit screen \[▶\]](#)
- [Grant/revoke object privilege – new/edit screen \[▶\]](#)

#### Instructions

1. Go to the *grant/revoke privileges – search* screen:  
Common >> Access Rights Management >> Grant/Revoke Privileges
  2. Select 'Party' in the 'Search Criteria – Privileges' frame and: a) In an intra-system entity case: enter or select the BIC of the party you would like to grant the privilege to from the drop-down menu. b) In a cross system entity/cross party case: enter the parent BIC and BIC of the party you would like to grant the privilege to.
  3. Click on the search button.
- ⇒ The *grant/revoke system privilege – new/edit* screen is displayed.

## Notice

You can grant a system privilege to a party only at intra system level. In this case check if the party has already been granted with the relevant system privilege.

If the system privilege has already been granted to the party, proceed with step 8.

If the system privilege has not yet been granted to the party, proceed with the next step.

4. Search the relevant category in the 'Privileges' frame. Open it by clicking the expand group icon and select the relevant privilege.

5. Click on the right arrow icon.

⇒ The input additional data prompt is displayed

6. Select one or more of the available options in the prompt.

## Notice

### Deny

The option specifies whether the associated user function is allowed or explicitly denied: if it is set to 'true', the relevant function cannot be used.

### 4-Eyes

If set to 'true', a confirmation is needed in order to trigger the specific privilege.

The option is only relevant when 'Deny' is set to 'false'.

It is not relevant for privileges related to queries.

### Administration

If set to 'true', it enables administrative rights on such privilege. More precisely if the grantee of the privilege is a user or a role, it allows to grant the same privilege to another user or role of the same party. If the grantee is a party, this option specifies whether the party administrators of the grantee party are allowed to grant the same privilege also to other parties.

## Alternatives

To cancel the process and return to the previous screen, click on the cancel button.

7. Click on the ok button.

⇒ The system privilege has been granted to the party .

## Repetition

To grant more system privileges to the role, repeat steps 4 to 7 or select all the privileges you want to grant before clicking the *grant* icon.

8. If you want to grant an object privilege to a party,
- In a cross system entity/cross party case: check if the grantee party has already been granted with the privilege as a system privilege using the search fields 'Privilege Category' and 'Privilege Name' in the 'Party' frame and clicking on the check button. The grant/revoke cross-system entity object privilege - new/edit screen is displayed.

9. b) In an intra-system entity case: click on the arrow icon in the 'Object' column.

	Name	Deny	4-Eyes	Admin	Object
	<input type="checkbox"/> Access Rights Management				
	<input type="checkbox"/> Billing Configuration

➡ The object privilege has been granted to the party.

### 3.3.2.2 Grant Privilege to a User

#### Context of Usage

This business scenario describes how to grant a system or an object privilege to a user.

You can grant a privilege to a user at object level and at system level.

You can grant an object privilege to a user on a single object or on a group of objects (secured group).

Before you start, make sure that you have already been granted the same privilege and that the user belongs to your system entity.

It is possible for CSD and CB Party administrator to assign the following privileges to the party administrator of a party belonging to its default data scope:

- Administer party
- Grant privilege
- Grant/revoke role
- Granted system privileges list query
- Granted object privileges list query
- Granted roles list query
- CRDM Access

#### Privileges

To carry out this business scenario, you need the following privileges:

- Grant privilege
- Granted system privileges list query
- Granted object privileges list query

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Grant/revoke privileges – search* screen [▶]
- *Grant/revoke system privilege – new/edit* screen [▶]
- *Grant/revoke object privilege – new/edit* screen [▶]

#### Instructions

1. Go to the *grant/revoke system privileges – search* screen:  
Common >> Access Rights Management >> Grant/Revoke System Privileges
2. Select 'User' and select the login name of the user (CB or CSD) you would like to grant

3. Click on the search button.

⇒ The *grant/revoke system privilege – new/edit* screen is displayed.

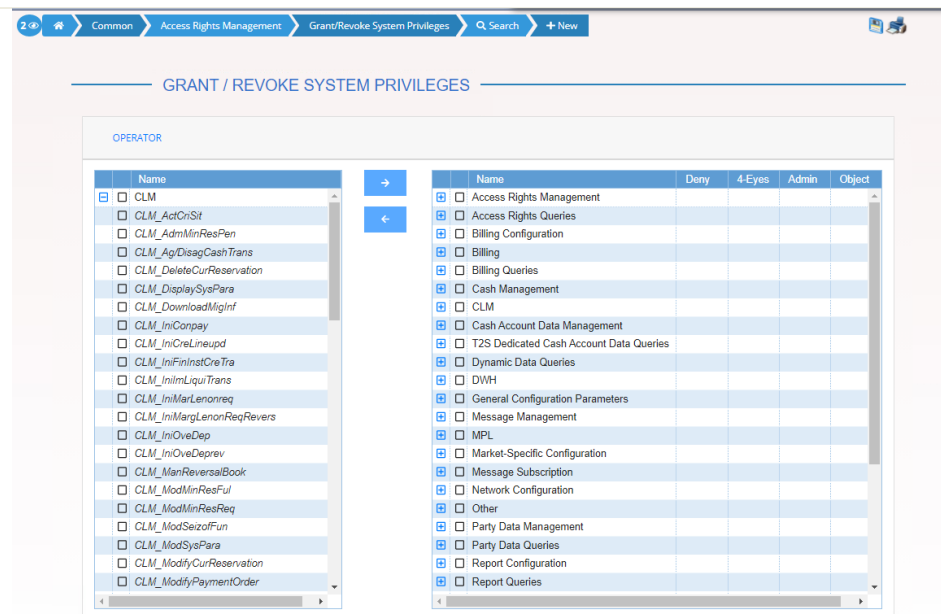

### Notice

To grant a system privilege to a user check if the user has already been granted with the relevant system privilege.

If the system privilege has already been granted to the user, proceed with step 8.

If the system privilege has not yet been granted to the user, proceed with the next step.

4. Search the relevant category in the 'Privileges' frame. Open it by clicking the *expand group* icon and select the relevant privilege.

5. Click on the grant icon.

⇒ The input additional data prompt is displayed.

- ➔ The object privilege has been granted to the user.

### 3.3.2.3 View Privilege Details

#### Context of Usage

A system privilege identifies the capability of triggering or several user functions without the necessity to specify on which object to be applied. An object privilege identifies the capability of triggering user functions on a given object. Each user of a CSD or a central bank can see only the privileges granted to its own CSD or central bank. Each user of a CSD participant or central bank participants can see only privileges granted to them by the relevant CSD or central bank.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Privilege query

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Privileges – search/list* screen [ » ]

#### Instructions

1. Go to to the *privileges – search/list* screen:  
Common >> Access Rights Management >> Privileges >> Search
2. Select the status and/or the privilege type from the respective select boxes for the privileges you want to view details.
3. Enter all the search criteria known to you about the privileges for which you want to view the details.

4. Click on the search button.  
⇒ A list containing the search results is displayed on the screen.
5. Check the detailed information about the privilege you want to view in the privileges list.  
➔ You have viewed the details of a privilege.

### 3.3.3 Configuration of a Secured Group

#### Overview

This business package describes the configuration of secured groups, which are set of secured objects of the same type

You can grant object privileges for secured groups to roles, users and parties.

To configure a secured group, carry out the following business scenarios in the predefined order

#### Business Scenario

- Create a new secured group [▶]
- Assign a secured object to a secured group [▶]

#### 3.3.3.1 Create a New Secured Group

##### Context of Usage

This business scenario describes how to create a secured group.

A secured group is a set of secured objects of the same type. All the reference data objects of the group have to belong to your data scope.

During and after its creation, the secured group can be assigned to one or many secured objects, provided that they are the same type as the secured group. Secured objects previously assigned to a secured group can also be removed from the same secured group.

This business scenario is not relevant for CSD participant and payment bank users.

Creating a new secured group is mandatory for the configuration of a secured group.

##### Privileges

To carry out this business scenario, you need the following privileges:

- Create secured group
- Secured group list query

##### Reference

Further information on screens involved can be found in the screen reference part:

- *Secured groups – search/list* screen [▶]
- *Secured groups – new/edit* screen [▶]

##### Instructions

1. Go to the *Secured groups – search/list* screen:  
Common >> Access Rights Management >> Secured Groups
2. Click on the new button  
⇒ The *secured group – new* screen is displayed
3. Enter all mandatory information about the secured group you want to create.  
Note that the frame “Secured Object” requires different information according to what you select on “Security Group Type” field under the “Secured Group frame”.

### Alternatives

To set all fields to default value and blank out all optional fields, click on the reset button.

To cancel the process and return to the previous screen, click on the cancel button.

4. Click on the *submit* button.

➔ The new secured group has been created.

### 3.3.3.2 Assign a Secured Object to a Secured Group

#### Context of Usage

This business scenario describes how to assign a secured object to a secured group. A secured group is a homogenous group of secured objects.

To create a new secured group you have to define the type of secured objects that can be assigned to it.

After you have created a new secured group, you can assign or remove other secured objects from it.

You can grant object privileges on a secured group to roles, users and parties.

This business scenario is not relevant for Ancillary System, CSD participant, external CSD or payment bank users.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Update secured group
- Secured group list query
- Secured group list query

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Secured groups – search/list* screen [▶]
- *Secured groups – details* screen [▶]
- *Secured groups – new/edit* screen [▶]

#### Instructions

1. Go to the Secured groups – search/list screen:  
Common >> Access Rights Management >> Secured Groups
2. Enter all the search criteria known to you about the secured group you want to edit
3. Click on the search button  
⇒ A list containing the search results is displayed on the screen

- ⇒ If the search retrieves a single secured group, the secured group – details screen is displayed directly. Proceed with step 6.
- 4. Select the relevant secured group by clicking on an entry in the list
- 5. Click on the *details* button
  - ⇒ The *secured group – details* screen is displayed
- 6. Click on the edit button
  - ⇒ The secured group – edit screen is displayed
- 7. To assign a secured object to the secured group, enter the relevant information in the “Parent BIC” and the “Party BIC” fields in the “Parties subframe

- 8. Click on the *add row* icon
- 9. Click on the submit changes icon
  - ⇒ A new secured object has been added to the list

### Repetition

Repeat steps 7 and 8 to add more technical secured objects.

You can add up to 10 secured objects.

### Alternatives

To set all fields to default value and blank out all optional fields, click on the reset button.

To cancel the process and return to the previous screen, click on the cancel button.

- 10. Click on the *submit* button.
  - ➔ The new secured group has been created.

### 3.3.4 Configuration of a User

#### Overview

This business package describes the configuration of a user. A user is a reference data object that allows an individual or an application to interact with the shared services. The functions that can be triggered depend on the privileges granted to the user. It is possible to grant roles to the new user after its creation. To configure a user, carry out the following business scenarios in the predefined order.

#### Business Scenario

- Create a new user [▶]
- Create a new user certificate distinguished name link [▶]
- Grant a Privilege to a User [▶]
- Assign a role to a user [▶]

#### 3.3.4.1 Create a New User

##### Context of Usage

This business scenario describes how to create a new user. A user is a reference data object that allows an individual or an application to interact with one or many Eurosystem Market Infrastructure services. The functions that can be triggered within each service depend on the privileges granted to the user.

The user is mainly defined by the 'Login Name' and 'System User Reference' that must be unique in the system. All the users are linked to a specific party and can be created by another authorised user. There is no usage restriction for this business scenario.

##### Privileges

To carry out this business scenario, you need the following privileges:

- System user query
- Create User

##### Reference

Further information on screens involved can be found in the screen reference part:

- *Users – search/list* screen [▶]
- *User – new/edit* screen [▶]

##### Instructions

1. Go to the *users – new/edit* screen:  
Common >> Access Rights Management >> Users >> New  
⇒ The *user – new* screen is displayed.

## 2. Enter all mandatory information in the 'User' frame.

### Alternatives

To set all fields to default value and blank out all optional fields, click on the *reset* button.

To cancel the process and return to the previous screen, click on the *cancel* button.

## 3. Click on the *submit* button.

➡ The new user has been created.

### 3.3.4.2 Create a New Certificate Distinguished Name

#### Context of Usage

This business scenario describes how to create a new user certificate distinguished name.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Certificate query
- Create certificate distinguish name

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Certificate distinguished names – search/list* screen [▶]
- *Certificate distinguished name – new/edit* screen [▶]

#### Instructions

1. Go to the *certificate distinguished name – new/edit* screen:  
Common >> Access Rights Management >> Certificate Distinguished Name >> New  
➡ The *certificate distinguished name– new* screen is displayed.
2. Enter all mandatory information in the 'Certificate Distinguished Name' field.

### Alternative

To set default criteria and blank out all optional fields, click on the *reset* button.  
To cancel the process and return to the previous screen, click on the *cancel* button.

3. Click on the *submit* button.

➔ The new certificate distinguished name has been created.

### 3.3.4.3 Create a New User Certificate Distinguished Name Link

#### Context of Usage

This business scenario describes how to create a new user certificate distinguished name link.

You need to create a link between a certificate distinguished name and a user login name in order to allow your users or applications to access to the system via the interface.

Before you start please check if a certificate distinguished name has been available and if a link between the selected user and the certificate distinguished name has been already created.

You can link more than one certificate to a single login name and one certificate to more than one user.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Create user certificate distinguish name link
- Query user certificate distinguish name link
- System user link query

#### Reference

Further information on screens involved can be found in the screen reference part:

- *User certificate distinguished name links – search/list* screen [▶]
- *User certificate distinguished name link – new/edit* screen [▶]

- Instructions**
1. Go to the *user certificate distinguished name links – new/edit* screen:  
Common >> Access Rights Management >> User Certificate Distinguished Name Links >> New

⇒ The *user certificate distinguished name link – new* screen is displayed.

2. Enter all mandatory information in the 'User Certificate Distinguished Name Links' frame.

### Alternatives

To set default criteria and blank out all optional fields, click on the *reset* button.  
To cancel the process and return to the previous screen, click on the *cancel* button.

3. Click on the *submit* button.

⇒ The new user certificate distinguished name link has been created.

### 3.3.4.4 Grant Privilege to a User

#### Context of Usage

This business scenario describes how to grant a system or an object privilege to a user.

You can grant a privilege to a user at object level and at system level.

You can grant an object privilege to a user on a single object or on a group of objects (secured group).

Before you start, make sure that you have already been granted the same privilege and that the user belongs to your system entity.

It is possible for CSD and CB Party administrator to assign the following privileges to the party administrator of a party belonging to its default data scope:

- Administer party
- Grant privilege
- Grant/revoke role
- Granted system privileges list query

- | Granted object privileges list query
- | Granted roles list query
- | CRDM Access

## Privileges

To carry out this business scenario, you need the following privileges:

- | Grant privilege
- | Granted system privileges list query
- | Granted object privileges list query

## Reference

Further information on screens involved can be found in the screen reference part:

- | *Grant/revoke privileges – search screen* [▶]
- | *Grant/revoke system privilege – new/edit screen* [▶]
- | *Grant/revoke object privilege – new/edit screen* [▶]

## Instructions

1. Go to the *grant/revoke system privileges – search* screen:  
Common >> Access Rights Management >> Grant/Revoke System Privileges
2. Select 'User' and select the login name of the user (CB or CSD) you would like to grant

3. Click on the search button.
- ⇒ The *grant/revoke system privilege – new/edit* screen is displayed.

## Notice

To grant a system privilege to a user check if the user has already been granted with the relevant system privilege.

If the system privilege has already been granted to the user, proceed with step 8.

If the system privilege has not yet been granted to the user, proceed with the next step.

4. Search the relevant category in the 'Privileges' frame. Open it by clicking the *expand group* icon and select the relevant privilege.

5. Click on the grant icon.

⇒ The input additional data prompt is displayed.

Additional Data

Deny Option: ☐ 4-Eyes Option: ☐ Administration Option: ☐

Cancel Submit

6. Select one or more of the available options in the prompt.

## Notice

### Deny

The option specifies whether the associated user function is allowed or explicitly denied: if it is set to 'true', the relevant function cannot be used.

### 4-Eyes

If set to 'true', a confirmation is needed in order to trigger the specific privilege.

The option is only relevant when 'Deny' is set to 'false'.

It is not relevant for privileges related to queries.

## Administration

If set to 'true', it enables administrative rights on such privilege. More precisely if the grantee of the privilege is a user or a role, it allows to grant the same privilege to another user or role of the same party. If the grantee is a party, this option specifies whether the party administrators of the grantee party are allowed to grant the same privilege also to other parties.

## Alternatives

To cancel the process and return to the previous screen, click on the *cancel* button.

7. Click on the ok button.

⇒ The system privilege has been granted to the user.

## Repetition

To grant more system privileges to the user, repeat steps 4 to 7 or select all the privileges you want to grant before clicking the *grant* icon.

8. To grant an object privilege to a user, click on the *arrow* icon in the 'Object' column

	Name	Deny	4-Eyes	Admin	Object

10. Click on the add and submit button

➔ The object privilege has been granted to the user.

### Repetition

To add more object privileges, repeat steps 9 and 10.

### 3.3.4.5 Assign a Role to a User

#### Context of Usage

This business scenario describes how to assign a role to a user. A role is a homogenous group of privileges. To grant a role to a user, you must own that role. You can only grant a role to a user that belongs to your system entity.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Role list query
- Grant/revoke Role

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Grant/revoke roles – search* screen [▶]
- *Grant/revoke role – new/edit* screen [▶]

#### Instructions

1. Go to the *grant/revoke roles – search* screen:  
Common >> Access Rights Management >> Grant/Revoke Roles
2. Enter the login name of the relevant party in the 'User' subframe.

3. Click on the *search* button.

⇒ The *grant/revoke role – new/edit* screen is displayed.

4. Check if the user has been already granted to the relevant roles in the left column.

⇒ If the user has been already granted to the role, you can finish the business scenario with this step.

⇒ If the user has not been granted to the role, proceed with the next step.

5. Select the role(s) you want to grant to the user in the 'Roles' frame.

6. Click on the *arrow* icon.

➔ The role has been granted to the user.

### Repetition

To grant more roles to the user, repeat step 4 and 5 or select all the roles you want to grant before clicking the *arrow* icon.

## 3.3.5 Usage of the 4-Eyes Mode

### Overview

This business package describes the usage of the 4-eyes mode. The use of the 2-eyes or the 4-eyes mode depends on your access rights configuration.

### Business Scenario

To use the CRDM in 4-eyes mode, carry out the following business scenarios in the predefined order:

- Initiate an action in 4-eyes mode [▶]
- Approve an action in 4-eyes mode [▶]

### 3.3.5.1 Initiate an Action in 4-Eyes Mode

#### Context of Usage

This Business scenario describes how to initiate an action via an enter (new/edit) screen, which has to be approved by a second user. Whether your actions in CRDM (new/edit/delete) have to be approved by a second user depends on your access right configuration. Initiating an action in 4-eyes mode is mandatory for the usage of the 4-eyes mode.

#### Privileges

To carry out this business scenario, you need the relevant privilege of the item to be approved/revoked.

#### Reference

Further information on screens involved can be found in the screen reference part (see business scenario or screen description of the underlying action).

#### Instructions

1. Go to the relevant *edit* or *new* screen.
2. Enter all mandatory information in the *enter* screen on which you want to initiate an action or delete a request by clicking on the *delete* button.
3. Click on the *submit* button:
  - ⇒ A success message is displayed on the screen indicating that the request was sent in 4-eyes mode and showing the 4-eyes principle ID assigned by CRDM.
  - ⇒ You have initiated an action carrying the 'Awaiting approval' status.

### 3.3.5.2 Approve an Action in 4-Eyes Mode

#### Context of Usage

This Business scenario describes how to approve an action, which has been initiated by a different user in 4-eyes mode. The use of 2-eyes or 4-eyes mode depends on your access rights configuration.

Approving an action is mandatory for the usage of the 4-eyes mode.

Before you start, the action has to be initiated by a different user.

#### Privileges

To carry out this business scenario, you need the relevant privilege of the item to be approved/revoked in addition to the following privileges:

- Data changes of a business object list query.
- Data changes of a business object details query.

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Data changes – search/list* screen [►]
- *Data Change – details* screen [►]

#### Instructions

1. Go to the *Data changes – search/list* screen.
2. Enter the search criteria known to you (e.g. user reference of the change) about the action waiting for your approval. Ask the first user for the 4-eyes principle ID submitted in the success message to identify the action easily.
3. In the *status* field, select the status 'Awaiting approval'.
4. Click on the *search* button:
  - ⇒ The search results are displayed in a list on the same screen.
  - ⇒ If the search retrieves only one data change waiting for your approval, the *data change – details* screen is displayed directly. Proceed with step 7.
5. Select the action you would like to approve by clicking on an entry in the list.
6. Click on the *details* button:
  - ⇒ The data change – details screen is displayed.
7. Check the data. If everything is correct, click on the *approve* button.
  - ➔ The action has been approved and is submitted for execution. The *data changes – search/list* screen is displayed with the updated result of the previously selected criteria.

## 3.4 Rule Sets

### 3.4.1 Configuration of a New Message Subscription Rule Set

#### Overview

This business package describes how to configure a new message subscription rule set.

You can only create a new message subscription rule set, if you have the relevant privilege. You can configure the specific set of messages (or copies of messages) you want to receive for yourself and for your directly connected parties based on a set of rules.

Each Actor can have many active rule sets at any given point in time. Each rule set can include many rules. Each rule can include many groups of parameters. The maximum overall number of groups of parameters for the active rule sets is 1,500. Each rule can include many parameters. Within each rule, each parameter can be linked to many distinct values. The maximum overall number of distinct values for the active rule sets is 50.

#### Business Scenario

To configure a new message subscription rule set, carry out the following business scenario:

- Create a new message subscription rule set [►]

### 3.4.2 Create a New Message Subscription Rule Set

#### Context of Usage

This Business scenario describes how to create new message subscription rule sets, which are used by the CRDM application for each outgoing message. These rules determine to which interested party or parties the given message has to be sent or copied.

Creating a new message subscription rule set is mandatory for the creation of a new message subscription rule set.

The creation of a message subscription rule set can be performed by all parties owning the relevant privilege.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Create message subscription rule set
- Message subscription rule set list query
- Message subscription rule list query
- Create message subscription rule

## Reference

Further information on screens involved can be found in the screen reference part:

- [Message subscription rule sets – search/list screen \[►\]](#)
- [Message subscription rule set – new/edit screen \[►\]](#)
- [Message Subscription rule – new/edit screen \[►\]](#)

## Instructions

1. Go to the *message subscription rule sets – new/edit* screen:  
Common >> Messages and Reports >> Message Subscription Rule Set >> New  
  
⇒ The *message subscription rule set – new* screen is displayed.
2. Enter all mandatory information about the rule set you want to create in the 'Message Subscription Rule Set' and 'Interested Parties' frames.

3. Click on the *submit* button.  
⇒ The new message subscription rule set has been created without any rule attached.
4. Go to the message subscription rule sets – search/list screen:  
Common >> Messages and Reports >> Message Subscription Rule Set >> Search
5. Enter all search criteria known to you about the message subscription rule set you have just created.

MESSAGE SUBSCRIPTION RULE SET LIST

Status: Active

Service: All

Valid From: from yyyy-mm-dd

Valid To: to yyyy-mm-dd

Positive/Negative Parameter Set: All

Interested Party: Party BIC: Choose BIC

Search Reset + New

6. Click on the *search* button.

⇒ A list containing the search results is displayed on the screen.

7. Select the message subscription rule set you just created by clicking on an entry in the list.

8. Click on the *details* button.

⇒ The *message subscription rule set – details* screen is displayed.

9. Click on the *Add Rule* button.

Enter all mandatory information about the rule you want to create in the 'Message Subscription Rules' frame.

Predicate

Choose... Choose...

Cancel Ok

10. Click on the *Ok* icon.

11. Click on the *submit* button. At least one rule should be present in the rule set.

➔ The new message subscription rule has been created.

## 3.5 Liquidity Transfer

### 3.5.1 Creation of a New Standing/Predefined Liquidity Transfer Order

#### Overview

This business package describes the configuration of a standing/predefined liquidity transfer order.

A predefined or standing liquidity transfer order is a liquidity transfer from a debited account to a credited account for a future execution, triggered by a business even, a precise point in time or an AS Procedure.

## Business Scenario

To configure a standing/predefined liquidity transfer order, carry out the following business scenarios in the predefined order:

- 1 Create a new standing/predefined liquidity transfer order [▶]

### 3.5.1.1 Create a New Standing/Predefined Liquidity Transfer Order

#### Context of Usage

This business scenario describes how to create a new standing or predefined liquidity transfer order that is a liquidity transfer from a debited account to a credited account for a future execution. It is triggered by a business event, a precise point in time or an AS Procedure.

Before you start to create a new liquidity transfer order, verify that the account to be debited and the account to be credited exist. The amount to be transferred via each predefined liquidity transfer order and standing liquidity transfer order can either be a specified amount, a dedicated amount or all cash.

Only one predefined liquidity transfer order can be defined to be executed at the same timestamp and/or business event for each debited account.

This business scenario is not relevant for CSD and CSD participant users.

#### Privileges

To carry out this business scenario, you need the following privileges:

- 1 Liquidity transfer order list query
- 1 Create liquidity transfer order

#### Reference

Further information on screens involved can be found in the screen reference parts:

- 1 Standing/predefined liquidity transfer orders – search/list screen [▶]
- 1 Standing/predefined liquidity transfer order – new/edit screen [▶]

#### Instructions

1. Go to the liquidity transfer orders – search/list screen:  
*Common >> Cash >> Standing/Predefined Liquidity Transfer Order >> Search*
2. Click on the *new* button  
⇒ The *standing/predefined liquidity transfer order – new* screen is displayed.
3. Enter all mandatory information about the standing/predefined liquidity transfer order you want to create.

### Alternatives

To set all fields to default value and blank out all optional fields, click on the *reset* button.

To cancel the process and return to the previous screen, click on the *cancel* button.

4. Click on the *submit* button.

➔ The new standing/predefined liquidity transfer order has been created.

## 3.6 Party Management

### 3.6.1 Administration of Participants

#### Overview

This business package describes all activities a CSD or CB can perform for the administration of its participants during their lifecycle. The administration of participants has the aim of making sure that all parties are registered in CRDM and that their reference data are always up to date.

After the initial creation of participants, a party administrator has to edit the previously entered reference data whenever a change takes place. The Central Bank party administrator can also decide to close a party, imposing a new closing date. If a party ceases to exist, the party administrator has to delete it in CRDM.

#### Business Scenario

To administer your participants, carry out the following business scenarios in the predefined order:

- Create a new participant [▶]
- Edit an existing participant [▶]
- Delete an existing participant [▶]

- [Create a Party Service Link \[▶\]](#)
- [Create a Distinguished Name-BIC Routing configuration \[▶\]](#)

### 3.6.1.1 Create a New Participant

#### Context of Usage

This business scenario describes how to create a new participant. Each CSD is responsible for the creation of the party reference data for their CSD participants and for other CSDs that are external to CRDM, whereas each NCB is responsible for the creation of the party reference data for their payment banks or ancillary systems.

Creating a new participant is mandatory for the administration of participants. It is optional for the configuration for a for intra-CSD settlement, for the configuration for a central bank, for the configuration for central bank collateralisation and for the configuration for client collateralisation.

Before you start, check whether the participant has not already been created by someone else. Also, make sure that the party BIC you want to use for the new participant has been created in the BIC directory. Finally you have to check if a mandatory market-specific attribute is required.

#### Privileges

To carry out this business scenario, you need the following privileges:

- [Party list query](#)
- [Create Party](#)

#### Reference

Further information on screens involved can be found in the screen reference part:

- [Parties – search/list screen \[▶\]](#)
- [Party – new/edit screen \[▶\]](#)

#### Instructions

1. Go to the *Party – new/edit* screen:  
Common >> Parties >> Parties >> New  
⇒ The *party – new* screen is displayed.
2. Enter all mandatory information, also in the 'Codes', 'Name', 'Addresses', and 'Auto-Collateralisation Rules' frames.  
If the party type is 'CSD participant', the 'Address' frame is not available.  
The 'Auto-Collateralisation Rule' frame is only available for the 'Payment Bank' party type.

3. To add a technical address, market-specific attribute or restriction, enter all mandatory information in the 'Technical Addresses', 'Market-Specific Attributes' and 'Restrictions' frames. At least one technical address has to be defined.
4. Click on the *add row* icon
  - ⇒ A new technical address, market-specific attribute or restriction has been added to the list.

### Repetition

You can add up to 10 technical addresses, market-specific attributes or restrictions.

### Alternatives

To set all fields to default value and blank out all optional fields, click on the *reset* button.

To cancel the process and return to the previous screen, click on the *cancel* button.

5. Click on the submit button.
  - ➔ The new participant has been created.

### 3.6.1.2 Edit an Existing Participant

#### Context of Usage

This business scenario describes how to edit the reference data of an existing participant. Each national central bank or CSD is responsible for maintaining the reference data for their payment banks, ancillary systems or CSD participant.

Editing an existing participant is optional for the administration of participants.

If you want to close a party, verify that all the reference data of all objects linked to that party have a closing date equal to or earlier than the party closing date or have been deleted.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Party list query
- Party reference data query
- Update Party

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Parties – search/list* screen [►]
- *Party – details* screen [►]
- *Party – new/edit* screen [►]

#### Instructions

1. Go to the *parties – search/list* screen:

Common >> Parties >> Parties >> Search

2. Enter all search criteria known to you about the party you want to edit.
3. Click on the *search* button.
  - ⇒ A list containing the search results is displayed on the screen.
  - ⇒ If the search retrieves a single party, the *party – details* screen is displayed directly. Proceed with step 6.
4. Select the relevant party from the search results by clicking on an entry in the list.

5. Click on the *details* button.

⇒ The *party – details* screen is displayed.

6. Click on the *edit* button.

⇒ The *party – edit* screen is displayed.

7. To add or change current values in the 'Party' or other frames, enter the new values in the respective fields.

14. Click on the *delete row* icon.
  - ⇒ The data of the technical address has been deleted from the list.

### Repetition

Repeat steps 11 and 12 to add more technical addresses.

Repeat steps 13 to delete more technical addresses.

You can add or delete up to 10 technical addresses.

### Alternatives

To set all fields to default value and blank out all optional fields, click on the *reset* button.

To cancel the process and return to the previous screen, click on the *cancel* button.

15. Click on the *submit* button.

➡ The edited party reference data are stored.

## 3.6.1.3 Delete an Existing Participant

### Context of Usage

Each central bank or CSD is responsible for maintaining the reference data for their payment banks, ancillary systems or CSD participant. If a party ceases to exist, the party administrator has to delete it in CRDM.

Deleting an existing participant is an optional step for the administration of participants.

Before you delete a participant, check the opening and closing date of the participant. A participant can only be deleted if the closing date has passed or if the opening date has not yet been reached (future opening date). If the closing date is equal to the current date, you have to wait for the new business day to delete the participant. In addition, make sure that all the linked instances in a higher position within the deletion hierarchy (i.e. Cash account) have been deleted.

### Privileges

To carry out this business scenario, you need the following privileges:

- Party list query
- Party reference data query
- Delete party

### Reference

Further information on the involved screens can be found in the screen reference part:

■ *Parties – search/list* screen [▶]

■ *Party – details* screen [▶]

## Instructions

1. Go to the *parties – search/list* screen:  
Common >> Parties >> Parties >> Search
2. Enter all search criteria known to you about the party you want to delete.
3. Click on the *search* button.  
⇒ A list containing the search results is displayed on the screen.  
⇒ If the search retrieves a single party, the *party – details* screen is displayed directly. Proceed with step 6.
4. Select the relevant party from the search results by clicking on an entry in the list.
5. Click on the *details* button.  
⇒ The *party – details* screen is displayed.
6. Click on the *delete* button if the opening date is not reached and/or the closing date is later than the current date.  
⇒ A confirmation prompt is displayed.

7. Click on yes if you really want to delete the party reference data.  
➔ The party reference data are deleted.

### 3.6.1.4 Create a Party Service Link

#### Context of Usage

This section describes how to create a Party Service Link, which can be done only by NCB users. This screen is meant to link a party to a service, depending on the user business case. It must be noticed that, in order to insert a party as Leading CLM Account Holder, it's necessary that this party is referenced in an already existing and active Party Service Link as account holder. Therefore, in order to have a Party Service Link configured with a Leading CLM Account Holder, it's necessary:

- first to create a Party Service Link for the Party, with Minimum Reserve Obligation first set to "no";
- then to modify the Party Service Link inserting the party itself as Leading CLM Account.

## Privileges

To carry out this business scenario, you need the following privilege:

- Create Party Service Link

## Reference

Further information on the involved screens can be found in the screen reference part:

- [Party Service Link – new/edit screen](#) [►]

## Instructions

1. Go to *Party Service Link – new/edit* screen:  
Common >> Parties >> *Party Service Link* >> New  
⇒ The *Party Service Link – new* screen is displayed.
2. Enter all mandatory information. In the following example, it was set T2 CLM COMPONENT as for *Service* and CLM Account Holder as for *Party Type for service*.

3. Click on the *submit* button.

➔ The new Party Service Link has been created.

### 3.6.1.5 Create a Distinguished Name-BIC Routing configuration

#### Context of Usage

Each participant is responsible for maintaining the reference data for their DN-BIC routing links. For Inbound communication, different DNs can be linked to different BICs and vice versa. In the outbound case, the same BIC can only be linked to a single DN. However different BICs can still be linked to the same DN.

#### Privileges

To carry out this business scenario, you need the following privilege:

■ Create DN-BIC Routing

#### Reference

Further information on the involved screens can be found in the screen reference part:

■ *Distinguished Name-BIC routing – search/list* screen [▶]

■ *Distinguished Name-BIC routing – new/edit* screen [▶]

#### Instructions

1. Go to *Distinguished Name-BIC routing – search/list* screen:  
Common >> Network Configuration >> *Distinguished Name-BIC routing* >> New  
➔ The *Distinguished Name-BIC routing – new* screen is displayed.
2. Enter all mandatory information.
3. Click on the *submit* button.  
➔ The new *Distinguished Name-BIC routing* has been created.

## 3.7 Reports

### 3.7.1 Report Management

#### Overview

This business package describes the monitoring of reports.

You can configure a report on a certain scope of data and receive it at a certain time of the business day. On the base of your data scope you can decide whether the report is also sent to other direct connected parties.

To monitor reports, carry out the following business scenarios in the predefined order:

#### Business Scenarios

- Create a new report configuration [▶]
- View available reports [▶]

### 3.7.1.1 Create a New Report Configuration

#### Context of Usage

This business scenario describes how to create a new report to receive specific information about dynamic or reference data through a predefined report. Each report is periodically created.

You can check the created report via the CRDM graphical user interface.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Report configuration list query
- Create report configuration

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Report configuration – search/list* screen [►]
- *Report configuration – new/edit* screen [►]

#### Instructions

1. Go to the *report configuration – new/edit* screen:  
Common >> Messages and Reports >> Report Configurations >> New  
⇒ The *report configuration – new* screen is displayed.
2. Enter all mandatory information about the report configuration you want to create.

3. Enter all mandatory information about the addressee of the report in the 'Party Links' frame.

4. Click on the *add row* icon.  
⇒ The report configuration party link has been added.
5. Click on the *submit* button.  
➔ A new report configuration has been created.

### 3.7.1.2 View Available Reports

#### Context of Usage

This business scenario describes how to view available reports.

CRDM offers the possibility to show previously created reports using the GUI. The precondition for the creation of a report is a valid report configuration which has to be set up in static data in advance. Within this set up it can be specified, if a report should be stored and send out immediately or if a report should only be stored for a possible later retrieval. In both cases the report can afterwards be queried and displayed using the GUI. The precondition for querying the report is granting the user with the appropriate privilege.

Accessing the screens does not trigger a new query.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Report list query
- Report details query

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Available reports – search/list* screen [▶]
- *Available report – details* screen [▶]

#### Instructions

1. Go to the available reports – search/list screen:  
Common >> Services >> Available Reports

2. Enter the search criteria known to you (e.g. report type, delta mode, date etc.) about the report you want to view.

### Alternative

To set all fields to default value and blank out all optional fields, click on the *reset* button.

3. Click on the *search* button.
  - ⇒ The *available reports – list* screen is displayed.
  - ⇒ If the search retrieves only one available report, the *available report – details* screen is displayed directly.
4. Select the report for which you want to view the details by clicking on an entry in the list.
5. Click on the *details* button.
  - ⇒ The *available report – details* screen is displayed.
6. Select the business item on which your report shall be based.
7. Click on the *details* button.
  - ➡ The *available report – [report type] - details* screen is displayed.

## 3.8 Revisions

### 3.8.1 Monitoring of Revisions

#### Overview

This business package describes the monitoring of revisions. It enables you to view the historical status and historical data of a dataset in order to monitor revisions.

#### Business Scenario

To monitor revisions, carry out the following business scenario:

- View revisions [▶]

#### 3.8.1.1 View Revisions

#### Context of Usage

This business scenario describes how to view the historical status of a dataset and the history of attribute values, the identification of the user who created/edited/deleted the dataset as well as the timestamp when this action happened, since every creation/modification/deletion of a dataset is stored within CRDM

In case of the 4-eyes mode any action of the first and confirming user including the timestamp is displayed. Viewing revisions is mandatory for the monitoring of revisions.

## Privileges

To carry out this business scenario, you need (depending on the underlying object) the following privileges:

- Amendment instruction for intra-balance movement audit trail list query
- Amendment instruction for intra-position movement or settlement instruction audit trail list query
- Cancellation instruction for intra-balance movement audit trail list query
- Cancellation instruction intra-position movement or settlement instruction audit trail list query
- Immediate liquidity transfer order audit trail list query
- Intra-balance movement audit trail list query
- Intra-position movement audit trail list query
- Party audit trail query
- Residual static data audit trail query
- Securities audit trail query
- Securities account audit trail query
- Settlement instruction audit trail privilege
- T2S dedicated cash account audit trail query

## Reference

Further information on screens involved can be found in the screen reference part:

- *Revisions/audit trail – list* screen [▶]
- *Revisions/audit trail – details* screen [▶]
- *Common reference data revisions – search/list* screen [▶]

## Instructions

1. Go to the relevant *search/list* or *details* screen.
2. Click on the *revisions* button.

### Alternative

1. Go to the *Common reference data revisions – search/list* screen:  
Common reference data >> Revisions >> Common Reference Data Revisions
2. Click on the *details* button.

➔ The *revisions/audit trail – list* screen is displayed.

3. Select the item you want to view by clicking on an entry in the list.

4. Click on the *details* button.
  - ⇒ The *revisions/audit trail – details* screen is displayed.
  - ➔ You have viewed the revisions related to the selected object.

## 3.9 Account Management

### 3.9.1 Administration of Cash Accounts

#### 3.9.1.1 Create a New Cash Account

##### Context of Usage

This business scenario describes how to create a new cash account. Each central bank is responsible for opening cash accounts for itself and its Payment Banks or Ancillary Systems , in order to settle the cash leg of any settlement instruction or Instant Payment transactions.

You have to link each of your cash accounts to a specific settlement currency. This business scenario is mandatory for the administration of cash accounts, for the configuration for a central bank and for the configuration for central bank collateralisation. This business scenario is not relevant for CSD, CSD participant or external CSD users.

##### Privileges

To carry out this business scenario, you need the following privileges:

- Create cash account
- Cash account list query

##### Reference

Further information on screens involved can be found in the screen reference part:

- *Cash Account – search/list* screen [▶]
- *Cash Account – new/edit* screen [▶]

##### Instructions

1. Go to the *cash accounts – search/list* screen:  
Common >> Cash >> Cash Accounts >> New  
⇒ The *cash account – new* screen is displayed.
2. Enter all mandatory information in the 'Cash Account' frame.

3. Enter all mandatory information in the available fields of the “Restrictions” frame.
  4. Click on the *submit* button.
- ➔ The new cash account has been created.

### 3.9.1.2 Edit an Existing Cash Account

#### Context of Usage

This business scenario describes how to edit an existing cash account. Each NCB is responsible to maintain the reference data for the cash account of their participants, which means Payment Banks and Ancillary Systems, since this business scenario is not relevant for them.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Cash account list query
- Update cash account
- Delete cash account

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Cash Account – search/list* screen [▶]
- *Cash Account – new/edit* screen [▶]
- *Cash Account – details* screen [▶]

#### Instructions

1. Go to the *cash accounts – search/list* screen:  
Common >> Cash >> Cash Accounts >> Search
2. Enter the search criteria known to you about the cash account you want to edit.
3. Click on the *search* button.

- ⇒ A list containing the search results is displayed on the screen.
- ⇒ If the search retrieves a single cash account, the *cash account – details* screen is displayed directly. Proceed with step 5.
- 4. Select the relevant cash account by clicking on an entry in the list.
- 5. Click on the *edit* button.
- ⇒ The *cash account – edit screen* is displayed.

- 6. To add or edit current values of the cash account reference data, enter all mandatory information in the “cash account” frame.
- 7. To add a field in a subtable click on the related icon “
- 8. Enter all mandatory information in the available fields in the frame.
- 9. Click on the *add row* button.
- 10. To edit a field in a subtable, select the relevant entry from the list by clicking on it.
- 11. Click on the *copy row* icon
- 12. Update the data.
- 13. Click on the *add row* button.
- ⇒ The *data* has been changed in the list.
- 14. To delete an entry in a subtable, select the relevant entry from the list.
- 15. Click on the *delete row* button.

⇒ The row has been deleted from the list.

16. Click on the *submit* button.

➔ The edited cash account reference data is stored.

### 3.9.1.3 Delete an Existing Cash Account

#### Context of Usage

This business scenario describes how to delete an existing cash account. Each NCB is responsible to delete the cash account of their participants. Deleting an existing cash account is an optional step in the administration of a cash account.

The request to delete a cash account must refer to an existing and active cash account. Before you delete the cash account, check the opening and closing day: a cash account can be deleted if the closing date is earlier than or equal to the current business date or if the opening date is earlier than the current business date. In case of the deletion of a future RTGS dedicated transit account, check that no active cash account with the same currency exists. This business scenario is not relevant for Payment Bank, Ancillary System, CSD and CSD Participant users.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Cash account list query
- Cash account reference data query
- Delete cash account

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Cash Account – search/list* screen [▶]
- *Cash Account – details* screen [▶]

#### Instructions

1. Go to the *cash accounts – search/list* screen:  
Common >> Cash >> Cash Accounts >> Search
2. Enter the search criteria known to you about the cash account you want to delete.
3. Click on the *search* button.
  - ⇒ A list containing the search results is displayed on the screen.
  - ⇒ If the search retrieves a single cash account, the *cash account – details* screen is displayed directly. Proceed with step 6.
4. Select the relevant cash account by clicking on an entry in the list.
5. Click on the *details* button.
  - ⇒ The *cash account – details* screen is displayed.

6. Click on the *delete* button if the opening date is not reached and/or the closing date is equal or greater than the current date.

➔ The cash account has been deleted.

### 3.9.1.4 Create a Cash Accounts Group

#### Context of Usage

This section describes how to create a group that includes different cash account, depending on the user purpose. As a reminder, user can create groups in order to manage actions as monitoring, liquidity transfer and settlement. Groups have a peculiar data visibility, and can be created only by NCB users. In this case scenario, focus is dedicated to the Account Monitoring Group, but the other screens are very similar.

#### Privileges

To carry out this business scenario, you need the following privilege:

■ Create Account Monitoring Group

#### Reference

Further information on the involved screens can be found in the screen reference part:

■ *Account Monitoring Group – new/edit* screen [►]

#### Instructions

1. Go to *Account Monitoring Group – new/edit* screen:  
T2 >> Cash >> *Account Monitoring Group* >> New  
➔ The *Account Monitoring Group – new* screen is displayed.
2. Enter all mandatory information, paying particular attention to *Leader Party BIC* field, which will be able to view all the group's content but will be able to edit only the account entities under its data scope.

3. Click on the *submit* button.

➔ The new Account Monitoring Group has been created.

### 3.9.1.5 Create an Authorised Account User

#### Context of Usage

This business scenario describes how to create an authorised account user in order to connect a BIC11 to a specific cash account. This connection allows the BIC11 to use the cash account for its settlement purposes.

The same cash account can be assigned to more than one BIC11 but only one cash account can be linked to the same BIC11.

Before you start, check whether the BIC11 and the cash account exist in CRDM.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Create Authorised Account User

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Authorised Account User – search/list* screen [▶]
- *Authorised Account User – new/edit* screen [▶]

#### Instructions

1. Go to the *Authorised Account User – new/edit* screen:  
Common >> Cash >> Authorised Account Users >> New

2. Enter all the mandatory information in the 'Authorised account user new' frame. In the following example, it was set a RTGS DCA as *Cash Account Number* for a *Direct Participation Type*.

3. Click on the *submit* button.  
➡ A new Authorised Account User has been created.

### 3.9.1.6 Edit an Authorised Account User

#### Context of Usage

This business scenario describes how to edit an authorised account user in order to modify the validity dates of the connection between the BIC11 and the cash account for settlement purposes.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Update Authorised Account User

#### Reference

Further information on screens involved can be found in the screen reference part:

- *Authorised Account User – search/list* screen [▶]
- *Authorised Account User – new/edit* screen [▶]

#### Instructions

1. Go to the *Authorised Account User – search/list* screen:  
Common >> Cash >> Authorised Account Users >> Search
2. Enter the search criteria known to you about the Authorised Account Users you want to edit
3. Click on the *edit* button.
4. Modify the information on the validity dates of the selected Authorised Account User.

5. Click on the *submit* button.

➡ The Authorised account user has been modified.

### 3.9.1.7 Delete an Authorised Account User

#### Context of Usage

This business scenario describes how to delete an authorised account user. The authorised account user can be deleted only if the Valid from value is in the future or the Valid to value is in the past.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Delete Authorised Account User

#### Reference

Further information on screens involved can be found in the screen reference part:

- Authorised Account User – search/list screen [▶]

- Authorised Account User – new/edit screen [▶]

#### Instructions

- Go to the *Authorised Account User – search/list* screen:  
Common >> Cash >> Authorised Account Users >> Search
- Enter the search criteria known to you about the Authorised Account Users you want to delete.
- Click on the *search* button.
- Click on the *delete* button.
- The Authorised account user has been deleted.

### 3.9.1.8 Usage of RTGS Directory

#### Context of Usage

The RTGS Directory is a query that is meant to allow the user to search for Account BICs and then download the related data, according to the configuration, especially the Participation Type, already set when creating an

Authorised Account User. A non exhaustive example related to the Account BIC and Participation type "Direct" follows.

## Privileges

To carry out this business scenario, you need the following privileges:

- RTGS Directory query

## Reference

Further information on screens involved can be found in the screen reference part:

- RTGS Directory – search/list screen [ ]

## Instructions

- Go to the *Authorised Account User – new/edit* screen:  
Common >> Cash >> Authorised Account Users >> New
- Enter, as an example, ABCDITPPXXX in the 'Authorised account user BIC' field, which indicates the party authorized on a specified cash account. For the latter, fill the 'Cash Account Number' field, inserting AAAAAAAXXX. Complete the configuration, setting the 'Valid From' field and also selecting Direct as for 'Participation Type'.

- Click on the *submit* button.  
⇒ A new Authorised Account User has been created.
- Go to the *RTGS Directory – search/list* screen:  
Common >> T2 >> Configuration >> RTGS Directory
- Search for 'Account Holder BIC', which means AAAAAAAXXX.

⇒ Searched data is displayed. User can now download it clicking on the button related to the interested RTGS Directory version.

### 3.9.1.9 Change the Limit of a Payment Bank

This business scenario describes how to change the limits of a NCB, payment bank or an ancillary system.

The business scenario is not relevant for CSD and CSD participant user.

#### Privileges

To carry out this business scenario, you need the following privileges:

- Limit query
- Create limit

#### References

Further information on screens involved can be found in the screen reference parts:

- *Limits - search/list* screen [▶]
- *Limit - new/edit* screen [▶]

#### Instructions

1. Go to the *limits* – screen:  
Common >> Cash >> Limits >> Search
2. Click on the *new* button.  
⇒ The *limit – new* screen is displayed.

' checkbox), 'Valid From' (a date picker showing '2021-02-19'), 'Time' (a time picker showing '00 : 00'), 'Valid To' (a date picker showing 'yyyy-mm-dd'), 'Time' (a time picker showing '00 : 00'), and 'To Account BIC' (a 'Choose BIC' button). On the right side, there are three circular buttons: 'Submit' (with a plus icon), 'Reset' (with a circular arrow icon), and 'Cancel' (with an 'x' icon)." data-bbox="233 488 885 691"/>

- 3 Enter all required information about the limit you want to create.
- 4 You can select six types of limits into the 'Limit Type' select box: T2S auto-collateralisation, T2S external guarantee, T2S unsecured credit, T2 multilateral, T2 bilateral and TIPS CMB.

#### Alternatives

To set all fields to default value and blank out all optional fields, click on the *reset* button.

To cancel the process and return to the previous screen, click on the *cancel* button.

5. Click on the *submit* button.

➔ The new auto-collateralisation limit has been created.

## 3.10 Technical Addresses

### 3.10.1 Configuration of a Technical Address

#### Overview

This business package describes the configuration of a technical address. The technical address is used by the shared services to exchange data with the party. A complete configuration foresees the specification of a technical address connected to a network service via a technical address service link.

#### Business Scenario

To configure a technical address, carry out the following business scenarios in the predefined order:

- Add a new technical address to a party [▶]
- Create a new technical address service link [▶]

#### 3.10.1.1 Add a new Technical Address to a Party

##### Context of Usage

This business scenario describes how to add a new technical address to a party. Each Central Bank/CSD is responsible for defining all the required technical addresses for its parties as a first step to have a complete routing configuration. Adding a new technical address to a party is mandatory for the configuration of a technical address. Before you add a technical address to yourself or one of your participants, check whether the technical address exists in CRDM.

You have to add at least one technical address for each of your participants.

This business scenario is not relevant for Payment Bank, CSD participant and Ancillary System users.

##### Privileges

To carry out this business scenario, you need the following privileges:

- Party list query
- Party reference data query
- Technical address network service link details query
- Update party

##### Reference

Further information on screens involved can be found in the screen reference part:

- *Parties – search/list* screen [▶]
- *Party – details* screen [▶]

## I Party – new/edit screen [▶]

### Instructions

1. Go to the *parties – search/list screen*:  
Common >> Parties >> Parties >> Search
2. Enter all search criteria known to you about the party to which you want to add the technical address.
3. Click on the *search* button.
  - ⇒ A list containing the search results is displayed on the screen.
  - ⇒ If the search retrieves only one party, the *party – details* screen is displayed directly. Proceed with step 5.
4. Select the relevant party by clicking on an entry in the list.
5. Click on the *edit* button.
  - ⇒ The party – *edit* screen is displayed.
6. To add a technical address, enter its name in the 'Technical Addresses' frame.

7. Click on the *add row* button.
  - ⇒ The technical address has been added to the list.

### Repetition

To add more technical addresses, repeat steps 6 and 7.  
You can add up to 10 technical addresses.

### Alternatives

To set all fields to default value and blank out all optional fields, click on the *reset* button.

To cancel the process and return to the previous screen, click on the *cancel* button.

8. Click on the *submit* button.

➔ The new technical address has been created.

## 3.10.1.2 Create a New Technical Address Service Link

### Context of Usage

This business scenario describes how to create a new technical address in order to connect a party technical address to a specific network service. This connection allows the shared services to route outbound communication.

You can assign the same network service to more than one technical address of the same party and you can also assign more than one network service to the same technical address.

Before you start, check whether the network service and the technical address exist in CRDM.

This business scenario is not relevant for Payment Bank, Ancillary System and CSD participant users.

### Privileges

To carry out this business scenario, you need the following privileges:

- Party list query
- Party reference data query
- Update party
- Create technical address network service link

### Reference

Further information on screens involved can be found in the screen reference part:

- *Parties – search/list* screen [▶]
- *Party – details* screen [▶]
- *Party – new/edit* screen [▶]
- *Technical addresses network services link – new/edit* screen [▶]

### Instructions

1. Go to the *parties – search/list* screen:  
Common >> Parties >> Parties >> Search

2. Enter all search criteria known to you about the party to which you want to create a technical address service link.
3. Click on the *search* button.
  - ⇒ A list containing the search results is displayed on the screen.
  - ⇒ If the search retrieves only one party, the *party – details* screen is displayed directly. Proceed with step 6.
4. Select the relevant party by clicking on an entry in the list.
5. Click on the *edit* button.
  - ⇒ The party – *edit* screen is displayed.
6. Click on the *technical addresses network services links* button.
  - ⇒ The *technical address network services links – edit* screen is displayed.

7. Enter all mandatory information in the 'Add Tech. Address Network Service Link' frame.
8. Click on the *submit row* button.

### Repetition

To add more technical addresses network services links, repeat steps 7 and 8. You can add up to 10 technical addresses network services links.

- ⇒ A new technical address network service link has been created.

## 4 Annex

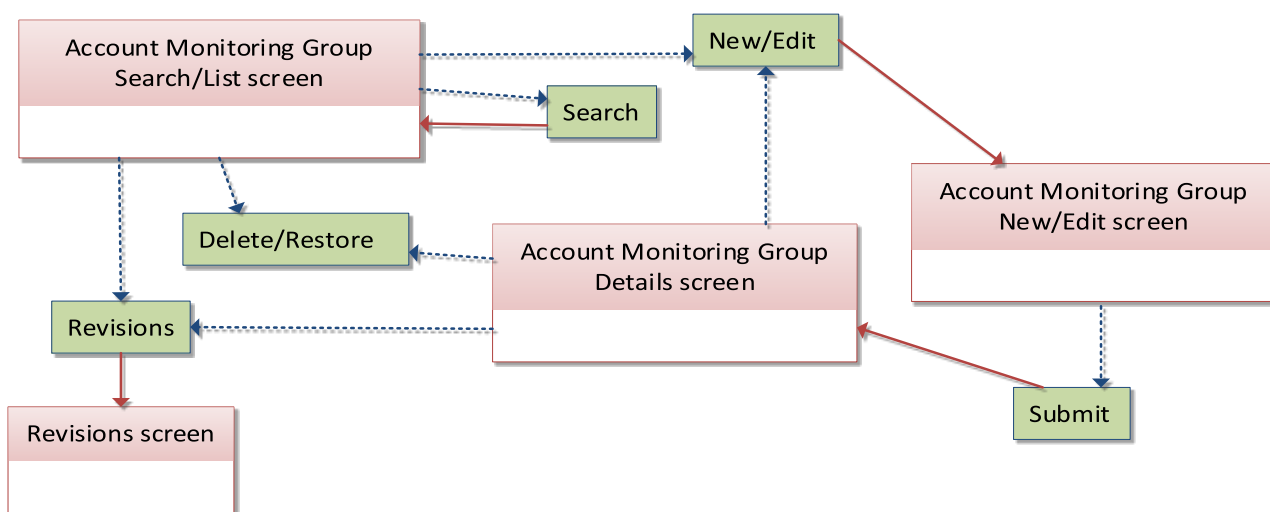

### 4.1 Sitemap

In the following sub-sections the reader may find the hierarchical, structured illustration of all the CRDM screens and their interrelations.

You can find below the legend which explains the meaning of each object, i.e. screen, button, dotted (blue) arrow, solid (red) arrow illustrated in the following diagrams.

Object in the diagram	Description
	The object represents a screen.
	When a button is displayed on the screen, a dotted blue arrow is shown as a link between the screen and the corresponding button.
	The object represents a button which is shown in the relevant screen.
	After a button is pressed, the result can be displayed either on the same screen or in a different screen (e.g. the details screen).

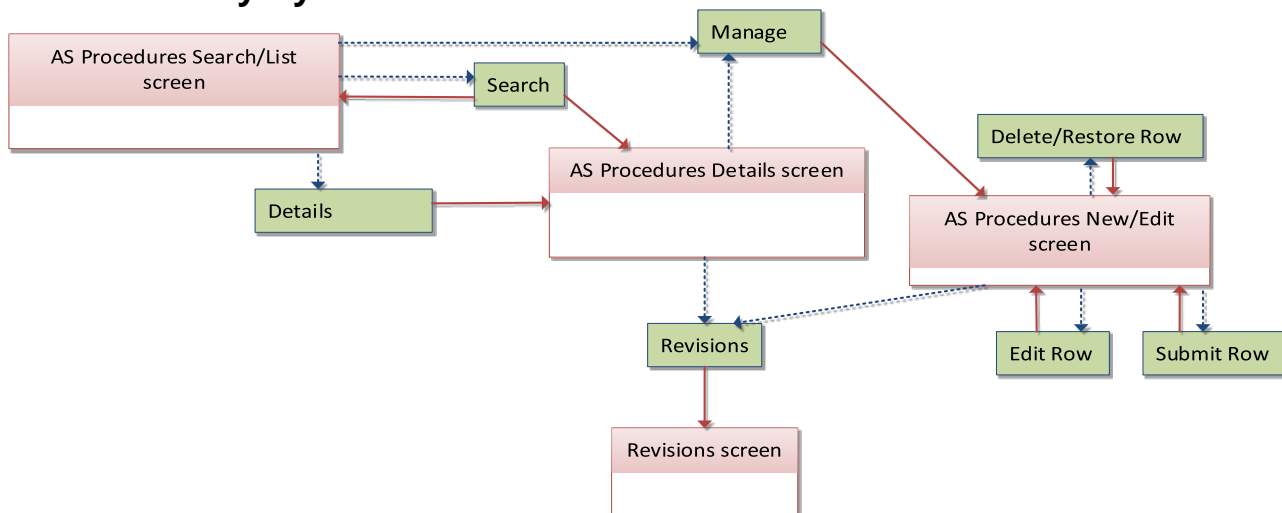

#### 4.1.1 Account Monitoring Group

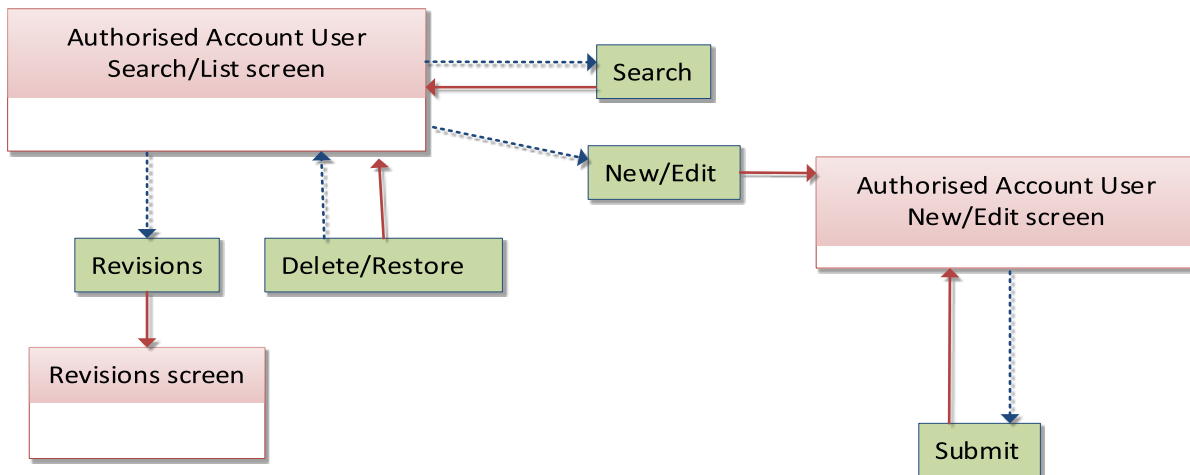

## 4.1.2 Ancillary System Bilateral Agreement

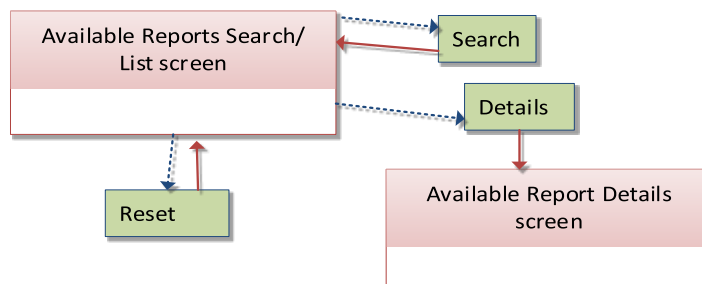

## 4.1.3 Ancillary System Procedures

## 4.1.4 Authorised Account User

## 4.2 List of Privileges

### 4.2.1 Reader's Guide

#### Reader's Guide

The list of privileges is structured in accordance with the alphabetical screen order and provides detailed information on privilege code, privilege type, object type and screen criteria related to each privilege.

### 4.2.2 Privileges for GUI Screens

#### 4.2.2.1 Account Monitoring Group – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Account Monitoring Group	DCA_DeleteAccountMonitoringGroup	Delete button
Account Monitoring Group List Query	DCQ_AccountMonitoringGroupQuery	n/a

#### 4.2.2.2 Account Monitoring Group – Details Screen

Privilege	Privilege Code	Screen Criteria
Delete Account Monitoring Group	DCA_DeleteAccountMonitoringGroup	Delete button
Account Monitoring Group Details Query	DCQ_AccountMonitGroupDetailsQuery	Details screen

#### 4.2.2.3 Account Monitoring Group – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Account Monitoring Group	DCA_CreateAccountMonitoringGroup	New mode
Update Account Monitoring Group	DCA_UpdateAccountMonitoringGroup	Edit mode

#### 4.2.2.4 Ancillary System Bilateral Agreement – Search/List screen

Privilege	Privilege Code	Screen Criteria
AS Bilateral Agreement list query	PDQ_ASBiIAgreementListQuery	n/a
Delete AS Bilateral Agreement	PDM_DeleteASBiIAgreement	Delete button

#### 4.2.2.5 Ancillary System Bilateral Agreement – New/Edit screen

Privilege	Privilege Code	Screen Criteria
Create AS Bilateral Agreement	PDM_CreateASBilAgreement	New mode
Update AS Bilateral Agreement	PDM_UpdateASBilAgreement	Edit mode

#### 4.2.2.6 Ancillary System Procedures – Search/List screen

Privilege	Privilege Code	Screen Criteria
AS Procedures list query	PDQ_ASProceduresListQuery	n/a
AS Procedures reference data query	PDQ_ASProceduresReferDataQuery	Details button

#### 4.2.2.7 Ancillary System Procedures – Details screen

Privilege	Privilege Code	Screen Criteria
AS Procedures reference data query	PDQ_ASProceduresReferDataQuery	n/a

#### 4.2.2.8 Ancillary System Procedures – New/Edit screen

Privilege	Privilege Code	Screen Criteria
Create AS Procedure	PDM_CreateASProcedure	New mode
Update AS Procedure	PDM_UpdateASProcedure	Update mode
Delete AS Procedure	PDM_DeleteASProcedure	Delete button

#### 4.2.2.9 Authorised Account User – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Authorised Account User	DCA_DeleteAuthorisedAccountUser	Delete button
Authorised Account User Query	DCQ_AuthorisedAccountUserListQuery	n/a

#### 4.2.2.10 Authorised Account User – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Authorised Account User	DCA_CreateAuthorisedAccountUser	New mode
Update Authorised Account User	DCA_UpdateAuthorisedAccountUser	Edit mode

#### 4.2.2.11 Available Reports – Search/List screen

Privilege	Privilege Code	Screen Criteria
Report List Query	RCO_ReportListQuery	n/a

#### 4.2.2.12 Available Reports – Details screen

Privilege	Privilege Code	Screen Criteria
Report Details Query	RCO_ReportDetailsQuery	Details button

#### 4.2.2.13 Available Reports - Statement of Common Reference Data details screen

Privilege	Privilege Code	Screen Criteria
Report Details Query	REQ_ReportDetailsQuery	n/a

#### 4.2.2.14 Banking Group – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Banking Group	PDM_DeleteBankingGroup	Delete button Restore button
Banking Group Query	PDQ_BankingGroupQuery	n/a

#### 4.2.2.15 Banking Group – Details Screen

Privilege	Privilege Code	Screen Criteria
Delete Banking Group	PDM_DeleteBankingGroup	Delete button Restore button
Banking Group Details Query	PDQ_BankingGroupDetailsQuery	n/a

#### 4.2.2.16 Banking Group – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
-----------	----------------	-----------------

Create Banking Group	PDM_CreateBankingGroup	New mode
Update Banking Group	PDM_UpdateBankingGroup	Edit mode

#### 4.2.2.17 BIC Directory – Search/List Screen

Privilege	Privilege Code	Screen Criteria
BIC Query	SDQ_T2SBICQuery	n/a

#### 4.2.2.18 Billing Group – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Billing Group	PDM_DeleteBillingGroup	Delete button Restore button
Billing Group Query	PDQ_BillingGroupQuery	n/a

#### 4.2.2.19 Billing Group – Details Screen

Privilege	Privilege Code	Screen Criteria
Delete Billing Group	PDM_DeleteBillingGroup	Delete button Restore button
Billing Group Details Query	PDQ_BillingGroupDetailsQuery	n/a

#### 4.2.2.20 Billing Group – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Billing Group	PDM_CreateBillingGroup	New mode
Update Billing Group	PDM_UpdateBillingGroup	Edit mode

#### 4.2.2.21 Cash Account – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Cash Account List Query	DCQ_T2SDedicatedCashAccListQuery	n/a
Delete Cash Account	DCA_DeleteT2SDedicatedCashAccount	Delete button
Cash Account Reference Data Query	DCQ_T2SDedicCashAccReferDataQuery	Details button

#### 4.2.2.22 Cash Account – Details Screen

Privilege	Privilege Code	Screen Criteria
-----------	----------------	-----------------

Cash Account Reference Data Query	DCQ_T2SDedicCashAccReferDataQuery	n/a
Delete Cash Account	DCA_DeleteT2SDedicatedCashAccount	Delete button

#### 4.2.2.23 Cash Account – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Cash Account	DCA_CreateT2SDedicatedCashAccount	New mode
Update Cash Account	DCA_UpdateT2SDedicatedCashAccount	Edit mode

#### 4.2.2.24 Certificate Distinguished Name – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Certificate Query	ARQ_CertificateDNQuery	n/a
Delete Certificate Distinguished Name	ARM_DeleteCertificateDN	Delete Button

#### 4.2.2.25 Certificate Distinguished Name – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Certificate Distinguished Name	ARM_CreateCertificateDN	New mode
Update Certificate Distinguished Name	ARM_UpdateCertificateDN	Edit Mode

#### 4.2.2.26 CLM Repository – Search/List Screen

Privilege	Privilege Code	Screen Criteria
CLM Repository query	SDQ_CLMRepositoryQuery	n/a

#### 4.2.2.27 Closing Days – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Closing Day Query	SDQ_ClosingDayQuery	n/a

#### 4.2.2.28 Countries - Search/List Screen

Privilege	Privilege Code	Screen Criteria
Country query	SDQ_CountryQuery	n/a

#### 4.2.2.29 Common Reference Data Revisions – Search/List screen

Privilege	Privilege Code	Screen Criteria
Party Audit Trail Query	SDQ_PartyAudTrailQuery	Object Type = Party
Cash Account Audit Trail Query	DCQ_T2SDedicCashAccAudTrailQuery	Object Type = Cash Account
Securities Audit Trail Query	SDQ_SecuritiesAudTrailQuery	Object Type = Security
Securities Account Audit Trail Query	SDQ_SecuritiesAccAudTrailQuery	Object Type = Security Account
Residual Static Data Audit Trail Query	SDQ_ResidualStaticDataAudTrailQuery	Object Type different from the ones above

#### 4.2.2.30 Currencies - Search/List Screen

Privilege	Privilege Code	Screen Criteria
Currency query	SDQ_CurrencyQuery	n/a
Delete Currency	GCP_DeleteCurrency	Delete button

#### 4.2.2.31 Data Changes – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Data changes of a business object list query	DDQ_DataChan-BusinessObjListQuery	n/a
Data changes of a business object details query	DDQ_DataChan-BusinessObjDetailQuery	n/a

#### 4.2.2.32 Data Changes – Details Screen

Privilege	Privilege Code	Screen Criteria
Data Changes of a Business Object Details Query	DDQ_DataChan-BusinessObjDetailQuery	n/a

#### 4.2.2.33 Direct Debit Mandate – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Direct Debit Mandate	DCA_DeleteDirectDebitMandate	Delete button
Direct Debit Mandate List Query	DCQ_DirectDebitMandateListQuery	n/a

#### 4.2.2.34 Direct Debit Mandate – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Direct Debit Mandate	DCA_CreateDirectDebitMandate	New mode
Update Direct Debit Mandate	DCA_UpdateDirectDebitMandate	Edit mode

#### 4.2.2.35 Distinguished Name–BIC Routing – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete DN-BIC Routing	ARM_DeleteDNBIC	Delete button
DN-BIC Routing Query	ARQ_DNBICQuery	n/a

#### 4.2.2.36 Distinguished Name–BIC Routing – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create DN-BIC Routing	ARM_CreateDNBIC	New Mode
Update DN-BIC Routing	ARM_UpdateDNBIC	Edit Mode

#### 4.2.2.37 Event Types – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Event Type List Query	SDQ_EventTypeListQuery	n/a
Delete Event Type	SCH_DeleteEventType	n/a

#### 4.2.2.38 Event Type – Details Screen

Privilege	Privilege Code	Screen Criteria
Event Type Details Query	SDQ_EventTypeDetailsQuery	Details mode

#### 4.2.2.39 Grant/Revoke Cross–System Entity Object Privilege – Details Screen

Privilege	Privilege Code	Screen Criteria
Granted Object Privileges List Query	SDQ_GrantObjectPrivilegesListQuery	n/a

#### 4.2.2.40 Grant/Revoke Cross-System Entity Object Privilege – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Grant Privilege	ARM_GrantPrivilege	<Grant>
Revoke Privilege	ARM_RevokePrivilege	<Revoke>

#### 4.2.2.41 Grant/Revoke Object Privilege – Details Screen

Privilege	Privilege Code	Screen Criteria
Granted Object Privileges List Query	ARQ_GrantObjectPrivilegesListQuery	n/a

#### 4.2.2.42 Grant/Revoke Object Privilege – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Grant Privilege	ARM_GrantPrivilege	n/a
Revoke Privilege	ARM_RevokePrivilege	n/a

#### 4.2.2.43 Grant/Revoke Role – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Grant/Revoke Role	ARM_GrantRole	n/a
Granted Roles List Query	SDQ_GrantRevokeRolesListQuery	n/a

#### 4.2.2.44 Grant/Revoke Role – Details Screen

Privilege	Privilege Code	Screen Criteria
Granted Roles List Query	SDQ_GrantedRolesListQuery	n/a

#### 4.2.2.45 Grant/Revoke Role – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Grant/Revoke Role	ARM_GrantRole	n/a

#### 4.2.2.46 Grant/Revoke System Privileges – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Privilege Query	SDQ_PrivilegeQuery	n/a

#### 4.2.2.47 Grant/Revoke System Privileges – Details Screen

Privilege	Privilege Code	Screen Criteria
Granted system privileges list query	ARQ_GrantedSysPrivilegesListQuery	n/a

#### 4.2.2.48 Grant/Revoke System Privileges – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Grant Privilege	ARM_GrantPrivilege	n/a
Revoke Privilege	ARM_RevokePrivilege	n/a
Granted System Privileges List Query	ARQ_GrantedSysPrivilegesListQuery	n/a

#### 4.2.2.49 Inbound File - Search/List Screen

Privilege	Privilege Code	Screen Criteria
Inbound Files List Query	DDQ_InboundFilesListQuery	n/a

#### 4.2.2.50 Inbound File - Details Screen

Privilege	Privilege Code	Screen Criteria
Inbound Files Details Query	DDQ_InboundFilesDetailsQuery	Details button

#### 4.2.2.51 Inbound Message - Details Screen

Privilege	Privilege Code	Screen Criteria
Inbound Messages Details Query	DDQ_InboundMessDetailsQuery	n/a

#### 4.2.2.52 Inbound Message - Search/List Screen

Privilege	Privilege Code	Screen Criteria
Inbound messages list query	DDQ_InboundMessListQuery	n/a
Inbound messages details query	DDQ_InboundMessDetailsQuery	n/a

#### 4.2.2.53 Invoice Configurations – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Invoice Configuration list query	SDQ_InvoiceConfigQuery	n/a

#### 4.2.2.54 Invoice Configurations – Details Screen

Privilege	Privilege Code	Screen Criteria
Delete Invoice Configuration	BIC_DeleteInvoiceConfig	Delete button
Invoice Configuration reference data query	SDQ_InvoiceConfigDetailsQuery	Details mode

#### 4.2.2.55 Invoice Configurations – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Invoice Configuration	BIC_CreateInvoiceConfig	New mode
Update Invoice Configuration	BIC_UpdateInvoiceConfig	Edit mode

#### 4.2.2.56 Limits – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Limit	DCA_DeleteLimit	Delete button
Limit Query	DCQ_LimitQuery	n/a

#### 4.2.2.57 Limits – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Limit	DCA_CreateLimit	New Mode
Update Limit	DCA_UpdateLimit	Edit Mode

#### 4.2.2.58 Liquidity Transfer Group – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Liquidity Transfer Group	DCA_DeleteLiquidityTransferGroup	Delete button Restore button
Liquidity Transfer Group Query	DCQ_LiquidityTransferGroupQuery	n/a

#### 4.2.2.59 Liquidity Transfer Group – Details Screen

Privilege	Privilege Code	Screen Criteria
Delete Liquidity Transfer Group	DCA_DeleteLiquidityTransferGroup	Delete button Restore button
Liquidity Transfer Group Details Query	DCQ_LiquidityTransGroupDetailsQuery	n/a

#### 4.2.2.60 Liquidity Transfer Group – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Liquidity Transfer Group	DCA_CreateLiquidityTransferGroup	New mode
Update Liquidity Transfer Group	DCA_UpdateLiquidityTransferGroup	Edit mode

#### 4.2.2.61 Message Subscription Rule Set – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Message Subscription Rule Set	MSU_DeleteMessSubscriptionRuleSet	Delete button
Message Subscription Rule Set List Query	SDQ_MessSubscrRuleSetListQuery	n/a
Message Subscription Rule Set Details Query	SDQ_MessSubscrRuleSetDetailQuery	n/a

#### 4.2.2.62 Message Subscription Rule Set – Details Screen

Privilege	Privilege Code	Screen Criteria
Message Subscription Rule Set Details Query	SDQ_MessSubscrRuleSetDetailQuery	Details mode
Delete Message Subscription Rule Set	MSU_DeleteMessSubscriptionRuleSet	Delete button
Message Subscription Rule List Query	SDQ_MessSubscrRuleListQuery	n/a
Update Message Subscription Rule	MSU_UpdateMessageSubscriptionRule	Edit mode
Delete Message Subscription Rule	MSU_DeleteMessageSubscriptionRule	Delete button

#### 4.2.2.63 Message Subscription Rule Set – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Message Subscription Rule Set	MSU_CreateMessageSubscriptionRule	New mode
Update Message Subscription Rule Set	MSU_UpdateMessageSubscriptionRule	Edit mode

#### 4.2.2.64 Message Subscription Rule – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
-----------	----------------	-----------------

Create Message Subscription Rule	MSU_CreateMessageSubscriptionRule	New mode
Update Message Subscription Rule	MSU_UpdateMessageSubscriptionRule	Edit mode
Message Subscription Rule List Query	SDQ_MessSubscrRuleListQuery	n/a
Message Subscription Rule Set Details Query	SDQ_MessSubscrRuleSetDetailQuery	n/a
Message Subscription Rule Set List Query	SDQ_MessSubscrRuleSetListQuery	n/a

#### 4.2.2.65 Minimum Reserve Configuration – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Minimum Reserve Configuration query	SDQ_MinResConfQuery	n/a

#### 4.2.2.66 Network Services - Search/List Screen

Privilege	Privilege Code	Screen Criteria
Network Service List query	SDQ_NetworkServiceListquery	n/a

#### 4.2.2.67 Outbound File - Details Screen

Privilege	Privilege Code	Screen Criteria
Outbound Files Details Query	DDQ_OutboundFilesDetailsQuery	n/a

#### 4.2.2.68 Outbound File - Search/List Screen

Privilege	Privilege Code	Screen Criteria
Outbound Files List Query	DDQ_OutboundFilesListQuery	n/a
Outbound Files Details Query	DDQ_OutboundFilesDetailsQuery	Details Button

#### 4.2.2.69 Outbound Message - Details Screen

Privilege	Privilege Code	Screen Criteria
Outbound Message Details Query	DDQ_OutboundMessDetailsQuery	n/a

#### 4.2.2.70 Outbound Message - Search/List Screen

Privilege	Privilege Code	Screen Criteria
Outbound Message List Query	DDQ_OutboundMessListQuery	n/a
Outbound Message Details Query	DDQ_OutboundMessDetailsQuery	n/a

#### 4.2.2.71 Parties – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Party	PDM_DeleteParty	Delete button
Party List Query	SDQ_PartyListQuery	n/a

#### 4.2.2.72 Party – Details Screen

Privilege	Privilege Code	Screen Criteria
Party Reference Data Query	PDQ_PartyReferDataQuery	Details screen
Delete Party	PDM_DeleteParty	Delete button
Technical Address Network Service Link Details Query	SDQ_DisplayTechAddressNetSerLink	Technical address network services link button

#### 4.2.2.73 Party – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Party	PDM_CreateParty	New mode
Update Party	PDM_UpdateParty	Edit mode

#### 4.2.2.74 Party Service Link – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Party-Service Link	PDM_DeletePartyServiceLink	Delete button
Party-Service Link List Query	PDQ_PartyServiceLinkListQuery	n/a

#### 4.2.2.75 Party Service Link – Details Screen

Privilege	Privilege Code	Screen Criteria
Party-Service Link List Details Query	PDQ_PartyServiceLinkDetailsQuery	Details mode

#### 4.2.2.76 Party Service Link – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Party-Service Link	PDM_CreatePartyServiceLink	New mode
Update Party-Service Link	PDM_UpdatePartyServiceLink	Edit mode

#### 4.2.2.77 Privileges – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Privilege query	SDQ_PrivilegeQuery	n/a

#### 4.2.2.78 Queued Data Changes – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Data Changes of a Business Object List Query	DDQ_DataChan-BusinessObjListQuery	n/a
Data Changes of a Business Object Details Query	DDQ_DataChan-BusinessObjDetailQuery	<i>Details</i> button

#### 4.2.2.79 Queued Data Changes – Details Screen

Privilege	Privilege Code	Screen Criteria
Data Changes of a Business Object Details Query	DDQ_DataChan-BusinessObjDetailQuery	n/a

#### 4.2.2.80 Report Configuration – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Report Configuration	RCO_DeleteReportConfiguration	Delete button
Report Configuration List Query	SDQ_ReportConfigListQuery	n/a

#### 4.2.2.81 Report Configuration – Details Screen

Privilege	Privilege Code	Screen Criteria
Report Configuration Details Query	SDQ_ReportConfigDetailQuery	Details mode
Delete Report Configuration	RCO_DeleteReportConfiguration	Delete button

#### 4.2.2.82 Report Configuration – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Report Configuration	RCO_CreateReportConfiguration	New mode
Update Report Configuration	RCO_UpdateReportConfiguration	Edit mode

#### 4.2.2.83 Restricted Parties – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Restricted Party query	SDQ_RestrictedPartyQuery	n/a

#### 4.2.2.84 Restriction Types – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Market-specific Restriction List Query	SDQ_Market-SpecRestrictListQuery	n/a
Delete Restriction Type	MSC_DeleteRestrictionType	n/a

#### 4.2.2.85 Restriction Types – Details Screen

Privilege	Privilege Code	Screen Criteria
Market-specific Restriction Type Rule Set List Query	SDQ_MarkSpecRestrTypeRuleSetListQue	n/a
Delete Restriction Type	MSC_DeleteRestrictionType	n/a
Market-specific Restriction Type Rule Detail Query	SDQ_Market-SpecRestrictDetailQuery	n/a
Update Restriction Type Rule	MSC_UpdateRestrictionType	n/a
Delete Restriction Type Rule	MSC_DeleteRestrictionTypeRule	n/a

#### 4.2.2.86 Restriction Types – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Restriction Type	MSC_CreateRestrictionType	New mode
Update Restriction Type	MSC_UpdateRestrictionType	Edit mode

#### 4.2.2.87 Restriction Types Rule – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Restriction Type Rule	MSU_CreateMessageSubscriptionRule	New mode
Update Restriction Type Rule	MSU_UpdateMessageSubscriptionRule	Edit mode

Restriction Type Rule List Query	SDQ_MessSubscrRuleListQuery	n/a
Restriction Type Rule Set Details Query	SDQ_MessSubscrRuleSetDetailQuery	n/a
Restriction Type Rule Set List Query	SDQ_MessSubscrRuleSetListQuery	n/a

#### 4.2.2.88 Revision/Audit Trail – List Screen

Privilege	Privilege Code	Screen Criteria
Party Audit Trail Query	SDQ_PartyAudTrailQuery	Object Type = Party
Cash Account Audit Trail Query	DCQ_T2SDedicCashAccAudTrailQuery	Object Type = Cash Account
Residual Static Data Audit Trail Query	SDQ_ResidualStaticDataAudTrailQuery	Object Type different from Party or Cash Account
Securities Account Audit Trail Query	SDQ_SecuritiesAccAudTrailQuery	Object Type = Securities Account
Securities Audit Trail Query	SDQ_SecuritiesAudTrailQuery	Object Type = Securities

#### 4.2.2.89 Revision/Audit Trail – Details Screen

Privilege	Privilege Code	Screen Criteria
Party Audit Trail Query	SDQ_PartyAudTrailQuery	Object Type = Party
Cash Account Audit Trail Query	DCQ_T2SDedicCashAccAudTrailQuery	Object Type = Cash Account
Residual Static Data Audit Trail Query	SDQ_ResidualStaticDataAudTrailQuery	Object Type different from Party or Cash Account
Securities Account Audit Trail Query	SDQ_SecuritiesAccAudTrailQuery	Object Type = Securities Account
Securities Audit Trail Query	SDQ_SecuritiesAudTrailQuery	Object Type = Securities

#### 4.2.2.90 Roles – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Role List Query	SDQ_RoleListQuery	n/a
Delete Role	ARM_DeleteRole	Delete button

#### 4.2.2.91 Role – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Role	ARM_CreateRole	New mode
Update Role	ARM_UpdateRole	Edit mode

#### 4.2.2.92 Routing – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Routing	NCO_DeleteRouting	Delete button
Routing List Query	SDQ_RoutingQuery	n/a

#### 4.2.2.93 Routing – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Routing	NCO_CreateRouting	New mode
Update Routing	NCO_UpdateRouting	Edit mode

#### 4.2.2.94 RTGS Directory – Search/List Screen

Privilege	Privilege Code	Screen Criteria
RTGS Directory query	SDQ_RTGSBICDirQuery	n/a

#### 4.2.2.95 Secured Group – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Secured Group	ARM_DeleteSecuredGroup	<i>Delete</i> button
Secured Group List Query	ARQ_SecuredGroupListQuery	n/a

#### 4.2.2.96 Secured Group – Details Screen

Privilege	Privilege Code	Screen Criteria
Secured Group Details Query	ARQ_SecuredGroupDetailsQuery	<i>Details</i> screen
Delete Secured Group	ARM_DeleteSecuredGroup	<i>Delete</i> button

#### 4.2.2.97 Secured Group – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Secured Group	ARM_CreateSecuredGroup	New mode
Update Secured Group	ARM_UpdateSecuredGroup	Edit mode

#### 4.2.2.98 Service Items – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Service Item list query	BIQ_ServiceItemQuery	n/a

#### 4.2.2.99 Service Item – Details Screen

Privilege	Privilege Code	Screen Criteria
Service Item reference data query	BIQ_ServiceItemDetailsQuery	Details mode

#### 4.2.2.100 Settlement Bank Account Group – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Settlement Bank Account Group	DCA_DeleteSettBankAccountGroup	Delete button Restore button
Settlement Bank Account Group Query	DCQ_SettBankAccountGroupQuery	n/a

#### 4.2.2.101 Settlement Bank Account Group – Details Screen

Privilege	Privilege Code	Screen Criteria
Delete Settlement Bank Account Group	DCA_DeleteSettBankAccountGroup	Delete button Restore button
Settlement Bank Account Group Details Query	DCQ_SettBankAcctGroupDetailsQuery	n/a

#### 4.2.2.102 Settlement Bank Account Group – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Settlement Bank Account Group	DCA_CreateSettBankAccountGroup	New mode
Update Settlement Bank Account Group	DCA_UpdateSettBankAccountGroup	Edit mode

#### 4.2.2.103 Standing Order for Reservation – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Standing Order for Reservation	DCA_DeleteStdgOrderforReservation	Delete button
Standing Order for Reservation List Query	DCQ_StandingOrdReservListQuery	n/a

#### 4.2.2.104 Standing Order for Reservation – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Standing Order for Reservation	DCA_CreateStdgOrderforReservation	New mode

Update Standing Order for Reservation	DCA_UpdateStdgOrderforReservation	Edit mode
---------------------------------------	-----------------------------------	-----------

#### 4.2.2.105 Standing/Predefined Liquidity Transfer Order – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete Liquidity Transfer Order	DCA_DeleteLiquidityTransferOrder	Delete button
Liquidity Transfer Order List Query	DCQ_LiquidTransOrderListQuery	n/a

#### 4.2.2.106 Standing/Predefined Liquidity Transfer Order – Details Screen

Privilege	Privilege Code	Screen Criteria
Liquidity Transfer Order Details Query	DCQ_LiquidTransOrderDetailQuery	Details button
Delete Liquidity Transfer Order	DCA_DeleteLiquidityTransferOrder	Delete button

#### 4.2.2.107 Standing/Predefined Liquidity Transfer Order – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create Liquidity Transfer Order	DCA_CreateLiquidityTransferOrder	New mode
Update Liquidity Transfer Order	DCA_UpdateLiquidityTransferOrder	Edit mode

#### 4.2.2.108 System Entity – Search/List Screen

Privilege	Privilege Code	Screen Criteria
System Entity Query	SDQ_SystemEntityQuery	n/a

#### 4.2.2.109 Tariffs – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Tariff list Query	SDQ_TariffQuery	n/a

#### 4.2.2.110 Technical Addresses Network Services Link – Details Screen

Privilege	Privilege Code	Screen Criteria
Technical Addresses Network Services Links Details Query	SDQ_DisplayTechAddressNetSerLink	n/a

#### 4.2.2.111 Technical Addresses Network Services Link – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
-----------	----------------	-----------------

Create Technical Addresses Network Services Links	PDM_CreateTechnAddressNetServLink	New mode
Delete Technical Addresses Network Services Links	PDM_DeleteTechnAddressNetServLink	Delete button

#### 4.2.2.112 TIPS Directory – Search/List Screen

Privilege	Privilege Code	Screen Criteria
TIPS Directory Query	SDQ_TIPSDirectoryQuery	n/a

#### 4.2.2.113 User – Search/List Screen

Privilege	Privilege Code	Screen Criteria
System User Query (T2S Actor Query)	ARQ_T2SSysUserQueryT2SActorQuery	n/a
Delete User	ARM_DeleteUser	Delete button

#### 4.2.2.114 User – Details Screen

Privilege	Privilege Code	Screen Criteria
System User Query (T2S Actor Query)	ARQ_T2SSysUserQueryT2SActorQuery	n/a
Delete User	ARM_DeleteUser	Delete button

#### 4.2.2.115 User – New/Edit Screen

Privilege	Privilege Code	Screen Criteria
Create User	ARM_CreateUser	New mode
Update User	ARM_UpdateUser	Edit mode

#### 4.2.2.116 User Access Rights – List Screen

Privilege	Privilege Code	Screen Criteria
Access Rights query	ARQ_AccessRightsQuery	n/a

#### 4.2.2.117 User Access Rights – Search Screen

Privilege	Privilege Code	Screen Criteria
Access Rights query	ARQ_AccessRightsQuery	Search button

#### 4.2.2.118 User Certificate Distinguished Name Link – Search/List Screen

Privilege	Privilege Code	Screen Criteria
Delete User Certificate Distinguished Name Link	ARM_DeleteUserCertificDNLink	Delete button
System User Link Query	ARQ_UserCertifDNLinkQuery	n/a

## 4.3 List of References for Error Messages

### 4.3.1 Reader's Guide

#### Reader's Guide

This section includes a list of references for error messages for all screens. The list of references for error messages consists of a general section, which lists overall error codes that apply to all GUI screens, and a section listing all error codes relevant for using the 4-eyes mode in GUI screens. For all sections, these are followed by specific sections for individual screens, which are organised in alphabetical screen order and specify the respective error codes applicable for each screen. Each error code table entry includes the error text and the description.

Please bear in mind that the Error Message description may make references to T2S reference data objects since the underlying Business Rules may be used for the creation of reference data for T2S when CRDM may be used for T2S also.

## 4.3.2 References for error messages for GUI screens

### 4.3.2.1 All

Reference for error message	Field or Button	Error Text	Description
DXAA007		Only one instance may become effective in the future	Each historical entity may have no more than one future instance.
DXAA045			During the night-time processing, if the requested change has an impact on the ongoing settlement process, the Reference Data object is created with approval status "Queued". These changes are finalized at the end of each night-time settlement sequence.
DXAA046			Any changes made active on a Reference Data object that may affect pending processes are notified to the relevant domains.

### 4.3.2.2 All screens which allow the initiation of a second user

Reference for error message	Field or Button	Error Text	Description
DXAA002		Data awaiting for approval cannot be modified	It is not allowed to perform a maintenance request, neither in 2-eyes nor in 4-eyes first step mode, that refers to an instance already awaiting for approval.
DXAA004			When creating, updating and restoring, in the 4-Eyes first step, the Reference Data Change must be consistent also with the "awaiting approval" status instances, which are considered valid as if they were approved.
DXAA011		Invalid approval requestor (must be different from the first requestor)	In case of approval request (4-eyes second step), the requestor must be different from the requestor of the first step. It can be equal only in case of revocation (confirmation = 'NO')
DXAA035		Request to be approved not found	In case of approval request (4-eyes second step), the request must refer to an existing instruction and the related

			entity(ies) must be in status 'Awaiting approval'.
--	--	--	----------------------------------------------------

#### 4.3.2.3 Account Monitoring Group – Search/List Screen

Reference for error message	Field or Button	Error Text	Description
DRDJ001	<ul style="list-style-type: none"> <li>Delete button</li> <li>Restore button</li> </ul>	Requestor not allowed	Banking Group, Billing Group, Liquidity Transfer Group and Settlement Bank Account Group can be deleted or restored by the Service Operator and CBs. Account Monitoring Group can be deleted or restored by the Service Operator, CBs and Payment Banks.
DRDJ002	<ul style="list-style-type: none"> <li>Delete button</li> <li>Status field</li> </ul>	Instance to be deleted not found	A delete request must refer to an existing and active instance that contains only future or past records.
DRDJ003	<ul style="list-style-type: none"> <li>Restore button</li> <li>Status field</li> </ul>	Instance to be restored not found	A restore request must refer to an existing and deleted instance that contains only future or past records.
DRDJ004	<ul style="list-style-type: none"> <li>Restore button</li> <li>Group Name field</li> </ul>	Name must be unique	The Data Aggregation Name should be unique in CRDM.
DRDJ005	<ul style="list-style-type: none"> <li>Restore button</li> <li>Leader Parent BIC field</li> <li>Leader Party BIC field</li> </ul>	Invalid Leader Party	The Leader Party should be an existing and active Party in the data scope of the requestor. It should be a CB for Banking Groups, a Payment Bank for Account Monitoring Groups, a Central Bank or a Payment Bank for Billing Groups, an Ancillary System for Settlement Bank Account Groups, and not specified for Liquidity Transfer Groups.
DRDJ009	<ul style="list-style-type: none"> <li>Restore button</li> </ul>	Invalid Entity	For Account Monitoring Groups, the Entity Identifier should refer to an existing and active Cash Account (with type MCA, RTGS Dedicated Cash Account, T2S Dedicated Cash Account or TIPS Account).

#### 4.3.2.4 Account Monitoring Group – Details Screen
